

HB 786 - SB 765

March 17, 2021

SUMMARY OF ORIGINAL BILL: Creates exceptions for the offense of open or concealed carrying of a firearm with the intent to go armed for any person legally in possession and not prohibited from carrying a firearm. Specifies that theft of a firearm worth less than \$2,500 is a Class E felony offense. Enhances the mandatory confinement period for theft of a firearm to 180 days. Creates an enhancement factor when an offense involved the theft of a firearm from a motor vehicle. Requires no release eligibility for certain offenses committed after July 1, 2021 unless 85 percent of an imposed sentence is served, less sentence credits. Prohibits a reduction of such sentences less than 70 percent of the sentence imposed.

FISCAL IMPACT OF ORIGINAL BILL:

Decrease State Revenue – \$2,676,500/FY21-22 and Subsequent Years/
Handgun Permit Division
\$594,600/FY21-22 and Subsequent Years/
Tennessee Bureau of Investigation

Increase State Expenditures – \$12,319,300 Incarceration*

Decrease State Expenditures – \$72,300/FY21-22 and Subsequent Years/
Handgun Permit Division
\$313,700/FY21-22 and Subsequent Years/
Tennessee Bureau of Investigation

Decrease Local Revenue – \$203,300/FY21-22 and Subsequent Years

Decrease Local Expenditures – Net Impact –
Exceeds \$624,900/FY21-22 and Subsequent Years

The Governor's proposed budget for FY21-22, on page A-35, recognizes a recurring increase in state expenditures to the General Fund of \$17,746,700, a recurring decrease in revenue to the Handgun Permit Division of \$2,411,100, and a recurring decrease in revenue to the Tennessee Bureau of Investigation of \$469,600 in FY21-22 and subsequent years.

SUMMARY OF AMENDMENT (005420): Adds language to the original bill to: (1) remove the application fees for original enhanced handgun carry permits, renewals of such, and lifetime handgun carry permits; and (2) removes the \$4.00 administrative fee contracted entities may charge to process enhanced handgun carry permit renewals.

FISCAL IMPACT OF BILL WITH PROPOSED AMENDMENT:

**Decrease State Revenue – \$12,521,300/FY21-22 and Subsequent Years/
Handgun Permit Division
\$2,972,800/FY21-22 and Subsequent Years/
Tennessee Bureau of Investigation**

**Increase State Expenditures – Net - \$107,400/FY21-22 and Subsequent Years/
Tennessee Bureau of Investigation**

\$12,319,300 Incarceration*

**Decrease State Expenditures – \$72,300/FY21-22 Through FY26-27/
Handgun Permit Division
\$98,700/FY27-28 and Subsequent Years/
Handgun Permit Division
\$164,600/FY21-22 and Subsequent Years/
Tennessee Bureau of Investigation**

Decrease Local Revenue – \$1,016,700/FY21-22 and Subsequent Years

**Decrease Local Expenditures – Net Impact –
Exceeds \$619,300/FY21-22 and Subsequent Years**

The Governor’s proposed budget for FY21-22, on page A-35, recognizes a recurring increase in state expenditures to the General Fund of \$17,746,700, a recurring decrease in revenue to the Handgun Permit Division of \$2,411,100, and a recurring decrease in revenue to the Tennessee Bureau of Investigation of \$469,600 in FY21-22 and subsequent years.

Assumptions for the bill as amended:

Concealed Handgun Carry Permits:

- Per the language of this legislation, a person legally in possession of a firearm and not prohibited from purchasing a firearm in the person's state of residence will have the same defenses and exceptions as a person who has been issued a handgun carry permit.
- For the purposes of this fiscal note, it is assumed all enhanced or concealed carrying permits issued will be standard, non-military or law enforcement permits.
- Handgun carry permits afford holders reciprocity; allowing them to legally carry a firearm in various other states.
- The cohort of individuals that would forego applying for or renewing an Enhanced Handgun Carry Permit (EHCP) or a Concealed Handgun Carry Permit (CHCP) would do so because: (1) they have no intention of carrying out-of-state, (2) the number of instances they feel compelled to carry a firearm on their person will be relatively limited, and (3) they can save money by forgoing applying for or renewing a permit.

