10 **SEC. 1721. SHORT TITLE.**

11 This subtitle may be cited as the “Space Technology
12 Advancement Report (STAR) Act of 2020”.

13 **SEC. 1722. FINDINGS.**

14 Congress finds the following:

15 (1) As stated in the United States-China Eco-
16 nomic and Security Commission’s 2019 Report to
17 Congress, the United States retains many advan-
18 tages over the People’s Republic of China (PRC) in
19 space, including—

20 (A) the organization and technical exper-
21 tise of its space program;

22 (B) the capabilities of the National Aero-
23 nautics and Space Administration for human
24 spaceflight and exploration;

25 (C) its vibrant commercial space sector;

1 (D) its long history of space leadership;
2 and

3 (E) many international partnerships.

4 (2) The PRC seeks to establish a leading posi-
5 tion in the economic and military use of outer space
6 and views space as critical to its future security and
7 economic interests.

8 (3) The PRC's national-level commitment to es-
9 tablishing itself as a global space leader harms
10 United States interests and threatens to undermine
11 many of the advantages the United States has
12 worked so long to establish.

13 (4) For over 60 years, the United States has
14 led the world in space exploration and human space
15 flight through a robust national program that en-
16 sures NASA develops and maintains critical
17 spaceflight systems to enable this leadership, includ-
18 ing the Apollo program's Saturn V rocket, the Space
19 Shuttle, the International Space Station and the
20 Space Launch System and Orion today.

21 (5) The Defense Intelligence Agency noted in
22 its 2019 "Challenges to U.S. Security in Space" re-
23 port that the PRC was developing a national super-
24 heavy lift rocket comparable to NASA's Space
25 Launch System.

1 (6) The United States space program and com-
2 mercial space sector risks being hollowed out by the
3 PRC's plans to attain leadership in key technologies.

4 (7) It is in the economic and security interest
5 of the United States to remain the global leader in
6 space power.

7 (8) A recent report by the Air Force Research
8 Laboratory and the Defense Innovation Unit found
9 that China's strategy to bolster its domestic space
10 industry includes a global program of theft and
11 other misappropriation of intellectual property, di-
12 rect integration of state-owned entities and their
13 technology with commercial start-ups, the use of
14 front companies to invest in United States space
15 companies, vertical control of supply chains, and
16 predatory pricing.

17 (9) The United States Congress passed the
18 Wolf Amendment as part of the Fiscal Year 2012
19 Consolidated and Further Continuing Appropria-
20 tions Act (Public Law 112-55) and every year there-
21 after in response to the nefarious and offensive na-
22 ture of Chinese activities in the space industry.

14 **SEC. 1756. SENSE OF CONGRESS ON EXTENSION OF LIMITA-**
15 **TIONS ON IMPORTATION OF URANIUM FROM**
16 **RUSSIAN FEDERATION.**

17 It is the sense of Congress that—

18 (1) a secure nuclear fuel supply chain is essen-
19 tial to the economic and national security of the
20 United States;

21 (2) the Government of the Russian Federation
22 uses its control over energy resources, including in
23 the civil nuclear sector, to exert political influence
24 and create economic dependency in other countries;

1 (3) the Agreement Suspending the Antidumping
2 Investigation on Uranium from the Russian Federa-
3 tion (commonly referred to as the “Russian Suspen-

18 (i) to avoid unfair trade in uranium
19 and maintain a nuclear fuel supply chain

23 (ii) to protect the United States nu-
24 clear fuel supply chain from the continued
25 manipulation of the global and United

1 States uranium markets by the Russian
2 Federation and Russian-influenced com-
3 petitors;

4 (5) a renegotiated, long-term extension of the
5 Russian Suspension Agreement can prevent adver-
6 saries of the United States from monopolizing the
7 nuclear fuel supply chain;

8 (6) as was done in 2008, upon completion of a
9 new negotiated long-term extension of the Russian
10 Suspension Agreement, Congress should enact legis-
11 lation to codify the terms of extension into law to
12 ensure long-term stability for the domestic nuclear
13 fuel supply chain; and

14 (7) if the negotiations to extend the Russian
15 Suspension Agreement prove unsuccessful, Congress
16 should be prepared to enact legislation to prevent
17 the manipulation by the Russian Federation of glob-
18 al uranium markets and potential domination by the
19 Russian Federation of the United States uranium
20 market.

21 **Subtitle G—Biliteracy Education** 22 **Seal and Teaching Act**

23 **SEC. 1831. SHORT TITLE.**

24 This subtitle may be cited as the “Biliteracy Edu-
25 cation Seal and Teaching Act” or the “BEST Act”.

1 **SEC. 1832. FINDINGS.**

2 Congress finds the following:

3 (1) The people of the United States celebrate
4 cultural and linguistic diversity and seek to prepare
5 students with skills to succeed in the 21st century.

6 (2) It is fitting to commend the dedication of
7 students who have achieved proficiency in multiple
8 languages and to encourage their peers to follow in
9 their footsteps.

10 (3) The congressionally requested Commission
11 on Language Learning, in its 2017 report “Amer-
12 ica’s Languages: Investing in Language Education
13 for the 21st Century”, notes the pressing national
14 need for more people of the United States who are
15 proficient in two or more languages for national se-
16 curity, economic growth, and the fulfillment of the
17 potential of all people of the United States.

18 (4) The Commission on Language Learning
19 also notes the extensive cognitive, educational, and
20 employment benefits deriving from biliteracy.

21 (5) Biliteracy in general correlates with higher
22 graduation rates, higher grade point averages, high-
23 er rates of matriculation into higher education, and
24 higher earnings for all students, regardless of back-
25 ground.

1 (6) The study of America's languages in ele-
2 mentary and secondary schools should be encouraged
3 because it contributes to a student's cognitive devel-
4 opment and to the national economy and security.

5 (7) Recognition of student achievement in lan-
6 guage proficiency will enable institutions of higher
7 education and employers to readily recognize and ac-
8 knowledge the valuable expertise of bilingual stu-
9 dents in academia and the workplace.

10 (8) States such as Utah, Arizona, Washington,
11 and New Mexico have developed innovative testing
12 methods for languages, including Native American
13 languages, where no formal proficiency test currently
14 exists.

15 (9) The use of proficiency in a government-rec-
16 ognized official Native American language as the
17 base language for a Seal of Biliteracy, with pro-
18 ficiency in any additional partner language dem-
19 onstrated through tested proficiency, has been suc-
20 cessfully demonstrated in Hawaii.

21 (10) Students in every State and every school
22 should be able to benefit from a Seal of Biliteracy
23 program.

24 **SEC. 1833. DEFINITIONS.**

20 are able to sustain long-term development without
21 recourse to Bank resources.

22 (3) The IBRD examines a country’s potential
23 graduation when the country reaches the Graduation
24 Discussion Income (GDI), which amounts to a Gross
25 National Income (GNI) per capita of \$6,975.

23 a particular focus on the efforts with regard to the
24 People’s Republic of China.

