

TENNESSEE GENERAL ASSEMBLY
FISCAL REVIEW COMMITTEE

FISCAL NOTE

HB 1658 - SB 2361

February 19, 2020

SUMMARY OF BILL: Authorizes an owner or operator of a motor vehicle with an illuminated malfunction indicator lamp (MIL) at the time of testing to have the option of electing a tailpipe emissions test in lieu of an onboard diagnostic (OBD) test. The proposed legislation will be effective on January 1 following the date on which the United States Environmental Protection Agency (EPA) approves a revised state implementation plan (SIP) consistent with the proposed legislation, or the date that any existing contract between TDEC and a vehicle inspection vendor or a contract existing between Davidson County and a vehicle inspector vendor is set to expire, or the date such contracts are set to be renewed by amendment.

ESTIMATED FISCAL IMPACT:

NOT SIGNIFICANT

Assumptions:

- Federal regulations require light duty motor vehicles after 1996 to have an OBD system. According to the Department of Environment and Conservation (TDEC), approximately 95 percent of motor vehicles tested have an OBD system.
- Tailpipe tests are no longer available at emission testing facilities.
- The proposed legislation will not become effective until the EPA approves a SIP consistent with the proposed legislation. TDEC would have to request the amendment to the SIP. Upon such an amendment being approved, the tailpipe test would be made available to motor vehicle owners.
- To the extent the EPA approves an amendment to the SIP; the proposed legislation will not significantly impact state or local expenditures.
- According to TDEC, the vendor with which TDEC and Metropolitan Government of Nashville and Davidson County contract would bear the cost of implementing the tailpipe test.
- The vendor would pass this cost along to motor vehicle owners and not the state or Metro Nashville; therefore, this legislation will have no significant impact to state or local government

CERTIFICATION:

The information contained herein is true and correct to the best of my knowledge.
