

117TH CONGRESS
2D SESSION

H. R. 7627

To address systemic racism through the arts and humanities in the United States.

IN THE HOUSE OF REPRESENTATIVES

APRIL 28, 2022

Ms. LEE of California introduced the following bill; which was referred to the Committee on Education and Labor

A BILL

To address systemic racism through the arts and humanities in the United States.

1 *Be it enacted by the Senate and House of Representa-*
2 *tives of the United States of America in Congress assembled,*

3 SECTION 1. SHORT TITLE.

4 This Act may be cited as the “Advancing Equity
5 Through the Arts and Humanities Act of 2022”.

6 SEC. 2. FINDINGS.

7 Congress makes the following findings:

8 (1) Access to the arts and cultural program-
9 ming influences positive social determinants and is
10 integral to healthy communities.

1 (2) In America, the received narrative is that
2 the arts are for entertainment or for artists, but a
3 deeper look shows the profound effect access to the
4 arts has on those most impacted by the justice sys-
5 tem, children, veterans, low-income communities,
6 and self-designated non-artists.

7 (3) Concentrated cultural districts are associ-
8 ated with reduced poverty without neighborhood dis-
9 placement, improved child welfare, and lower mor-
10 bidity.

11 (4) Low-income neighborhoods with cultural re-
12 sources have 14 percent fewer cases of child abuse
13 and neglect, and 18 percent less serious crime than
14 low-income neighborhoods without cultural re-
15 sources.

16 (5) Low-income students who participate in the
17 arts, both in school and after school, have a dropout
18 rate of just 4 percent or 5 times lower than their
19 peers. Children with access to arts programming in
20 schools showed a 22.55 percent improvement in
21 math proficiency, a 12.62 percent improvement in
22 reading, and suspensions were reduced by as much
23 as 89 percent.

24 (6) Seventy-one percent of at-risk students with
25 high arts involvement attend college, whereas only

1 48 percent of at-risk students with low arts involve-
2 ment attend college.

3 (7) Participation in after-school arts programs
4 causes juvenile crime to fall by 4.2 percent on aver-
5 age, and slightly more (5.4 percent) in lower-income
6 cities.

7 (8) Arts programming in prisons showed an 89-
8 percent drop in infractions.

9 (9) The cultural economy is significant not only
10 in cities, but also in rural and tribal communities.
11 Forty percent of Native American households on the
12 Pine Ridge Reservation in Kyle, South Dakota, de-
13 pend on home-based arts enterprises.

14 (10) The arts heal the mental, physical, and
15 moral injuries of war for military servicemembers
16 and veterans, as well as aid in their reintegration
17 into the community.

18 (11) Arts and culture is an \$878,000,000,000
19 industry in the U.S. (nonprofit, commercial, edu-
20 cation). The nonprofit arts industry alone generates
21 \$166,300,000,000 in annual economic activity
22 spending by organizations and their audience, which
23 supports 4,600,000 jobs and generates
24 \$27,500,000,000 in government revenue.

1 (12) The National Endowment for the Arts is
2 the only arts funder in the United States, public or
3 private, that provides access to the arts in all 50
4 States, the District of Columbia, and territories of
5 the United States.

6 (13) Many of the most far-reaching victories for
7 racial healing in the United States have been greatly
8 enhanced by the involvement, support, and dedica-
9 tion of individuals from any and all racial groups.

10 (14) At the same time, much of the progress to-
11 ward racial healing and racial equity in the United
12 States has been limited or reversed by our failure to
13 address the root cause of racism, the belief in the
14 myth of a hierarchy of human value based on super-
15 ficial physical characteristics such as skin color and
16 facial features.

17 (15) Limited arts access is linked to economic
18 and racial inequities as well as resource deprivation.

19 (16) Arts organizations serving communities of
20 color are, in general, much less financially secure
21 and far smaller than their counterparts in White
22 communities. The median budgets of the 20 largest
23 arts organizations serving communities of color in a
24 given discipline, such as dance, theater, or music,

1 were more than 90 percent smaller than the budgets
2 of the largest organizations in that discipline.

3 (17) Children of color, who make up the over-
4 whelming percentage of the children living in poverty
5 in the United States, and other students with lower
6 socioeconomic status, have a lower probability of ac-
7 cessing arts education.

8 (18) Access to arts education declined signifi-
9 cantly more for Black and Brown students than it
10 did for White children between 1982 and 2008.
11 There was less than a 2 percent decrease for White
12 children, while there was a 49 percent decrease for
13 Black children and a 40 percent decrease for Latin
14 children.

15 (19) The arts are in everyone. Everyone should
16 have access to the arts.

17 (20) Racial and ethnic inequality is a result of
18 systematic and internalized racism and racist public
19 and private policies and practices. Dismantling
20 structural racism through the arts and humanities is
21 critical to the health of our Nation.