1 (2) If the People’s Republic of China is a mem-
2 ber country of the IBRD, an explanation of any eco-
3 nomic or political factors that have prevented the
4 graduation of the People’s Republic of China from
5 the IBRD.

6 (3) A discussion of any effects resulting from
7 fungibility and IBRD lending to China, including
8 the potential for IBRD lending to allow for funding
9 by the government of the People’s Republic of China
10 of activities that may be inconsistent with the na-
11 tional interest of the United States.

12 (4) An action plan to help ensure that the Peo-
13 ple’s Republic of China graduates from the IBRD
14 within 2 years after submission of the report, con-

10 military installation's water supply and the
11 overall health of the aquifer basin of which the
12 water supply is a part, including the robustness
13 of the resource, redundancy, and ability to re-
14 cover from disruption.

15 (E) An evaluation of existing water meter-
16 ing and consumption at the military installa-
17 tion, considered at a minimum—

18 (i) by type of installation activity,
19 such as training, maintenance, medical,

7 for operational, training, and maintenance require-
8 ments.

9 (2) ARID OR SEMI-ARID CLIMATES.—For mili-
10 tary installations located in arid or semi-arid cli-
11 mates, landscaping management practices shall in-
12 clude the use of xeriscaping.

13 (3) NON-ARID CLIMATES.—For military instal-
14 lations located in arid or non-arid climates, land-
15 scaping management practices shall include the use
16 of plants common to the region in which the installa-
17 tion is located and native grasses and plants.

16 timing to avoid vulnerable life stages of special
17 status pollinators.

18 (F) Mowing mid-day when adult polli-
19 nators can avoid mowing equipment.

1 both quantity and quality over a reasonable period
2 of time.

12 **DIESEL GENERATORS IN A MICROGRID CON-**
13 **FIGURATION AT CERTAIN MILITARY INSTAL-**
14 **LATIONS.**

15 (a) PILOT PROGRAM AUTHORIZED.—The Secretary
16 of Defense may conduct a pilot program (to be known as
17 the Emergency Diesel Generator Microgrid Program) to
18 evaluate the feasibility and cost effectiveness of connecting
19 existing diesel generators at a military installation selected
20 pursuant to subsection (c) to create and support one or
21 more microgrid configurations at the installation capable
22 of providing full-scale electrical power for the defense crit-
23 ical facilities located at the installation during an emer-
24 gency involving the loss of external electric power supply

1 caused by an extreme weather condition, manmade inten-
2 tional infrastructure damage, or other circumstances.

3 (b) GOAL OF PILOT PROGRAM.—The goals of the
4 Emergency Diesel Generator Microgrid Program are—

5 (1) to test assumptions about lower operating
6 and maintenance costs, parts interchangeability,
7 lower emissions, lower fuel usage, increased resil-
8 iency, increased reliability, and reduced need for
9 emergency diesel generators; and

10 (2) to establish design criteria that could be
11 used to build and sustain emergency diesel generator
12 microgrids at other military installations.

13 (c) PILOT PROGRAM LOCATIONS.—As the locations
14 to conduct the Emergency Diesel Generator Microgrid
15 Program, the Secretary of Defense shall select two major
16 military installations located in different geographical re-
17 gions of the United States that the Secretary deter-
18 mines—

19 (1) are defense critical electric infrastructure
20 sites or contain, or are served by, defense critical
21 electric infrastructure;

22 (2) contain more than one defense critical func-
23 tion for national defense purposes and the mission
24 assurance of such critical defense facilities are para-

1 mount to maintaining national defense and force
2 projection capabilities at all times; and

3 (3) face unique electric energy supply, delivery,
4 and distribution challenges that, based on the geo-
5 graphic location of the installations and the overall
6 physical size of the installations, adversely impact
7 rapid electric infrastructure restoration after an
8 interruption.

9 (d) SPECIFICATIONS OF DIESEL GENERATORS AND
10 MICROGRID.—

11 (1) GENERATOR SPECIFICATIONS.—The Sec-
12 retary of Defense shall use existing diesel generators

14 (2) MICROGRID SPECIFICATIONS.—The Sec-
15 retary of Defense shall create the microgrid using
16 commercially available and proven designs and tech-
17 nologies. The existing diesel generators used for the
18 microgrid should be spaced within 1.0 to 1.5 mile of
19 each other and, using a dedicated underground elec-
20 tric cable network, be tied into a microgrid configu-
21 ration sufficient to supply mission critical facilities
22 within the service area of the microgrid. A selected
23 military installation may contain more than one such
24 microgrid under the Emergency Diesel Generator
25 Microgrid Program.

1 (e) PROGRAM AUTHORITIES.—The Secretary of De-
2 fense may use the authority under section 2914 of title

18 **SEC. 2854. STUDY AND STRATEGY REGARDING BULK FUELS**
19 **MANAGEMENT IN UNITED STATES INDO-PA-**
20 **CIFIC COMMAND AREA OF RESPONSIBILITY.**

21 (a) FINDINGS.—Congress makes the following find-
22 ings:

23 (1) The ordering and delivery of bulk fuels is
24 organizationally bifurcated to the detriment of the
25 Department of Defense.

1 (2) Legacy bulk fuel management will not meet
2 the accelerated pace of operations required to sup-
3 port the National Defense Strategy and the empha-
4 sis on disaggregated operations.

5 (3) The number of United States flagged
6 tanking vessels continues to decline, which has re-
7 sulted in an excessive reliance on foreign flagged
8 tanking vessels to be available to support the Na-
9 tional Defense Strategy.

10 (4) A foreign flagged tanking vessel support
11 strategy induces excessive risk to support United
12 States disaggregated operations in a highly con-
13 tested environment.

14 (5) The inadequacies of the legacy bulk fuel
15 management strategy is particularly acute in the
16 United States Indo-Pacific Command Area of Re-
17 sponsibility.

18 (b) SENSE OF CONGRESS.—It is the sense of Con-
19 gress that a single organizational element should be re-
20 sponsible for the bulk fuel management and delivery
21 throughout the United States Indo-Pacific Command Area
22 of Responsibility.

23 (c) STUDY AND STRATEGY REQUIRED.—The Sec-
24 retary of the Navy shall—

1 (1) conduct a study of current and projected
2 bulk fuel management strategies in the United
3 States Indo-Pacific Command Area of Responsi-
4 bility; and

5 (2) prepare a proposed bulk fuel management
6 strategy that optimally supports bulk fuel manage-
7 ment in the United States Indo-Pacific Command
8 Area of Responsibility.

9 (d) ELEMENTS OF STUDY.—The study required by
10 subsection (c) shall include the following elements:

11 (1) A description of current organizational re-
12 sponsibility of bulk fuel management in the United
13 States Indo-Pacific Command Area of Responsibility
14 from ordering, storage, strategic transportation, and
15 tactical transportation to the last tactical mile.

16 (2) A description of legacy bulk fuel manage-
17 ment assets that can be used to support the United
18 States Indo-Pacific Command.

