IN THE HOUSE OF REPRESENTATIVES

A BILL

To amend the Internal Revenue Code of 1986 to address the teacher and school leader shortage in early childhood, elementary, and secondary education, and for other purposes.

1 *Be it enacted by the Senate and House of Representa-*
2 *tives of the United States of America in Congress assembled,*

3 **SECTION 1. SHORT TITLE.**

4 This Act may be cited as the “Retaining Educators
5 Takes Added Investment Now Act” or the “RETAIN
6 Act”.

1 **SEC. 2. PURPOSE.**

2 The purpose of this Act is to create a refundable tax
3 credit for early childhood educators, teachers, early child-
4 hood education program directors, school leaders, and
5 school-based mental health services providers in early
6 childhood, elementary, and secondary education settings
7 that rewards retention based on the time spent serving
8 high-need students.

9 **SEC. 3. FINDINGS.**

10 Congress finds the following:

11 (1) The shortage of experienced, qualified early
12 childhood educators and elementary school and sec-
13 ondary school teachers is a national problem that
14 compromises the academic outcomes and long-term
15 success of students.

16 (2) The shortage is the result of many factors
17 including low pay, frequent turnover in school lead-
18 ership, poor teaching conditions, and inadequate
19 teacher supports.

20 (3) The shortage is worse in high-poverty areas
21 where the factors contributing to the shortage are
22 particularly acute and have an increased negative
23 impact on teachers of color remaining in the field.

24 (4) A child's access to high-quality early child-
25 hood education is critical to supporting positive out-
26 comes, and early childhood educators—

1 (A) play an important role in setting the
2 foundation for future learning, and

3 (B) promote the development of vital skills,
4 habits, and mindsets that children need to be
5 successful in school and in life.

6 (5) In 2021, the national median pay of early
7 childhood educators was a mere \$30,210, with many
8 early childhood educators relying on government as-
9 sistance programs such as Medicaid, the supple-
10 mental nutrition assistance program established
11 under the Food and Nutrition Act of 2008 (7 U.S.C.
12 2011 et seq.), or the temporary assistance for needy
13 families program established under part A of title IV
14 of the Social Security Act (42 U.S.C. 601 et seq.),
15 and struggling to provide for their own families.

16 (6) Studies have demonstrated that well-quali-
17 fied, experienced teachers are the single most impor-
18 tant school-based element contributing to a child's
19 academic achievement and success.

20 (7) In the 2021–2022 academic year, the aver-
21 age teacher salary in public elementary schools and
22 secondary schools was only \$66,397, a 2 percent in-
23 crease from the previous academic year. When ad-
24 justed for inflation, the average teacher salary has
25 declined by 6.4 percent over the past decade.

1 (8) On average, public elementary school and
2 secondary school teachers were paid 23.5 percent
3 less than other college graduates working in non-
4 teaching fields, and many teachers struggle with
5 large amounts of student loan debt.

6 (9) In 2021, the average teacher salary for a
7 first-year teacher in a public elementary school or
8 secondary school was \$41,770.

9 (10) An experienced, well-qualified education
10 workforce must also be reflective of the diversity of
11 the student body across race, ethnicity, and dis-
12 ability.

13 (11) Higher pay for teachers can result in a
14 more diverse teacher workforce, and minority stu-
15 dents often perform better on standardized tests,
16 have improved attendance, and are suspended less
17 frequently when they have at least one same-race
18 teacher.

19 (12) Experienced, well-qualified school leaders
20 and school-based mental health service providers are
21 essential for providing strong educational opportuni-
22 ties and services for students and promoting teacher
23 retention through improved professional supports
24 and teaching conditions.

1 (13) Between February 2020 and May 2022, at
2 least 300,000 teachers at public elementary schools
3 and secondary schools left the field, a nearly 3 per-
4 cent decline in the teacher workforce.
