A BILL

To award a Congressional Gold Medal to the Mercury 13, in recognition of their historic accomplishments and their work for gender equity, and in recognition of their important example of women in STEM fields.

1 *Be it enacted by the Senate and House of Representa-*
2 *tives of the United States of America in Congress assembled,*

3 **SECTION 1. SHORT TITLE.**

4 This Act may be cited as the “Mercury 13 Congres-
5 sional Gold Medal Act”.

1 **SEC. 2. FINDINGS.**

2 Congress finds the following:

3 (1) The Mercury 13 was a group of women who
4 participated in the First Lady Astronaut Trainees
5 (FLATs) Program, a privately funded project test-
6 ing women pilots for astronaut fitness in the 1960s.

7 (2) These women underwent the same psycho-
8 logical and physical testing that Dr. William Ran-
9 dolph Lovelace was simultaneously putting male pi-
10 lots through to determine their candidacy for space
11 travel as part of the NASA Mercury Project.

12 (3) Members of the Mercury 13, though their
13 training was not part of the NASA program, out-
14 performed the Mercury 7 astronauts chosen for
15 space travel in certain tests, and these women paved
16 the way for other women in space.

17 (4) None of the members of the Mercury 13
18 were ever able to go to space due to gender barriers,
19 but they opened the door for female pilots and astro-
20 nauts down the line.

21 (5) Two of the women, Geraldyn “Jerrie” Cobb
22 and Jane “Janey” Briggs Hart, spoke at a Congres-
23 sional Hearing before the Subcommittee of the
24 House Committee on Science and Astronautics to
25 advocate for the continuation of their program,
26 which led to an investigation into discrimination on

1 the basis of sex two years before the Civil Rights Act
2 was passed.

3 (6) A motion to honor these women was in-
4 cluded in the Congressional Record in 2007 during
5 the 110th Congress. The resolution, H. Res. 421,
6 honored the trailblazing accomplishments of the
7 Mercury 13 and encouraged young women to follow
8 in their footsteps and pursue careers in aviation, as-
9 tronautics, engineering, and science.

10 (7) The Mercury 13 are:

- 11 (A) Myrtle “K” Cagle.
- 12 (B) Geraldyn “Jerrie” Cobb.
- 13 (C) Jan Dietrich.
- 14 (D) Marion Dietrich.