19 (3) Options for congressional consideration to
20 better align organizational responsibility through the
21 entirety of the bulk fuel management system in the
22 United States Indo-Pacific Command Area of Re-
23 sponsibility, as proposed in the bulk fuel manage-
24 ment strategy prepared pursuant to paragraph (2)
25 of such subsection.

1 (e) COORDINATION.—The Secretary of the Navy shall
2 conduct the study and prepare the bulk fuel management
3 strategy required by subsection (c) in coordination with
4 subject-matter experts of the United States Indo-Pacific
5 Command, the United States Transportation Command,
6 and the Defense Logistics Agency.

7 (f) REPORT REQUIRED.—Not later than 1 year after
8 the date of the enactment of this Act, the Secretary of
9 the Navy shall submit to the congressional defense com-
10 mittees a report containing the results of the study re-
11 quired by subsection (c) and the bulk fuel management
12 strategy required by such subsection.

13 (g) PROHIBITION ON CERTAIN CONSTRUCTION
14 PENDING REPORT.—None of the funds authorized to be
15 appropriated by this Act or otherwise made available for
16 fiscal year 2021 for the Navy for construction related to
17 additional bulk fuel storage in the United States Indo-Pa-
18 cific Command Area of Responsibility may be obligated
19 or expended until the report required by subsection (f) is
20 submitted to the congressional defense committees.

21 **SEC. 2855. DEPARTMENT OF DEFENSE REPORT ON EASE-**
22 **MENTS AND LEASED LANDS IN HAWAII.**

23 (a) FINDINGS.—Congress finds the following:

24 (1) Lands throughout the State of Hawai‘i cur-
25 rently owned and leased by the Department of De-

1 fense or in which the Department of Defense other-
2 wise has a real property interest are critical to main-
3 taining the readiness of the Armed Forces now sta-
4 tioned or to be stationed in Hawai'i and throughout
5 the Indo-Pacific region and elsewhere.

6 (2) Securing long-term continued utilization of
7 those lands by the Armed Forces is thus critical to
8 the national defense.

9 (3) As a result of various factors, including
10 complex land ownership and utilization issues and
11 competing actual and potential uses, the inter-
12 dependency of the various military components, and
13 the necessity of maintaining public support for the
14 presence and operations of the Armed Forces, the
15 realization of the congressional and Department of
16 Defense goals of ensuring the continuity of critical
17 land and facilities infrastructure requires a sus-
18 tained, dedicated, funded, top-level effort to coordi-
19 nate realization of these goals across the Armed
20 Forces, between the Department of Defense and
21 other agencies of the Federal Government, and be-
22 tween the Department of Defense and the State of
23 Hawai'i and its civilian sector.

24 (4) The end result of this effort must account
25 for military and civilian concerns and for the chang-

1 ing missions and needs of all components of the
2 Armed Forces stationed or otherwise operating out
3 of the State of Hawai‘i as the Department of De-
4 fense adjusts to meet the objectives outlined in the
5 National Defense Strategy.

6 (b) REPORT REQUIRED.—Not later than 180 days
7 after the date of the enactment of this Act, the Under
8 Secretary of Defense for Acquisition and Sustainment
9 shall submit to the congressional defense committee a re-
10 port describing the progress being made by the Depart-
11 ment of Defense to renew Department of Defense land
12 leases and easements in the State of Hawai‘i that encom-
13 pass one acre or more and will expire before January 1,
14 2030. The report shall include the following:

15 (1) The location, size, and expiration date of
16 each lease and easement.

17 (2) Major milestones and expected timelines for
18 maintaining access to the land covered by each lease
19 and easement.

20 (3) Actions completed over the preceding 2
21 years for each lease and easement.

22 (4) Department-wide and service-specific au-
23 thorities governing each lease and easement exten-
24 sion.

1 (5) A summary of coordination efforts between
2 the Secretary of Defense and the Secretaries of the
3 military departments.

4 (6) The status of efforts to develop an inven-
5 tory of military land in Hawai‘i, to include current
6 possible future uses, that would assist in land nego-
7 tiations with the State of Hawai‘i.

8 (7) The risks and potential solutions to ensure
9 the renewability of required and critical leases and
10 easements.

14 (a) **PRIORITIZATION OF COMMUNITY INFRASTRUC-**
15 **TURE PROJECTS.**—Section 2391(d)(1) of title 10, United
16 States Code, is amended—

17 (1) by inserting “(A)” after “(1)”;

18 (2) by striking “, if the Secretary determines
19 that such assistance will enhance the military value,
20 resilience, or military family quality of life at such
21 military installation”; and

22 (3) by adding at the end the following new sub-
23 paragraph:

24 “(B) The Secretary shall establish criteria for the se-
25 lection of community infrastructure projects to receive as-

1 sistance under this subsection, including selection of com-
2 munity infrastructure projects in the following order of
3 priority:

4 “(i) Projects that will enhance military installa-
5 tion resilience.

6 “(ii) Projects that will enhance military value at
7 a military installation.

8 “(iii) Projects that will enhance military family
9 quality of life at a military installation.”

10 (b) COST-SHARING REQUIREMENTS.—Paragraph (2)
11 of section 2391(d) of title 10, United States Code, is
12 amended to read as follows:

13 “(2)(A) The criteria established for the selection of
14 community infrastructure projects to receive assistance
15 under this subsection shall include a requirement that, ex-
16 cept as provided in subparagraph (B), the State or local
17 government agree to contribute not less than 30 percent
18 of the funding for the community infrastructure project.

19 “(B) If a proposed community infrastructure project
20 will be carried out in a rural area or the Secretary of De-
21 fense determines that a proposed community infrastruc-
22 ture project is advantageous for reasons related to na-
23 tional security, the Secretary—

24 “(i) shall not penalize a State or local govern-
25 ment for offering to make a contribution of 30 per-

1 cent or less of the funding for the community infra-
2 structure project; and

3 “(ii) may reduce the requirement for a State or
4 local government contribution to 30 percent or less
5 or waive the cost-sharing requirement entirely.”.

6 (c) SPECIFIED DURATION OF PROGRAM.—Section
7 2391(d)(4) of title 10, United States Code, is amended
8 by striking “upon the expiration of the 10-year period
9 which begins on the date of the enactment of the National
10 Defense Authorization Act for Fiscal Year 2019” and in-

1 **DIVISION E—NATIONAL ARTIFI-**
2 **CIAL INTELLIGENCE INITIA-**
3 **TIVE ACT OF 2020**

4 **SEC. 5001. SHORT TITLE.**

5 This division may be cited as the “National Artificial
6 Intelligence Initiative Act of 2020”.

7 **SEC. 5002. FINDINGS.**

8 Congress finds the following:

1 (1) Artificial intelligence is a tool that has the
2 potential to change and possibly transform every
3 sector of the United States economy and society.

4 (2) The Federal Government should continue to
5 play an important role advancing research, develop-
6 ment, standards, and education activities in artificial
7 intelligence through coordination and collaboration
8 between government, academia, and the private sec-
9 tor to leverage the intellectual, physical, and digital
10 resources of each stakeholder.

