---

## A BILL

To require the Secretary of Defense to establish an initiative on improving the capacity of military criminal investigative organizations to prevent child sexual exploitation, and for other purposes.

1       *Be it enacted by the Senate and House of Representa-  
2 tives of the United States of America in Congress assembled,*

3 **SECTION 1. SHORT TITLE.**

4       This Act may be cited as the “End National Defense  
5 Network Abuse Act of 2019” or the “END Network  
6 Abuse Act of 2019”.

7 **SEC. 2. FINDINGS.**

8       Congress finds the following:

1                   (1) In a survey of online peer-to-peer networks,  
2 there is an alarming amount of traffic related to the  
3 online trading and sharing of child sexual exploi-  
4 tation material.

5                   (2) Child sexual exploitation, which includes  
6 child pornography, child sexual abuse, and child sex  
7 trafficking is a complex and growing problem that  
8 requires a coordinated, multifaceted response.

9                   (3) Victims of child sexual exploitation are less  
10 likely to self-report or be identified by outside  
11 sources because of their age and the nature of the  
12 crimes committed against them.

13                  (4) Individuals participating in the possession  
14 and trade of child pornography are significantly  
15 more likely to also participate in other forms of child  
16 sexual exploitation, including child sexual abuse and  
17 child trafficking.

18                  (5) The detection of online peer-to-peer trading  
19 of child pornography focuses on images of children  
20 under age 12. Approximately 20 percent of the total  
21 number of child sexual exploitation images discov-  
22 ered feature children ages 0 to 4.

23                  (6) The Internet Crimes Against Children Child  
24 Online Protective Services (ICACCOPS) program  
25 has been used to identify and collect evidence for the

1 purpose of prosecuting offenders online. The pro-  
2 gram also catalogues images and creates a digital li-  
3 brary for the purpose of identifying victims of child  
4 sexual exploitation through these images.

5 (7) In 2017, using such program, which scans  
6 the Internet for peer-to-peer trading of child pornog-  
7 raphy, law enforcement officials identified 663,853  
8 unique Internet Protocol (IP) addresses associated  
9 with the possession or trading of child pornography.  
10 Each unique Internet Protocol address is associated  
11 with possessing or trading a range of images, with  
12 some possessing more than 50,000 images that de-  
13 pict the sexual abuse of children.

14 (8) Training military criminal investigative or-  
15 ganizations on advanced tools is integral to the pro-  
16 tection of both military and civilian children.

17 (9) Continued training on advanced technolo-  
18 gical tools will allow military criminal investigative  
19 organizations to acquire, adapt, and maintain the  
20 technical skills and knowledge needed to keep up  
21 with the landscape of online child sexual exploi-  
22 tation, which is constantly changing as perpetrators  
23 take new steps to avoid detection.

24 (10) There are existing best practices and mod-  
25 els that the Department of Defense should leverage,

1       including online technologies that can simplify the  
2       investigative process.

3       **SEC. 3. INITIATIVE TO IMPROVE THE CAPACITY OF MILI-**  
4                   **TARY CRIMINAL INVESTIGATIVE ORGANIZA-**  
5                   **TIONS TO PREVENT CHILD SEXUAL EXPLOI-**  
6                   **TATION.**

7       (a) IN GENERAL.—Not later than 180 days after the  
8       date of the enactment of this Act, the Secretary of Defense  
9       shall establish an initiative on improving the capacity of

11      child sexual exploitation. Under the initiative, the Sec-  
12      retary shall work with an external partner to train military

2 initiative, the Secretary shall develop partnerships and es-  
3 tablish collaborative agreements with the following:

5 Attorney General, in better coordinating the inves-  
6 tigative jurisdictions and law enforcement authori-

10 enforce Federal criminal statutes.

11             (2) Federal criminal investigative organizations  
12 responsible for enforcement of Federal criminal stat-

17 of the evidence already collected.

19 organization or law enforcement training center with

23 prosecute individuals engaged in the trading or  
24 production of child pornography and the online  
25 solicitation of children; and

(B) to train military criminal investigative organization officials at Department of Defense installations from all military departments.

(5) Children's Advocacy Centers located in the same communities as military installations that coordinate the multidisciplinary team response and child-friendly approach to identifying, investigating, prosecuting, and intervening in child sexual exploitation cases that can partner with military installations on law enforcement, child protection, prosecution, mental health, medical, and victim advocacy to investigate sexual exploitation, help children heal from sexual exploitation, and hold offenders accountable.

(6) State and local authorities to address law enforcement capacity in communities where military

1 installations are located, and to prevent lapses in ju-  
2 risdiction that would undercut the Department's ef-  
3 forts to prevent child sexual exploitation.

9 tion 890A of the Homeland Security Act of 2002 (6