- There have been 10 states that have switched to constitutional carry within the past six years. According to the Federal Bureau of Investigation’s National Instant Criminal Background Check System, of those states, there has been an average decline of 19.54 percent in criminal background check requests for those specific states following the passage of constitutional carry. This percentage does not account for general population growth and steady increase in criminal background check requests in states that do not have constitutional carry.
- Therefore, it can be reasonably estimated there will be a reduction of approximately 20 percent in new and renewal EHCP and CHCP applications each year as a result of this legislation.
- As CHCPs have only begun being issued January 1, 2020, there is only one year’s figures available as of yet. It is expected that without this legislation, 33,143 CHCPs will be issued annually.
- A 20 percent reduction is equivalent to 6,629 CHCP applications (33,143 annual issuances x 20%).
- For every CHCP fee paid, the entirety of the \$65 is retained by the Department of Safety’s (DOS) Handgun Permit Division (HPD). The expected impact to the HPD is a \$430,885 (6,629 x \$65) decrease in revenue in FY21-22 and subsequent years.
- In addition, there will be a recurring decrease in state expenditures as a result of producing fewer permit cards. The printing cost to produce one permit is \$1.99. The recurring decrease in state expenditures for the HPD in printing the CHCP \$13,192 (6,629 x \$1.99) in FY21-22 and subsequent years.
- For every CHCP application, the TBI is required to perform a fingerprint background check. The decrease in state expenditures to the TBI as a result of not performing the expected 20 percent of CHCP background checks will be \$57,341 (6,629 x \$8.65) in FY21-22 and subsequent years.
- Per the language of this legislation, as amended, the fee for new and renewal EHCP and LHCP is removed. The \$65 fee for CHCP remains in place. Due to that fact, it can be reasonably assumed that at least half of the remaining 80 percent of expected applicants will instead apply for a free LHCP.
- This will result in an additional decrease in state revenue to the HPD of \$861,705 in FY21-22 and subsequent years (see table below).

Current CHCP Applications	Current Revenue		With 20% Reduction	Revenue with 20% Reduction	With Additional 50% Reduction	Revenue with Additional 50% Reduction
33,143	DOS (\$65)	\$2,154,295	26,514	\$1,723,410	13,257	\$861,705

- There will be a decrease in state expenditures related to printing costs to the HPD as a result of expected CHCP holders becoming LHCP, instead.
- A CHCP does not expire for eight years; therefore, the first permits issued will expire January 1, 2028. However, pursuant to Tenn. Code Ann. § 39-17-1366(j)(2), a person may renew a CHCP beginning six months prior to the expiration date on the face of the

permit. The first renewal applications and fees, per this legislation, will begin being remitted on and after July 1, 2027.

- There will be a reduction in state expenditures to the HPD of \$26,381 (13,257 x \$1.99) in FY27-28 and subsequent years.

Enhanced Handgun and Lifetime Carry Permits:

- Per the language of this legislations, there will be no fee for new or renewal EHCP or LHCP.
- Based on the figures of the previous five fiscal years, the Department of Safety (DOS) will issue an average of 41,813 new EHCPs each year, 84,116 EHCPs renewals each year, and 22,602 lifetime handgun carry permits (LHCP) each year.
- It is estimated there will be a reduction of approximately 20 percent in new and renewal EHCP and LHCP applications each year as a result of this legislation.
- A 20 percent reduction is equivalent to 8,363 new EHCP applications (41,813 annual issuances x 20% reduction), 16,823 renewal EHCP applications (84,116 annual issuances x 20% reduction), 4,520 new LHCP applications, and (22,602 annual issuances x 20% reduction).
- However, there will be an increase of 13,257 new LHCP issued each year, rather than those that would apply for a CHCP.
- There will be a recurring decrease in state expenditures as a result of producing fewer permit cards. The printing cost to produce one permit is \$1.99. The recurring net decrease in state expenditures for the HPD in printing the EHCP and LHCP will be \$59,114 [(8,363 + 16,823 + 4,520) x \$1.99] in FY21-22 and subsequent years.
- There will be an increase of 13,257 new LHCP issued each year, rather than those that would apply for a CHCP. Printing costs would have been incurred for these licenses in the absence of this legislation.
- Subsequently, there will be an increase in expenditures for the required background and fingerprinting checks that are required of LHCP, but not CHCP.
- Applicable sheriff's department expend \$15 to cover the cost of a local background check. The mandatory increase in local expenditures in FY21-22 and subsequent years will be \$198,855 (13,257 x \$15).
- There will further be a decrease in local expenditures in FY21-22 and subsequent years as a result of the 20 percent reduction in new EHCP and LHCP permit applications to cover local background checks of \$193,245 [(8,363 + 4,520) x \$15].
- The TBI reports a cost for vendor fingerprinting expense of \$8.65 per background check. The 13,257 new LHCP applicants would have had a fingerprint background check under current law when applying for a CHCP, therefore any impact from this group is not significant.
- The recurring decrease in TBI vendor fingerprint expenditures is estimated to be \$111,438 [(8,363 + 4,520) x \$8.65].
- The TBI reports a cost of \$11.25 payable to the FBI for each FBI national background check conducted on each initial LHCP and EHCP application. The increase in state expenditures to the TBI will be \$149,141 (13,257 x \$11.25) in FY21-22 and subsequent years.
- The recurring decrease in TBI expenditures made to the FBI is estimated to be \$144,934 [(8,363 + 4,520) x \$11.25].

- There will be a 100 percent reduction in fee revenue for new and renewal EHCP and LHCP applications.
- The cost of a new EHCP is \$100. The cost of a renewed EHCP is \$50. From every new EHCP fee paid, \$15 is allocated to the applicable sheriff’s department to cover the cost of a local background check; \$15 is allocated to the Tennessee Bureau of Investigation (TBI) for updating and maintaining their databases; \$31.15 is allocated to the TBI to cover the cost of fingerprint vendors, TBI background checks, and Federal Bureau of Investigation (FBI) fingerprint background checks; the remaining \$38.85 is retained by the Handgun Permit Division (HPD) of DOS to specifically fund the administrative expenses of the HPD.
- Pursuant to Tenn. Code Ann. § 39-17-1351(x)(2), a LHCP is \$300. Of that fee, \$15 is allocated to the applicable sheriff’s department to cover the cost of a local background check; \$15 is allocated to the TBI for updating and maintaining their databases; \$31.15 is allocated to the TBI to cover the cost of fingerprint vendors, TBI background checks, and FBI fingerprint background checks; the remaining \$238.85 is retained by the HPD.
- There will be a decrease in state revenue to the HPD of \$11,228,723 (\$1,624,435 + \$4,205,800 + \$5,398,488) in FY21-22 and subsequent years. There will be a decrease in state revenue to TBI of \$2,972,752 (\$1,929,670 + \$1,043,082) in FY21-22 and subsequent years. There will be a decrease in local government revenue of \$966,225 (\$627,195 + \$339,030) in FY21-22 and subsequent years. (See Table Below)

		Current Revenue	
Current New EHCP Applications	41,813	DOS (\$38.85)	\$1,624,435
		TBI (\$46.15)	\$1,929,670
		Local (\$15)	\$627,195
Current Renewal EHCP Applications	84,116	DOS (\$50)	\$4,205,800
Current LHCP Applications	22,602	DOS (\$238.85)	\$5,398,488
		TBI (\$46.15)	\$1,043,082
		Local (\$15)	\$339,030

- Pursuant to Tenn. Code Ann. § 39-17-1351(q)(1), DOS partners with 48 county clerks’ offices in the state to issue EHCP renewals. The county clerks are authorized to charge an additional \$4.00 per renewal application, which is retained by the county. All 48 charge the full \$4.00.
- Per the language of this amendment, contracting agencies will no longer be eligible to charge a \$4.00 administration fee for processing EHCP renewal applications.
- These entities process approximately 15 percent of EHCP renewals.
- This legislation will result in a mandatory recurring decrease in local revenue of \$50,470 [(84,116 x 15%) x \$4.00] in FY21-22 and subsequent years.
- There will not be enough of a reduction in workload to impact total personnel required for the function of the HPD.

