## A BILL

To provide the Secretary of Health and Human Services and the Secretary of Education with increased authority with respect to asthma programs, and to provide for increased funding for such programs.

1       *Be it enacted by the Senate and House of Representa-*  
2       *tives of the United States of America in Congress assembled,*

3       **SECTION 1. SHORT TITLE.**

4       This Act may be cited as the “Asthma Act”.

5       **SEC. 2. FINDINGS.**

6       The Congress finds as follows:

1           (1) Despite improved therapies, asthma cur-  
2           rently affects approximately 22 million American  
3           adults and 6.8 million children under the age of 18.

4           (2) Approximately one million hospital emer-  
5           gency room visits are attributed to asthma annually.

6           (3) Asthma can be life-threatening if not prop-  
7           erly managed. Most asthma-related deaths are pre-  
8           ventable, yet such deaths continue to occur in the  
9           United States.

10          (4) Asthma-related health care costs are esti-  
11          mated at \$14 billion annually.

12          (5) With early recognition of the signs and  
13          symptoms of asthma, proper diagnosis and treat-  
14          ment, and patient education and self-management,  
15          asthma is a controllable disease.

16          (6) Public health interventions have been prov-  
17          en effective in the treatment and management of  
18          asthma. Population-based research supported by the  
19          National Institutes of Health (NIH) has effectively  
20          demonstrated the benefits of combining aggressive  
21          medical treatment with patient education to improve  
22          the management of asthma. The National Asthma  
23          Education and Prevention Program (NAEPP) helps  
24          raise awareness that asthma is a serious chronic dis-  
25          ease, and helps promote more effective management

1 of asthma through patient and professional edu-  
2 cation.

3 (7) The alarming rise in prevalence, asthma-re-  
4 lated deaths, and expenditures demonstrate that, de-  
5 spite extensive knowledge on effective asthma man-  
6 agement strategies, current Federal policy and fund-  
7 ing regarding the education, treatment, and manage-  
8 ment of asthma is inadequate.

9 (8) Additional Federal direction, funding, and  
10 support is necessary to increase awareness of asth-  
11 ma as a chronic illness, its symptoms, and the envi-  
12 ronmental factors (indoor and outdoor) that affect  
13 the disease, as well as to promote education pro-  
14 grams that teach patients how to better manage  
15 asthma.

16 **SEC. 3. PROVISIONS REGARDING NATIONAL ASTHMA EDU-**  
17 **CATION AND PREVENTION PROGRAM OF NA-**  
18 **TIONAL HEART, LUNG, AND BLOOD INSTI-**  
19 **TUTE.**

20 (a) **ADDITIONAL FUNDING; EXPANSION OF PRO-**  
21 **GRAM.**—In addition to any other authorization of appro-  
22 priations that is available to the National Heart, Lung,  
23 and Blood Institute for the purpose of carrying out the  
24 National Asthma Education and Prevention Program,  
25 there is authorized to be appropriated to such Institute

1 for such purpose \$4,100,000 for each of the fiscal years  
2 2010 through 2014. Amounts appropriated under the pre-  
3 ceding sentence shall be expended to expand such Pro-  
4 gram.

10 from asthma in each State; and

11 (B) the childhood mortality rate associated  
12 with asthma nationally and in each State.

13 (c) **ADDITIONAL FUNDING.**—In addition to any other  
14 authorization of appropriations that is available to the  
15 Centers for Disease Control and Prevention for the pur-  
16 pose of carrying out this section, there is authorized to  
17 be appropriated to such Centers for such purpose
