A BILL

To amend the Food and Nutrition Act of 2008 to repeal the particular work requirement that disqualifies able-bodied adults for eligibility to participate in the supplemental nutrition assistance program.

1 *Be it enacted by the Senate and House of Representa-*
2 *tives of the United States of America in Congress assembled,*

3 **SECTION 1. SHORT TITLE.**

4 This Act may be cited as the “Improving Access to
5 Nutrition Act of 2021”.

1 **SEC. 2. FINDINGS.**

2 The Congress makes the following findings:

3 (1) 35 million people, including over 10 million
4 children, suffered from hunger even before the
5 COVID-19 pandemic.

6 (2) Analyses show that 50 million people, in-
7 cluding 17 million children, could go hungry due to
8 the effects of the COVID-19 pandemic.

9 (3) As of December 2020, food insecurity
10 among White households with children was 24.2 per-
11 cent, while 38.6 percent of Latinx and 40.6 percent
12 of African-American households with children suf-
13 fered from food insecurity.

14 (4) Black and Hispanic children were twice as
15 likely to live in households without enough to eat as
16 White children, entering this crisis at dispropor-
17 tionate risk of going hungry.

18 (5) Adults who identify as American Indian,
19 Alaska Native, Native Hawaiian, Pacific Islander, or
20 as multiracial, were twice as likely as White adults
21 to report that their household did not get enough to
22 eat. While official national data for Native American
23 households is lacking, previous research in Wash-
24 ington State showed food insecurity among Native
25 households was 2.5 times higher than in White
26 households.

1 (6) The COVID-19 pandemic has deepened
2 longstanding racial disparities and food insecurity.

3 (7) SNAP is the Nation's first line of defense
4 against hunger and is especially vital for vulnerable
5 populations. More than 85 percent of all SNAP ben-
6 efits go to households with children, seniors, and
7 persons with disabilities.

8 (8) SNAP helps restore access to healthy food,
9 improves overall health, and reduces poverty. SNAP
10 participation is also associated with educational ad-
11 vancement of children in poverty and improvements
12 in math and reading scores.

13 (9) SNAP has a proven record of effectiveness
14 in promoting food security and health as well as in
15 providing economic stimulus. Each \$1 in SNAP ben-
16 efits during a downturn generates between \$1.50
17 and \$1.80 in economic activity.

18 (10) Studies have also demonstrated that work
19 requirements do not reduce poverty.

20 (11) About 6.1 million individuals are subject to
21 SNAP work requirements and are at risk of losing
22 critical food assistance if they cannot comply.

23 (12) Some live in households with school-aged
24 children where benefit reductions or terminations

1 could jeopardize children’s health, development, and
2 future success.

3 (13) Children in poverty also often depend on
4 pooled resources (including SNAP benefits) from ex-
5 tended family members who do not claim them as
6 dependents.

7 (14) Studies show that health impediments are
8 a primary cause of why many SNAP recipients are
9 unable to meet a work requirement.

10 (15) Work requirements also cause an increase
11 in the administrative bureaucracy, which some stud-
12 ies have shown, cause a significant reduction in
13 SNAP participation.

14 (16) Studies show that Black Americans are
15 particularly vulnerable and are most likely to face
16 recent unemployment and work requirements would
17 disproportionately prevent Black people from having
18 access to this important benefit.

19 (17) Families experiencing homelessness are
20 most likely to leave programs like SNAP when there
21 is a work requirement, thereby increasing their vul-
22 nerability.

23 (18) COVID-19 has made people more vulner-
24 able. A work requirement would serve to only further

1 burden those most at risk during the COVID-19
2 pandemic.

3 **SEC. 3. AMENDMENTS.**

4 (a) **WORK REQUIREMENT.**—Section 6 of the Food
5 and Nutrition Act of 2008 (7 U.S.C. 2015) is amended—