Convictions:

- Pursuant to Tenn. Code Ann. § 39-17-1307(a), it is a Class C misdemeanor offense to carry, with the intent to go armed, a firearm or a club, punishable with possible imprisonment and/or by a fine not to exceed \$500.
- In the last three fiscal years, there has been an average of 133 Class C misdemeanor offense convictions under this section of code.
- Based on the Fiscal Review Committee's 2008 study and the Administrative Office of the Courts' 2012 study on collection of court costs, fees, and fines, collection in criminal cases is insignificant. The proposed legislation will not significantly increase local revenue.
- There will not be a sufficient reduction of prosecutions for state or local government to experience any significant decrease in revenue or expenditures.

Theft of a Firearm/Theft of a Firearm from a Motor Vehicle Enhancement:

- This analysis assumes the average price of a firearm is less than \$1,000; therefore, theft of a firearm is a Class A misdemeanor under current law.
- Pursuant to Tenn. Code Ann. § 39-14-105(d), theft of a firearm is required to be punished by a minimum of 30 days confinement.
- Based on the 2020 Fiscal Review Committee survey, the weighted average cost to local governments to house an inmate in a local jail facility is \$73 per day.
- It is estimated an average of 300 individuals per year are admitted to local incarceration for theft of a firearm.
- Enhancing theft of a firearm to a Class E felony offense will result in a recurring decrease in local incarceration expenditures in FY21-22 and subsequent fiscal years estimated to be \$657,000 (300 admissions x 30 days x \$73).
- Based on population data from the U.S. Census Bureau, population growth in Tennessee averaged 0.80 percent per year for each of the past 10 years (from 2009 to 2019), yielding a projected compound population growth rate of 8.3 percent. Assuming Tennessee's population continues growing by the same rates over the next 10-year period, population growth will account for 25 (300 x 8.3%) additional admissions for a total of 325 (300 + 25).
- According to the DOC, 46.28 percent of offenders will re-offend within three years of their release. A recidivism discount of 46.28 percent has been applied to this estimate to account for the impact of offenders who would re-offend under current law within the additional time added by the proposed legislation. It is assumed that the re-offender would have committed the subsequent offense at the same felony level as under current law (325 offenders x 46.28% = 150 offenders).
- According to the DOC, the average operating cost per offender per day for calendar year 2021 is \$80.46.
- The average time served for a Class E felony is 0.60 years.
- Pursuant to Tenn. Code Ann. § 9-4-210, 175 (325 – 150 recidivism discount) offenders will be admitted every year serving 219.15 days (0.60 x 365.25). The annualized increase in state incarceration expenditures is estimated to be \$3,085,742 (\$80.46 x 219.15 x 175).

- The proposed legislation creates a sentencing enhancing factor for offenses involving the theft of a firearm from a motor vehicle.
- This analysis assumes 25 percent of theft of firearm offenses will result in a Class D felony enhancement.
- The average time served for a Class D felony is 1.08 years. The average time served for a Class C felony is 0.60 years. The proposed legislation will result in Class D sentence enhancement serving an additional 0.48 (1.08 – 0.60) years.
- Pursuant to Tenn. Code Ann. § 9-4-210, 56 (226 x 25%) offenders will be admitted every year serving an additional 175.32 days (0.48 x 365.25). The annualized increase in state incarceration expenditures is estimated to be \$789,950 (\$80.46 x 175.32 x 56).
- The average time served for a Class E felony offense exceeds the mandatory minimum confinement period of 180 imposed by the proposed legislation; therefore, any impact resulting from establishing a mandatory minimum is estimated to be not significant.

Sentencing:

- The proposed legislation requires the following offenses occurring on or after July 1, 2021, to have no release eligibility until the person reaches 85 percent of the sentence imposed by the court, less sentence credits earned and retained not to reduce such sentence below 70 percent of the sentence imposed:
 - Unlawful possession of a firearm by a person convicted of a felony crime of violence, an attempt to commit a felony crime of violence, or a felony involving use of a deadly weapon;
 - Unlawful possession of a firearm by a person convicted of a felony drug offense;
 - Unlawful possession of a handgun by a person convicted of a felony; and
 - Unlawful providing a handgun to a juvenile or permitting a juvenile to possess a handgun.

