1ST SESSION

H. R. 868

To amend title XIX of the Social Security Act to provide funds to States to enable them to increase the wages paid to targeted direct support professionals in providing services to individuals with disabilities under the Medicaid Program.

IN THE HOUSE OF REPRESENTATIVES

FEBRUARY 4, 2009

Mrs. CAPPS (for herself and Mr. TERRY) introduced the following bill; which was referred to the Committee on Energy and Commerce

A BILL

To amend title XIX of the Social Security Act to provide funds to States to enable them to increase the wages paid to targeted direct support professionals in providing services to individuals with disabilities under the Medicaid Program.

1 *Be it enacted by the Senate and House of Representa-*
2 *tives of the United States of America in Congress assembled,*

3 **SECTION 1. SHORT TITLE; FINDINGS.**

4 (a) SHORT TITLE.—This Act may be cited as the
5 “Direct Support Professionals Fairness and Security Act
6 of 2009”.

7 (b) FINDINGS.—Congress finds the following:

1 (1) Direct support professionals (including
2 workers referred to as direct support workers, direct
3 care workers, personal assistants, personal attend-
4 ants, paraprofessionals) are the primary providers of
5 long term care services for millions of individuals
6 who have physical or mental disabilities. Direct sup-
7 port professionals provide assistance with activities
8 of daily living, instrumental activities of daily living,
9 assistance with rehabilitation, habilitation, training
10 needs and other tasks. All provide essential supports
11 that help keep individuals with disabilities connected
12 to their communities.

13 (2) These workers who provide intimate sup-
14 ports are predominately female and many are the
15 sole breadwinners of their families. Although work-
16 ing and paying taxes, many women in these jobs re-
17 main impoverished and are eligible for many of the
18 same Federal and State public assistance programs
19 upon which the very individuals with disabilities to
20 whom they provide supports must depend.

21 (3) Throughout the nation, there is a critical
22 shortage of direct support professionals. Vacancy
23 and turn over rates are high. In many parts of the
24 country, individuals with disabilities are unable to
25 access the services they need, thereby jeopardizing

1 their health and quality of life, placing even greater
2 burdens on their family members and informal care-
3 givers and creating long waiting lists for community
4 placement.

5 (4) The crisis that the nation faces today will
6 only get worse. Over the next 30 years, there will be
7 a rapid rise of the population over 65 years of age.
8 At the same time, advances in medical science and
9 drug therapy are increasing the number of people, of
10 all ages, living with severe disabilities. Thus, while
11 demand for direct support professional services is in-
12 creasing, the pool of younger, entry level workers is
13 shrinking. By 2010, more than 780,000 additional
14 workers must be found to fill long-term direct sup-
15 port staff positions.

16 (5) To stabilize and increase the number of di-
17 rect support professionals in the work force, the
18 wages and benefits of direct support professionals
19 must be improved and made equitable among long
20 term support options.

21 (6) Medicaid is the single-largest payor of long-
22 term supports and services for people with disabil-
23 ities. Enhanced Federal Medicaid matching funds
24 should be available to assist States committed to ad-
25 dressing wage differentials among direct support

1 professionals by increasing the wages of direct sup-
2 port professionals and supporting and improving the
3 stability of the direct support professional workforce.

4 **SEC. 2. MEDICAID AMENDMENT.**

5 (a) AUTHORIZING ESTABLISHMENT OF DIRECT SUP-
6 PORT PROFESSIONAL WAGE ENHANCEMENT PLANS.—