11 (3) The Federal Government lacks clear under-
12 standing of the capabilities of artificial intelligence
13 and its potential to affect various social and eco-
14 nomic sectors, including ethical concerns, national
15 security implications, and workforce impacts.

16 (4) Researchers from academia, Federal labora-
17 tories, and much of the private sector have limited
18 access to many high-quality datasets, computing re-
19 sources, or real-world testing environments to design
20 and deploy safe and trustworthy artificial intel-
21 ligence systems.

22 (5) There is a lack of standards and
23 benchmarking for artificial intelligence systems that
24 academia and the public and private sectors can use

1 to evaluate the performance of these systems before
2 and after deployment.

3 (6) Artificial intelligence is increasingly becom-
4 ing a highly interdisciplinary field with expertise re-
5 quired from a diverse range of scientific and other
6 scholarly disciplines that traditionally work inde-
7 pendently and continue to face cultural and institu-
8 tional barriers to large scale collaboration.

9 (7) Current Federal investments and funding
10 mechanisms are largely insufficient to incentivize
11 and support the large-scale interdisciplinary and
12 public-private collaborations that will be required to
13 advance trustworthy artificial intelligence systems in
14 the United States.

15 (8) The United States education pipeline for ar-
16 tificial intelligence fields faces significant challenges.
17 Not only does the artificial intelligence research field
18 lack the gender and racial diversity of the American
19 population as a whole, but it is failing to both retain
20 researchers and adequately support educators to
21 meet the demands of the next generation of students
22 studying artificial intelligence.

23 (9) In order to help drive forward advances in
24 trustworthy artificial intelligence across all sectors
25 and to the benefit of all Americans, the Federal

1 Government must provide sufficient resources and
2 use its convening power to facilitate the growth of
3 artificial intelligence human capital, research, and
4 innovation capacity in academia and other nonprofit
5 research organizations, companies of all sizes and
6 across all sectors, and within the Federal Govern-
7 ment.

14 **DIVISION F—CORPORATE**
15 **TRANSPARENCY ACT OF 2019**

16 **SEC. 6001. SHORT TITLE.**

17 This division may be cited as the “Corporate Trans-
18 parency Act of 2019”.

19 **SEC. 6002. FINDINGS.**

20 Congress finds the following:

21 (1) Nearly 2,000,000 corporations and limited
22 liability companies are being formed under the laws
23 of the States each year.

1 (2) Very few States require information about
2 the beneficial owners of the corporations and limited
3 liability companies formed under their laws.

4 (3) A person forming a corporation or limited
5 liability company within the United States typically
6 provides less information at the time of incorpora-
7 tion than is needed to obtain a bank account or driv-
8 er's license and typically does not name a single ben-
9 efiticial owner.

10 (4) Criminals have exploited State formation
11 procedures to conceal their identities when forming
12 corporations or limited liability companies in the
13 United States, and have then used the newly created
14 entities to commit crimes affecting interstate and
15 international commerce such as terrorism, prolifera-
16 tion financing, drug and human trafficking, money
17 laundering, tax evasion, counterfeiting, piracy, secu-
18 rities fraud, financial fraud, and acts of foreign cor-
19 ruption.

20 (5) Law enforcement efforts to investigate cor-
21 porations and limited liability companies suspected
22 of committing crimes have been impeded by the lack
23 of available beneficial ownership information, as doc-
24 umented in reports and testimony by officials from
25 the Department of Justice, the Department of

1 Homeland Security, the Department of the Treas-
2 ury, and the Government Accountability Office, and
3 others.

4 (6) In July 2006, the leading international
5 antimoney laundering standard-setting body, the Fi-
6 nancial Action Task Force on Money Laundering (in
7 this section referred to as the “FATF”), of which
8 the United States is a member, issued a report that
9 criticizes the United States for failing to comply
10 with a FATF standard on the need to collect bene-
11 ficial ownership information and urged the United
12 States to correct this deficiency by July 2008. In
13 December 2016, FATF issued another evaluation of
14 the United States, which found that little progress
15 has been made over the last ten years to address
16 this problem. It identified the “lack of timely access
17 to adequate, accurate and current beneficial owner-
18 ship information” as a fundamental gap in United
19 States efforts to combat money laundering and ter-
20 rorist finance.

21 (7) In response to the 2006 FATF report, the
22 United States has urged the States to obtain bene-
23 ficial ownership information for the corporations and
24 limited liability companies formed under the laws of
25 such States.

1 (8) In contrast to practices in the United
2 States, all 28 countries in the European Union are
3 required to have corporate registries that include
4 beneficial ownership information.

5 (9) To reduce the vulnerability of the United
6 States to wrongdoing by United States corporations
7 and limited liability companies with hidden owners,
8 to protect interstate and international commerce
9 from criminals misusing United States corporations
10 and limited liability companies, to strengthen law en-
11 forcement investigations of suspect corporations and
12 limited liability companies, to set a clear, universal
13 standard for State incorporation practices, and to
14 bring the United States into compliance with inter-
15 national anti-money laundering standards, Federal
16 legislation is needed to require the collection of bene-
17 ficial ownership information for the corporations and
18 limited liability companies formed under the laws of
19 such States.

20 **SEC. 6003. TRANSPARENT INCORPORATION PRACTICES.**

21 (a) IN GENERAL.—

22 (1) AMENDMENT TO THE BANK SECRECY
23 ACT.—Chapter 53 of title 31, United States Code, is
24 amended by inserting after section 5332 the fol-
25 lowing new section:

1 **“§ 5333 Transparent incorporation practices**

20 to provide identification information under this sub-
21 section, does not have a nonexpired passport issued
22 by the United States, a nonexpired personal identi-
23 fication card, or a non-expired driver’s license issued
24 by a State, each such person shall provide to
25 FinCEN the full legal name, current residential or

1 business street address, a unique identifying number
2 from a non-expired passport issued by a foreign gov-

7 terminates under the laws of the State or In-
8 dian Tribe.

9 “(3) EXEMPT ENTITIES.—

10 “(A) IN GENERAL.—With respect to an ap-
11 plicant to form a corporation or limited liability
12 company under the laws of a State or Indian

20 hull design for medium Polar Security Cutters and Great
21 Lakes icebreakers.

22 **SEC. 8006. SENSE OF THE CONGRESS ON NEED FOR NEW**
23 **GREAT LAKES ICEBREAKER.**

24 (a) FINDINGS.—The Congress finds the following:

1 (1) The Great Lakes shipping industry is cru-
2 cial to the American economy, including the United
3 States manufacturing base, providing important eco-
4 nomic and national security benefits.

5 (2) A recent study found that the Great Lakes
6 shipping industry supports 237,000 jobs and tens of
7 billions of dollars in economic activity.