Unlawful Possession of a Firearm by a Person Convicted of a Felony Crime of Violence, an Attempt to Commit a Felony Crime of Violence or a Felony Involving Use of a Deadly Weapon:

- Pursuant to Tenn. Code Ann. § 39-17-1307(b)(1)(A), unlawful possession of a firearm by a person convicted of a felony crime of violence, an attempt to commit a felony crime of violence, or a felony involving use of a deadly weapon is a Class B felony.
- Based on information provided by the DOC, there has been an average of 72 admissions each year over the past three years for violations of Tenn. Code Ann. § 39-17-1307(b)(1)(A).
- Based on population data from the U.S. Census Bureau, population growth in Tennessee averaged 0.80 percent per year for each of the past 10 years (from 2009 to 2019), yielding a projected compound population growth rate of 8.3 percent. Assuming Tennessee's population continues growing by the same rates over the next 10-year period, population growth will account for 6 (72 x 8.3%) additional admissions for a total of 78 (72 + 6).
- According to the DOC, 46.28 percent of offenders will re-offend within three years of their release. A recidivism discount of 46.28 percent has been applied to this estimate to account for the impact of offenders who would re-offend under current law within the additional time added by the proposed legislation. It is assumed that the re-offender

would have committed the subsequent offense at the same felony level as under current law (78 offenders x 46.28% = 36 offenders).

- Based on information previously provided by DOC, the proposed legislation will extend the average sentence of an admission for violations of Tenn. Code Ann. § 39-17-1307(b)(1)(A) by 1,940.39 days per offender.
- According to the DOC, the average operating cost per offender per day for calendar year 2021 is \$80.46.
- Pursuant to Tenn. Code Ann. § 9-4-210, 42 (78 – 36 recidivism discount) offenders will be admitted every year serving an additional 1,940.39 days. The annualized increase in state incarceration expenditures is estimated to be \$6,557,199 (\$80.46 x 1,940.39 x 42).

Unlawful Possession of a Firearm by a Person Convicted of Felony Drug Offense:

- Pursuant to Tenn. Code Ann. § 39-17-1307(b)(1)(B), unlawful possession of a firearm by a person convicted of a felony drug offense is a Class C felony offense.
- Based on information provided by the DOC, there has been an average of 37 admissions each year over the past three years for violations of Tenn. Code Ann. § 39-17-1307(b)(1)(A).
- Based on population data from the U.S. Census Bureau, population growth in Tennessee averaged 0.80 percent per year for each of the past 10 years (from 2009 to 2019), yielding a projected compound population growth rate of 8.3 percent. Assuming Tennessee's population continues growing by the same rates over the next 10-year period, population growth will account for 3 (37 x 8.3%) additional admissions for a total of 40 (37 + 3).
- According to the DOC, 40.34 percent of offenders will re-offend within two years of their release. A recidivism discount of 40.34 percent has been applied to this estimate to account for the impact of offenders who would re-offend under current law within the additional time added by the proposed legislation. It is assumed that the re-offender would have committed the subsequent offense at the same felony level as under current law (40 offenders x 40.34% = 16 offenders).
- Based on information previously provided by DOC, the proposed legislation will extend the average sentence of an admission for violations of Tenn. Code Ann. § 39-17-1307(b)(1)(B) by 955.59 days per offender.
- According to the DOC, the average operating cost per offender per day for calendar year 2021 is \$80.46.
- Pursuant to Tenn. Code Ann. § 9-4-210, 24 (40 – 16 recidivism discount) offenders will be admitted every year serving an additional 955.59 days. The annualized increase in state incarceration expenditures is estimated to be \$1,845,283 (\$80.46 x 955.59 x 24).

Unlawful Possession of a Handgun by a Person Convicted of a Felony:

- Pursuant to Tenn. Code Ann. § 39-17-1307(c), unlawful possession of a handgun by a person convicted of a felony is a Class E felony offense.
- Based on information provided by the DOC, there has been an average of one admission each year over the past three years for violations of Tenn. Code Ann. § 39-17-1307(c).
- Population growth and recidivism will not impact these admissions.

