(A) Advise the patient of the risk associated with opioid use during pregnancy;

(B) Counsel the patient on appropriate and effective forms of birth control; and

(C) Offer information about the availability of free or reduced cost birth control to the patient.

(2) As used in this subsection (h) "a woman of childbearing age" means any woman between the ages of fifteen (15) and forty-four (44).

(3) This subsection (h) does not apply if:

(A) The prescriber has previously taken all actions required by subdivision (h)(1) with respect to the patient within the past three (3) months; or
