## A BILL

To require the Secretary of the Treasury to mint coins in recognition of the bicentennial of the Erie Canal.

1       *Be it enacted by the Senate and House of Representa-  
2       tives of the United States of America in Congress assembled,*

3       **SECTION 1. SHORT TITLE.**

4       This Act may be cited as the “Erie Canal Bicenten-  
5       nial Commemorative Coin Act”.

6       **SEC. 2. FINDINGS.**

7       The Congress finds the following:

1                     (1) Built between 1817 and 1825, the original  
2                     Erie Canal traversed 363 miles from Albany to Buf-  
3                     falo.

4                     (2) The Erie Canal was the longest artificial  
5                     waterway and the greatest public works project in  
6                     North America.

7                     (3) The Erie Canal was one of the most impor-  
8                     tant steps in the United States initiating its indus-  
9                     trial revolution, rapidly increasing the productivity  
10                    of agriculture and the spread of machinery and  
11                    manufactured goods.

12                   (4) The Erie Canal cut the travel time between  
13                    Albany and Buffalo in half and reduced freight rates  
14                    by 90 percent. This allowed midwestern farmers and  
15                    industry to have new access to distant markets.

16                   (5) The Erie Canal opened up the American in-  
17                   terior for settlement and enabled a new flow of peo-  
18                   ple and ideas. This fueled social reform movements  
19                   such as abolitionism, women's suffrage, utopian  
20                   communities, and multiple religious movements  
21                   along the canal corridor.

22                   (6) The Erie Canal continues to define the ge-  
23                   ography of upstate New York with 80 percent of the  
24                   upstate New York population living withing 25 miles  
25                   of the corridor.

1                         (7) After 200 years the Erie Canal is still a re-  
2                         source for its local communities as a close to home  
3                         recreational destination for boaters, bikers, and  
4                         walkers.

5                         **SEC. 3. COIN SPECIFICATIONS.**