- Based on information previously provided by DOC, the proposed legislation will extend the average sentence of an admission for violations of Tenn. Code Ann. § 39-17-1307(c) by 511.35 days per offender.
- According to the DOC, the average operating cost per offender per day for calendar year 2021 is \$80.46.
- Pursuant to Tenn. Code Ann. § 9-4-210, one offender will be admitted every year serving an additional 511.35 days. The annualized increase in state incarceration expenditures is estimated to be \$41,143 ($\$80.46 \times 511.35 \times 1$).

Unlawful Providing a Handgun to a Juvenile or Permitting a Juvenile to Possess a Handgun:

- Pursuant to Tenn. Code Ann. § 39-17-1320, it is a Class A misdemeanor offense for a person to intentionally, knowingly, or recklessly to provide a handgun with or without remuneration to any person that the person providing the handgun knows or has reason to believe the violation of juvenile knowingly possessing a handgun.
- Based on information provided by Administrative Office of the Courts, there has been an average of 0.8 Class A misdemeanor convictions under Tenn. Code Ann. § 39-17-1320 each year over the last five years. This analysis assumes that only 10 percent of misdemeanor convictions are at the state court level. As a result, it is estimated that there are eight convictions ($0.8 / 10\% = 8$) per year for misdemeanor violations of Tenn. Code Ann. § 39-17-1320.
- Based on the 2020 Fiscal Review Committee survey, the weighted average cost to local governments to house an inmate in a local jail facility is \$73 per day.
- This analysis estimates that on average individuals are sentenced to 100 days in local jail and spending an average of 15 days in local jail.
- The proposed legislation will result in a recurring mandatory increase in local incarceration expenditures in FY21-22 and subsequent fiscal years estimated to be \$32,120 $\{ \$73 \times [(100 \times 70\%) - 15] \times 8 \}$.
- Pursuant to Tenn. Code Ann. § 39-17-1320, it is a Class D felony offense for a parent or guardian intentionally, knowingly, or recklessly to provide a handgun to a juvenile or permit a juvenile to possess a handgun, if the parent or guardian knows of a substantial risk that the juvenile will use a handgun to commit a felony.
- Based on information provided by DOC, there have been zero admissions for this violation of Tenn. Code Ann. § 39-17-1320 over the past 10 years.
- Any impact to state incarceration resulting from requiring felony offenses under Tenn. Code Ann. § 39-17-1320 to serve at least 70 percent of the sentence imposed is estimated to be not significant.

Total Impact:

- The total recurring decrease in state revenue to the HPD is estimated to be \$12,521,313 ($\$430,885 + \$861,705 + \$11,228,723$).
- The recurring decrease in state expenditures for the HPD will be \$72,306 ($\$13,192 + \$59,114$) in FY21-22 through FY26-27
- There will be a total decrease in state expenditures to the HPD of \$98,687 ($\$72,306 + \$26,381$) in FY27-28 and subsequent years.

- The recurring decrease in state revenue to the TBI is estimated to be \$2,972,752 in FY21-22 and subsequent years.
- The total recurring net decrease in state expenditures for TBI is estimated to be \$164,572 [(\$111,438 + \$57,341 + \$144,934) – (\$149,141)] in FY21-22 and subsequent years.
- The total mandatory decrease in local government revenue is \$1,016,695 (\$966,225 + \$50,470) in FY21-22 and subsequent years.
- The total recurring net decrease in local expenditures in FY21-22 and subsequent years is estimated to exceed \$619,270 [(\$657,000 + \$193,245) – (\$198,855 + \$32,120)].
- The total annualized increase in state incarceration expenditures resulting from the proposed legislation is estimated to be \$12,319,317 (\$3,085,742 + \$789,950 + \$6,557,199 + \$1,845,283 + \$41,143).

**Tennessee Code Annotated, Section 9-4-210, requires that: For any law enacted after July 1, 1986, which results in a net increase in periods of imprisonment in state facilities, there shall be appropriated from recurring revenues the estimated operating cost of such law. The amount appropriated from recurring revenues shall be based upon the highest cost of the next 10 years.*

CERTIFICATION:

The information contained herein is true and correct to the best of my knowledge.

Krista Lee Carsner, Executive Director