8 (3) United States Coast Guard icebreaking ca-
9 pacity is crucial to full utilization of the Great Lakes
10 shipping system, as during the winter icebreaking
11 season up to 15 percent of annual cargo loads are
12 delivered, and many industries would have to reduce
13 their production if Coast Guard icebreaking services
14 were not provided.

15 (4) Six of the Coast Guard's nine icebreaking
16 cutters in the Great Lakes are more than 30 years
17 old and are frequently inoperable during the winter
18 icebreaking season, including those that have com-
19 pleted a recent service life extension program.

20 (5) During the previous 10 winters, Coast
21 Guard Great Lakes icebreaking cutters have been in-
22 operable for an average of 65 cutter-days during the
23 winter icebreaking season, with this annual lost ca-
24 pability exceeding 100 cutter days, with a high of
25 246 cutter days during the winter of 2017–2018.

1 (6) The 2019 ice season provides further proof
2 that current Coast Guard icebreaking capacity is in-
3 adequate for the needs of the Great Lakes shipping
4 industry, as only six of the nine icebreaking cutters
5 are operational, and millions of tons of cargo was
6 not loaded or was delayed due to inadequate Coast
7 Guard icebreaking assets during a historically aver-
8 age winter for Great Lakes ice coverage.

9 (7) The Congress has authorized the Coast
10 Guard to acquire a new Great Lakes icebreaker as
11 capable as Coast Guard Cutter *Mackinaw* (WLBB-
12 30), the most capable Great Lakes icebreaker, and
13 \$10 million has been appropriated to fund the de-
14 sign and initial acquisition work for this icebreaker.

15 (8) The Coast Guard has not initiated a new
16 acquisition program for this Great Lakes icebreaker.

17 (b) SENSE OF THE CONGRESS.—It is the sense of
18 the Congress of the United States that a new Coast Guard
19 icebreaker as capable as Coast Guard Cutter *Mackinaw*
20 (WLBB-30) is needed on the Great Lakes, and the Coast
21 Guard should acquire this icebreaker as soon as possible.

22 **SEC. 8007. PROCUREMENT AUTHORITY FOR GREAT LAKES**
23 **ICEBREAKER.**

24 (a) IN GENERAL.—Of the amounts authorized to be
25 appropriated by section 4902(2)(A)(ii) of title 14, United

1 States Code, as amended by section 8001 of this division,
2 \$160,000,000 for fiscal year 2021 is authorized for the
3 acquisition of a Great Lakes icebreaker at least as capable
4 as *USCGC Mackinaw* (WLBB–30).

5 (b) REPORT.—Not later than 30 days after the date
6 of the enactment of this Act, the Commandant shall sub-
7 mit to the Committee on Commerce, Science, and Trans-
8 portation of the Senate and the Committee on Transpor-
9 tation and Infrastructure of the House of Representatives
10 a plan for acquiring an icebreaker as required by section
11 820(b) of the Frank LoBiondo Coast Guard Authorization
12 Act of 2018 (Public Law 115–282).

13 **SEC. 8008. POLAR SECURITY CUTTER ACQUISITION RE-**
14 **PORT.**

15 Not later than 1 year after the date of the enactment
16 of this Act, the Commandant shall submit to the Commit-
17 tees on Transportation and Infrastructure and Armed
18 Services of the House of Representatives, and the Com-
19 mittees on Commerce, Science, and Transportation and
20 Armed Services of the Senate a report on—

21 (1) the extent to which specifications, key draw-
22 ings, and detail design for the Polar Security Cutter
23 are complete before the start of construction;

1 (2) the extent to which Polar Security Cutter
2 hulls numbers one, two, and three are science ready;
3 and

4 (3) what actions will be taken to ensure that
5 Polar Security Cutter hull number four is science ca-
6 pable, as described in the National Academies of
7 Sciences, Engineering, and Medicine’s Committee on
8 Polar Icebreaker Cost Assessment letter report enti-
9 tled “Acquisition and Operation of Polar Ice-
10 breakers: Fulfilling the Nation’s Needs” and dated
11 July 11, 2017.

12 **SEC. 8009. SHORESIDE INFRASTRUCTURE.**

14 tion 4902(2)(A) of title 14, United States Code, as amend-
15 ed by section 8001 of this division, for each of fiscal years
16 2020 and 2021, \$167,500,000 is authorized for the Sec-

4 **DICTION OF ILLICIT DRUGS IN TRANSIT**
5 **ZONES.**

6 (a) FINDINGS.—Congress makes the following find-
7 ings:

8 (1) The Coast Guard seizes an average of 1,221
9 pounds of cocaine and 85 pounds of marijuana each
10 day in the transit zones of the Eastern Pacific
11 Ocean, Caribbean Sea, and Southern maritime bor-
12 der approaches.

13 (2) The Joint Interagency Task Force—South
14 (JIATF—South) estimates that it has a spectrum of
15 actionable intelligence on more than 80 percent of
16 drug movements into the United States from Central
17 America and South America.

18 (3) The Coast Guard must balance asset alloca-
19 tion across 11 statutory missions. As such, the
20 Coast Guard interdicts less than 10 percent of mari-
21 time noncommercial smuggling of illicit drugs into
22 the United States from Central America and South
23 America.

1 (4) In 2017, the Government Accountability Of-
2 fice recommended that the Commandant of the

21 gaps in resources that contribute to low interdiction rates
22 for maritime noncommercial smuggling of illicit drugs into
23 the United States from Central America and South Amer-
24 ica despite having actionable intelligence on more than 80
25 percent of drug movements in the transit zones of the

1 Eastern Pacific Ocean, Caribbean Sea, and Southern mar-
2 itime border approaches.

3 (c) REPORT.—Not later than 1 year after the date

23 shall be submitted in unclassified form, but may contain
24 a classified annex.

19 **Subtitle C—Arctic**

20 **SEC. 11301. COAST GUARD ARCTIC PRIORITIZATION.**

21 (a) **FINDINGS.**—Congress makes the following find-
22 ings:

23 (1) The strategic importance of the Arctic con-
24 tinues to increase as the United States and other
25 countries recognize the military significance of the

1 sea lanes and choke points within the region and un-
2 derstand the potential for power projection from the
3 Arctic into multiple regions.

4 (2) Russia and China have conducted military
5 exercises together in the Arctic, have agreed to con-
6 nect the Northern Sea Route, claimed by Russia,
7 with China's Maritime Silk Road, and are working
8 together in developing natural gas resources in the
9 Arctic.

10 (3) The economic significance of the Arctic con-
11 tinues to grow as countries around the globe begin
12 to understand the potential for maritime transpor-
13 tation through, and economic and trade development
14 in, the region.

15 (4) Increases in human, maritime, and resource
16 development activity in the Arctic region may create
17 additional mission requirements for the Department
18 of Defense and the Department of Homeland Secu-
19 rity.

20 (5) The increasing role of the United States in
21 the Arctic has been highlighted in each of the last
22 four national defense authorization acts.

