---

## A BILL

To impose a tax on certain trading transactions to strengthen our financial security, reduce market volatility, expand opportunity, and stop shrinking the middle class.

1 *Be it enacted by the Senate and House of Representa-*  
2 *tives of the United States of America in Congress assembled,*

3 **SECTION 1. SHORT TITLE.**

4 This Act may be cited as the “Inclusive Prosperity  
5 Act of 2013”.

6 **SEC. 2. FINDINGS.**

7 Congress finds the following:

1           (1) The global financial crisis cost Americans  
2           \$19 trillion in lost wealth.

3           (2) The global financial crisis was caused by fi-  
4           nancial firms taking great financial risks without  
5           disclosing those risks to their investors or their regu-  
6           lators, and by regulatory failures to adequately po-  
7           lice the financial services markets for crime, unfair  
8           or deceptive practices, fraud, lack of transparency,  
9           and mismanagement.

10          (3) Deceptive, illegal, and speculative financial  
11          practices have harmed public confidence in the integ-  
12          rity and fairness of many United States financial in-  
13          stitutions, and threaten the basic strengths of the  
14          United States economic system.

15          (4) American citizens provided the money to  
16          stabilize the financial sector, making \$600 billion  
17          available to 800 financial institutions, automakers,  
18          and insurance companies.

19          (5) The global financial crisis, along with the  
20          wars, unabated and unaddressed climate change,  
21          unsustainable tax cuts, and a continuing unemploy-  
22          ment crisis, if unaddressed, will deprive a generation  
23          of a meaningful role in the larger economy.

24          (6) Nurses, teachers, public safety officers, and  
25          other public sector workers have faced drastic fund-

1 ing cuts, harming our long-term public safety and  
2 prospects for economic growth.

3 (7) Extreme weather events rooted in climate  
4 change, including flood, drought, fire, super storms  
5 like Sandy, as well as “slow-onset” events like sea  
6 level rise, are wreaking havoc in the United States  
7 and across the globe resulting in climate change im-  
8 pacts that jeopardize the lives and livelihoods of  
9 Americans, causing large-scale food and energy inse-  
10 curity in developing countries, and extolling untold  
11 economic costs.

12 (8) According to economists, a small tax on  
13 transfer of ownership of every financial trade could  
14 generate hundreds of billions annually in revenue,  
15 which when invested could help create sufficient jobs  
16 in both the public and private sectors to replace the  
17 8 million jobs lost in the recent recession and add  
18 even more jobs on an ongoing basis, as well as pro-  
19 vide urgently needed funding for programs to com-  
20 bat climate change and address global health and  
21 development issues.

22 (9) A transactions tax will help limit high fre-  
23 quency trading which may be as high as 70 percent  
24 of the market and results in declining market sta-  
25 bility through extreme price volatility, distorted mar-

1 ket prices, and structural vulnerability to speculation  
2 far in excess of the liquidity needs of commercial  
3 hedgers.

4 (10) A securities transfer tax would have a neg-  
5 ligible impact on the average investor.

6 (11) The United States had a transfer tax from  
7 1914 to 1966: The Revenue Act of 1914 (Act of  
8 Oct. 22, 1914 (ch. 331, 38 Stat. 745)) levied a 0.2  
9 percent tax on all sales or transfers of stock which  
10 was doubled in 1932 to help overcome the budgetary  
11 challenges during the Great Depression.

12 (12) Forty nations have or have had some form  
13 of a financial transactions tax; it is endorsed by  
14 more than 1,000 economists; and 11 European  
15 countries are moving forward on implementing a co-  
16 ordinated financial transactions tax after European  
17 Union finance ministers signaled approval in Janu-  
18 ary 2013.

19 (13) Revenue generated by this tax will be  
20 available to—

21 (A) strengthen financial security and ex-  
22 pand opportunity for low- and moderate-income  
23 families, including strengthening the social safe-  
24 ty net and expanding resources for child care,  
25 Social Security, and savings incentives; and

1 (B) expand resources for State and Fed-  
2 eral investments that protect our health and en-  
3 vironment, investing in water and wastewater  
4 infrastructure, rebuild our crumbling physical  
5 infrastructure, and create good paying jobs  
6 by—

7 (i) expanding and improving Medicare  
8 and Medicaid;

9 (ii) investing in education, student  
10 debt relief, job training, public sector jobs,  
11 and green jobs;

12 (iii) providing housing assistance to  
13 low-income households;

14 (iv) investing in transportation includ-  
15 ing public mass transit and an infrastruc-  
16 ture bank that promotes environmentally  
17 responsible domestic manufacturing and  
18 construction industries; and

19 (v) protecting our environment and  
20 building a clean energy economy, including  
21 efforts to combat climate change and build  
22 resilience to its effects in the United States  
23 and in developing countries; and

24 (C) fund international sustainable pros-  
25 perity programs such as health care invest-

1           ments, AIDS treatment, research and preven-  
2           tion programs, climate change adaptation and  
3           mitigation efforts by developing countries, and  
4           international assistance.
