11 lower price.

12 (4) More than 5 million children under the typ-
13 ical potty training age of 3-years-old live in low-in-
14 come families.

15 (5) Diaper need affects not only the health and
16 well-being of the child but it can affect the economic
17 security of the entire family.

18 (6) Over half of families in diaper need who
19 rely on child care in order to go to work or school,
20 missed work or school in the preceding month be-
21 cause they did not have the diapers they needed to
22 put their child in child care.

23 (7) No State or Federal child safety-net pro-
24 gram allocates dollars specifically for the purchase of
25 diapers.

2 curred for diapers.”.

14 case of a flexible spending arrangement,
15 other than through insurance). Coverage