23 (6) The United States Coast Guard Arctic
24 Strategic Outlook released in April 2019 states,
25 "Demonstrating commitment to operational pres-

1 ence, Canada, Denmark, and Norway have made
2 strategic investments in ice-capable patrol ships
3 charged with national or homeland security missions.
4 The United States is the only Arctic State that has
5 not made similar investments in ice-capable surface
6 maritime security assets. This limits the ability of
7 the Coast Guard, and the Nation, to credibly uphold
8 sovereignty or respond to contingencies in the Ar-
9 ctic.”.

10 (b) SENSE OF CONGRESS.—It is the sense of Con-
11 gress that—

12 (1) the Arctic is a region of strategic impor-
13 tance to the national security interests of the United
14 States, and the Coast Guard must better align its
15 mission prioritization and development of capabilities
16 to meet the growing array of challenges in the re-
17 gion;

18 (2) the increasing freedom of navigation and
19 expansion of activity in the Arctic must be met with
20 an increasing show of Coast Guard forces capable of
21 exerting influence through persistent presence;

22 (3) Congress fully supports the needed and im-
23 portant re-capitalization of the fleet of cutters and
24 aircraft of the Coast Guard, but, the Coast Guard
25 must avoid overextending operational assets for re-

1 mote international missions at the cost of dedicated
2 focus on this domestic area of responsibility with
3 significant international interest and activity; and

4 (4) although some progress has been made to
5 increase awareness of Arctic issues and to promote
6 increased presence in the region, additional meas-
7 ures are needed to protect vital economic, environ-
8 mental, and national security interests of the United
9 States, and to show the commitment of the United
10 States to this emerging strategic choke point of in-
11 creasing great power competition.

12 (c) ARCTIC DEFINED.—In this section, the term
13 “Arctic” has the meaning given that term in section 112
14 of the Arctic Research and Policy Act of 1984 (15 U.S.C.
15 4111).

16 **SEC. 11302. ARCTIC PARS NATIVE ENGAGEMENT.**

17 The Commandant shall—

18 (1) engage directly with local coastal whaling
19 and fishing communities in the Arctic region when
20 conducting the Alaskan Arctic Coast Port Access
21 Route Study, in accordance with chapter 700 of title
22 46, United States Code, and as described in the no-
23 tice of study published in the Federal Register on
24 December 21, 2018 (83 Fed. Reg. 65701); and

1 (2) consider the concerns of the Arctic coastal
2 community regarding any Alaskan Arctic Coast Port
3 Access Route, including safety needs and concerns.

4 **SEC. 11303. VOTING REQUIREMENT.**

5 Section 305(i)(1)(G)(iv) of the Magnuson-Stevens
6 Fishery Conservation and Management Act (16 U.S.C.
7 1855(i)(1)(G)(iv)) is amended to read as follows:

8 “(iv) VOTING REQUIREMENT.—The
9 panel may act only by the affirmative vote
10 of at least 5 of its members, except that
11 any decision made pursuant to the last
12 sentence of subparagraph (C) shall require
13 the unanimous vote of all 6 members of
14 the panel.”.

15 other countries operating in the Arctic in conditions
16 inaccessible to Navy surface or aviation forces in the
17 manner such forces currently operate.

18 (4) A comparison of the domain awareness ca-
19 pabilities of—

9 shall be submitted in unclassified form, but may contain
10 a classified annex.

12 FINED.—In this section, the term “appropriate commit-
13 tees of Congress” means—

14 (1) the Committee on Armed Services, the
15 Committee on Commerce, Science, and Transpor-
16 tation, and the Committee on Appropriations of the
17 Senate; and

9 coastal communities to respond to search and rescue
10 incidents through training, funding, and deployment
11 of assets.

12 (2) An analysis of the costs of forward deploy-
13 ing on a seasonal basis Coast Guard assets in sup-
14 port of such communities for responses to such inci-
15 dents.

13 **SEC. 14101. SENSE OF CONGRESS ON IMPORTANCE OF DE-**
14 **PARTMENT OF STATE’S WORK.**

15 It is the sense of Congress that—

16 (1) United States global engagement is key to
17 a stable and prosperous world;

18 (2) United States leadership is indispensable in
19 light of the many complex and interconnected
20 threats facing the United States and the world;

21 (3) diplomacy and development are critical tools
22 of national power, and full deployment of these tools
23 is vital to United States national security;

1 (4) challenges such as the global refugee and
2 migration crises, terrorism, historic famine and food
3 insecurity, and fragile or repressive societies cannot
4 be addressed without sustained and robust United
5 States diplomatic and development leadership;

6 (5) the United States Government must use all
7 of the instruments of national security and foreign
8 policy at its disposal to protect United States citi-
9 zens, promote United States interests and values,
10 and support global stability and prosperity;

11 (6) United States security and prosperity de-
12 pend on having partners and allies that share our in-
13 terests and values, and these partnerships are nur-
14 tured and our shared interests and values are pro-
15 moted through United States diplomatic engage-
16 ment, security cooperation, economic statecraft, and
17 assistance that helps further economic development,
18 good governance, including the rule of law and
19 democratic institutions, and the development of
20 shared responses to natural and humanitarian disas-
21 ters;

22 (7) as the United States Government agencies
23 primarily charged with conducting diplomacy and
24 development, the Department and the United States
25 Agency for International Development (USAID) re-

1 quire sustained and robust funding to carry out this
2 important work, which is essential to our ability to
3 project United States leadership and values and to
4 advance the United States interests around the
5 world;

6 (8) the work of the Department and USAID
7 makes the United States and the world safer and
8 more prosperous by alleviating global poverty and
9 hunger, fighting HIV/AIDS and other infectious dis-
10 eases, strengthening alliances, expanding educational
11 opportunities for women and girls, promoting good
12 governance and democracy, supporting anti-corrup-
13 tion efforts, driving economic development and
14 trade, preventing armed conflicts and humanitarian
15 crises, and creating American jobs and export oppor-
16 tunities;

17 (9) the Department and USAID are vital na-
18 tional security agencies, whose work is critical to the
19 projection of United States power and leadership
20 worldwide, and without which Americans would be
21 less safe, our economic power would be diminished,
22 and global stability and prosperity would suffer;

23 (10) investing in diplomacy and development
24 before conflicts break out saves American lives while
25 also being cost-effective; and

1 (11) the contributions of personnel working at
2 the Department and USAID are extraordinarily val-
3 uable and allow the United States to maintain its

18 **DIVISION K—KLEPTOCRACY**
19 **ASSET RECOVERY REWARDS**
20 **ACT**

21 **SEC. 16001. SHORT TITLE.**

22 The division may be cited as the “Kleptocracy Asset
23 Recovery Rewards Act”.

24 **SEC. 16002. FINDINGS; SENSE OF CONGRESS.**

25 (a) FINDINGS.—Congress finds the following:

1 (1) The Stolen Asset Recovery Initiative
2 (StAR), a World Bank and United Nations anti-
3 money-laundering effort, estimates that between \$20
4 billion to \$40 billion has been lost to developing
5 countries annually through corruption.

