1 *Be it enacted by the Senate and House of Representa-*
2 *tives of the United States of America in Congress assembled,*

3 **SECTION 1. FINDINGS.**

4 The Congress finds as follows:

1 (1) Dr. Balazs “Ernie” Bodai was born in Bu-
2 dapest, Hungary, in 1951.

3 (2) As a child, Dr. Bodai and his family lived
4 in a bomb shelter for over a year during the Hun-
5 garian Revolution of 1956 before managing to es-
6 cape and immigrate to the United States.

7 (3) Dr. Bodai received his B.A. and M.S. de-
8 grees from the University of California, Los Angeles,
9 and subsequently received his M.D. degree from the
10 University of California, Davis, at the young age of
11 26.

12 (4) Dr. Bodai has authored over 250 medical
13 articles and published 5 books, 4 of which focus on
14 cancer.

15 (5) After working as a breast cancer surgeon
16 for 15 years and caring for more than 1,500 pa-
17 tients, Dr. Bodai became frustrated with the pace of
18 breast cancer research funding.

19 (6) In 1996, Dr. Bodai launched a campaign to
20 create a postal stamp to benefit breast cancer re-
21 search.

22 (7) After several trips to Washington, DC, and
23 countless visits with United States Senators and
24 Members of Congress, the Stamp Out Breast Cancer
25 Act, which allowed a breast cancer stamp to be sold

1 at up to 8 cents above the normal first-class rate,
2 was passed and signed into law in August 1997.

3 (8) As a direct result of Dr. Bodai’s tireless
4 commitment to breast cancer research, as of 2010,
5 more than 900,000,000 breast cancer stamps have
6 been sold in the United States—providing over
7 \$73,000,000 for crucial, life-saving research.

8 (9) The Breast Cancer Research Stamp re-
9 cently surpassed the Elvis Presley Stamp to become
10 the all-time best seller for the United States Postal
11 Service.

12 (10) In an effort to expand breast cancer re-
13 search internationally, in 2005, Dr. Bodai intro-
14 duced the first ever “global stamp” to raise aware-
15 ness and funding to conquer the disease worldwide.

16 (11) As of 2010, as a direct result of Dr.
17 Bodai’s tireless commitment, over 70 countries have
18 either created their own stamp or are in the process
19 of doing so—making breast cancer research, early
20 detection, and eradication a global health priority.