6 (2) In 2014, more than \$480 million in corrup-
7 tion proceeds hidden in bank accounts around the
8 world by former Nigerian dictator Sani Abacha and
9 his co-conspirators was forfeited through efforts by
10 the Department of Justice.

11 (3) In 2010, the Department of Justice estab-
12 lished the Kleptocracy Asset Recovery Initiative, to
13 work in partnership with Federal law enforcement
14 agencies to forfeit the proceeds of foreign official
15 corruption and, where appropriate, return those pro-
16 ceeds to benefit the people harmed by these acts of
17 corruption and abuse of office.

18 (4) Of the \$20 billion to \$40 billion lost by de-
19 veloping countries annually through corruption, only
20 about \$5 billion has been repatriated in the last 15
21 years.

22 (5) Governments weakened by corruption and
23 loss of assets due to corruption have fewer resources
24 to devote to the fight against terrorism and fewer re-
25 sources to devote to building strong financial, law

1 enforcement, and judicial institutions to aid in the
2 fight against the financing of terrorism.

3 (6) The United States has a number of effective
4 programs to reward individuals who provide valuable
5 information that assist in the identification, arrest,
6 and conviction of criminal actors and their associ-
7 ates, as well as seizure and forfeiture of illicitly de-
8 rived assets and the proceeds of criminal activity.

9 (7) The Internal Revenue Service has the Whis-
10 tleblower Program, which pays awards to individuals
11 who provide specific and credible information to the
12 IRS if the information results in the collection of
13 taxes, penalties, interest or other amounts from non-
14 compliant taxpayers.

15 (8) The Department of State administers re-
16 wards programs on international terrorism, illegal
17 narcotics, and transnational organized crime with
18 the goal of bringing perpetrators to justice.

19 (9) None of these existing rewards programs
20 specifically provide monetary incentives for identi-
21 fying and recovering stolen assets linked solely to
22 foreign government corruption, as opposed to crimi-
23 nal prosecutions or civil or criminal forfeitures.

24 (10) The recovery of stolen assets linked to for-
25 eign government corruption and the proceeds of such

1 corruption may not always involve a BSA violation
2 or lead to a forfeiture action. In such cases there
3 would be no ability to pay rewards under existing
4 Treasury Department authorities.

5 (11) Foreign government corruption can take
6 many forms but typically entails government officials
7 stealing, misappropriating, or illegally diverting as-
8 sets and funds from their own government treasuries
9 to enrich their personal wealth directly through em-
10 bezzlement or bribes to allow government resources
11 to be expended in ways that are not transparent and
12 may not either be necessary or be the result of open
13 competition. Corruption also includes situations
14 where public officials take bribes to allow govern-
15 ment resources to be expended in ways which are
16 not transparent and may not be necessary or the re-
17 sult of open competition. These corrupt officials
18 often use the United States and international finan-
19 cial system to hide their stolen assets and the pro-
20 ceeds of corruption.

21 (12) The individuals who come forward to ex-
22 pose foreign governmental corruption and
23 kleptocracy often do so at great risk to their own
24 safety and that of their immediate family members
25 and face retaliation from persons who exercise for-

1 eign political or governmental power. Monetary re-
2 wards can provide a necessary incentive to expose
3 such corruption and provide a financial means to
4 provide for their well-being and avoid retribution.

5 (b) SENSE OF CONGRESS.—It is the sense of Con-
6 gress that a Department of the Treasury stolen asset re-
7 covery rewards program to help identify and recover stolen
8 assets linked to foreign government corruption and the
9 proceeds of such corruption hidden behind complex finan-
10 cial structures is needed in order to—

11 (1) intensify the global fight against corruption;

12 and

13 (2) serve United States efforts to identify and
14 recover such stolen assets, forfeit proceeds of such
15 corruption, and, where appropriate and feasible, re-
16 turn the stolen assets or proceeds thereof to the
17 country harmed by the acts of corruption.

18 **SEC. 16003. IN GENERAL.**

19 (a) DEPARTMENT OF THE TREASURY KLEPTOCRACY
20 ASSET RECOVERY REWARDS PROGRAM.—Chapter 97 of
21 title 31, United States Code, is amended by adding at the

23 **“§ 9706. Department of the Treasury Kleptocracy**
24 **Asset Recovery Rewards Program**

25 “(a) ESTABLISHMENT.—

1 “(1) IN GENERAL.—There is established in the

5 purposes of this section.

6 “(2) PURPOSE.—The rewards program shall be
7 designed to support U.S. Government programs and
8 investigations aimed at restraining, seizing, for-
9 feiting, or repatriating stolen assets linked to foreign
10 government corruption and the proceeds of such cor-
11 ruption.

12 “(3) IMPLEMENTATION.—The rewards program
13 shall be administered by, and at the sole discretion
14 of, the Secretary of the Treasury, in consultation, as
15 appropriate, with the Secretary of State, the Attor-

18 propriate.

19 “(b) REWARDS AUTHORIZED.—In the sole discretion
20 of the Secretary and in consultation, as appropriate, with
21 the heads of other relevant Federal departments or agen-
22 cies, the Secretary may pay a reward to any individual,
23 or to any nonprofit humanitarian organization designated
24 by such individual, if that individual furnishes information
25 leading to—

1 “(1) the restraining or seizure of stolen assets
2 in an account at a U.S. financial institution (includ-
3 ing a U.S. branch of a foreign financial institution),
4 that come within the United States, or that come
5 within the possession or control of any United States
6 person;

7 “(2) the forfeiture of stolen assets in an ac-
8 count at a U.S. financial institution (including a

16 institution), that come within the United States, or
17 that come within the possession or control of any
18 United States person.

19 “(c) COORDINATION.—

20 “(1) PROCEDURES.—To ensure that the pay-
21 ment of rewards pursuant to this section does not
22 duplicate or interfere with any other payment au-
23 thorized by the Department of Justice or other Fed-
24 eral law enforcement agencies for the obtaining of
25 information or other evidence, the Secretary of the

1 Treasury, in consultation with the Secretary of
2 State, the Attorney General, and the heads of such
3 other agencies as the Secretary may find appro-
4 priate, shall establish procedures for the offering,
5 administration, and payment of rewards under this
6 section, including procedures for—

7 “(A) identifying actions with respect to
8 which rewards will be offered;

9 “(B) the receipt and analysis of data; and

10 “(C) the payment of rewards and approval
11 of such payments.

12 “(2) PRIOR APPROVAL OF THE ATTORNEY GEN-
13 ERAL REQUIRED.—Before making a reward under
14 this section in a matter over which there is Federal

25 section (b) that the Secretary determines is nec-

1 essary to carry out this program consistent with
2 this section.

3 “(2) LIMITATION ON ANNUAL PAYMENTS.—Ex-
4 cept as provided under paragraph (3), the total
5 amount of rewards paid pursuant to this section
6 may not exceed \$25 million in any calendar year.

7 “(3) PRESIDENTIAL AUTHORITY.—The Presi-
8 dent may waive the limitation under paragraph (2)
9 with respect to a calendar year if the President pro-

11 priate committees of the Congress at least 30 days
12 before any payment in excess of such limitation is
13 made pursuant to this section.

14 “(4) PAYMENTS TO BE MADE FIRST FROM STO-
15 LEN ASSET AMOUNTS.—In paying any reward under
16 this section, the Secretary shall, to the extent pos-
17 sible, make such reward payment—

18 “(A) first, from appropriated funds au-
19 thorized under paragraph (1)(B); and

20 “(B) second, from appropriated funds au-
21 thorized under paragraph (1)(A).

22 “(e) LIMITATIONS.—

23 “(1) SUBMISSION OF INFORMATION.—No award
24 may be made under this section based on informa-

1 tion submitted to the Secretary unless such informa-
2 tion is submitted under penalty of perjury.

3 “(2) MAXIMUM AMOUNT.—No reward paid
4 under this section may exceed \$5 million, unless the
5 Secretary—

6 “(A) personally authorizes such greater
7 amount in writing;

8 “(B) determines that offer or payment of
9 a reward of a greater amount is necessary due
10 to the exceptional nature of the case; and

11 “(C) notifies the appropriate committees of
12 the Congress of such determination.

13 “(3) APPROVAL.—

14 “(A) IN GENERAL.—No reward amount
15 may be paid under this section without the

19 paragraph (A) to anyone other than an Under
20 Secretary of the Department of the Treasury.

21 “(4) PROTECTION MEASURES.—If the Secretary
22 determines that the identity of the recipient of a re-
23 ward or of the members of the recipient’s immediate
24 family must be protected, the Secretary shall take
25 such measures in connection with the payment of

1 the reward as the Secretary considers necessary to
2 effect such protection.

3 “(5) FORMS OF REWARD PAYMENT.—The Sec-

13 ble for a reward under this section.

14 “(2) PARTICIPATING INDIVIDUALS.—If the
15 claim for a reward is brought by an individual who
16 the Secretary has a reasonable basis to believe know-

18 facilitated the actions that led to assets of a foreign
19 state or governmental entity being stolen, misappro-
20 priated, or illegally diverted or to the payment of
21 bribes or other foreign governmental corruption, the
22 Secretary shall appropriately reduce, and may deny,
23 such award. If such individual is convicted of crimi-
24 nal conduct arising from the role described in the

1 preceding sentence, the Secretary shall deny or may
2 seek to recover any reward, as the case may be.

3 “(g) REPORT.—

4 “(1) IN GENERAL.—Within 180 days of the en-
5 actment of this section, and annually thereafter for

11 on or after the date of the enactment of this
12 section, come within the United States or that
13 come within the possession or control of any

15 “(B) discussing efforts being undertaken
16 to identify more such stolen assets and their

10 **TATION**

11 **SEC. 17001. SHORT TITLE.**

12 This division may be cited as the “Stopping Traf-
13 ficking, Illicit Flows, Laundering, and Exploitation Act of
14 2020” or the “STIFLE Act of 2020”.

15 **SEC. 17002. FINDINGS.**

16 The Congress finds the following:

17 (1) Trafficking is a national-security threat and
18 an economic drain of our resources.

19 (2) As the U.S. Department of the Treasury’s
20 recently released “2020 National Strategy for Com-
21 bating Terrorist and Other Illicit Financing” con-
22 cludes, “While money laundering, terrorism financ-
23 ing, and WMD proliferation financing differ quali-
24 tatively and quantitatively, the illicit actors engaging

1 in these activities can exploit the same vulnerabilities
2 and financial channels.”.

3 (3) Among those are bad actors engaged in
4 trafficking, whether they trade in drugs, arms, cul-
5 tural property, wildlife, natural resources, counter-
6 feit goods, organs, or, even, other humans.

7 (4) Their illegal (or “dark”) markets use simi-
8 lar and sometimes related or overlapping methods
9 and means to acquire, move, and profit from their
10 crimes.

11 (5) In a March 2017, report from Global Fi-
12 nancial Integrity, “Transnational Crime and the De-
13 veloping World”, the global business of transnational
14 crime was valued at \$1.6 trillion to \$2.2 trillion an-
15 nually, resulting in crime, violence, terrorism, insta-
16 bility, corruption, and lost tax revenues worldwide.

17 **SEC. 17003. GAO STUDY.**

18 (a) STUDY.—The Comptroller General of the United
19 States shall carry out a study on—

20 (1) the major trafficking routes used by
21 transnational criminal organizations, terrorists, and
22 others, and to what extent the trafficking routes for
23 people (including children), drugs, weapons, cash,
24 child sexual exploitation materials, or other illicit
25 goods are similar, related, or cooperative;

1 (2) commonly used methods to launder and
2 move the proceeds of trafficking;

3 (3) the types of suspicious financial activity
4 that are associated with illicit trafficking networks,
5 and how financial institutions identify and report
6 such activity;

7 (4) the nexus between the identities and fi-
8 nances of trafficked persons and fraud;

9 (5) the tools, guidance, training, partnerships,
10 supervision, or other mechanisms that Federal agen-
11 cies, including the Department of the Treasury's Fi-
12 nancial Crimes Enforcement Network, the Federal
13 financial regulators, and law enforcement, provide to
14 help financial institutions identify techniques and
15 patterns of transactions that may involve the pro-
16 ceeds of trafficking;

17 (6) what steps financial institutions are taking
18 to detect and prevent bad actors who are laundering
19 the proceeds of illicit trafficking, including data
20 analysis, policies, training procedures, rules, and
21 guidance;

22 (7) what role gatekeepers, such as lawyers, no-
23 taries, accountants, investment advisors, logistics
24 agents, and trust and company service providers,

1 play in facilitating trafficking networks and the
2 laundering of illicit proceeds; and

3 (8) the role that emerging technologies, includ-
4 ing artificial intelligence, digital identity tech-
5 nologies, blockchain technologies, virtual assets, and
6 related exchanges and online marketplaces, and
7 other innovative technologies, can play in both as-
8 sisting with and potentially enabling the laundering
9 of proceeds from trafficking.

10 (b) CONSULTATION.—In carrying out the study re-
11 quired under subsection (a), the Comptroller General shall
12 solicit feedback and perspectives to the extent practicable
13 from survivor and victim advocacy organizations, law en-
14 forcement, research organizations, private-sector organiza-
15 tions (including financial institutions and data and tech-
16 nology companies), and any other organization or entity
17 that the Comptroller General determines appropriate.

18 (c) REPORT.—The Comptroller General shall issue
19 one or more reports to the Congress containing the results
20 of the study required under subsection (a). The first re-
21 port shall be issued not later than the end of the 15-month
22 period beginning on the date of the enactment of this Act.
23 The reports shall contain—

1 (1) all findings and determinations made in car-
2 rying out the study required under subsection (a);
3 and

4 (2) recommendations for any legislative or regu-
5 latory changes necessary to combat trafficking or
6 the laundering of proceeds from trafficking.
