RESOLUTION

Expressing support for the designation of Sunday, June 16,
2024, as “Father’s Day”.

Whereas Father’s Day recognizes and raises awareness of the
importance of fathers in the United States;

Whereas Father’s Day was established in 1966 by then-Presi-
dent Lyndon Johnson issuing a proclamation setting
aside the third Sunday in June to honor fathers;

Whereas Father's Day has been celebrated annually since 1972, when then-President Richard Nixon signed a law making it a permanent national holiday;

Whereas, throughout the history of the United States, whether in their homes, workplaces, schools, and communities, fathers have fought for themselves, their families, and all people of the United States;

Whereas 6 in 10 adult men in the United States are fathers;

Whereas 36,000,000 men live with 80,000,000 children under 18 years of age;

Whereas 29,000,000 of these fathers are also grandfathers;

Whereas fathers are just as likely as mothers to say that parenting is extremely important to their identity;

Whereas, since 1965, fathers in the United States have nearly tripled the time they spend caring for children;

Whereas there are 1,800,000 men who are "solo" fathers to a minor;

Whereas children with involved loving fathers are significantly more likely to do well in school, and exhibit greater emotional security, curiosity, and math and verbal skills;

Whereas toddlers with involved fathers go to school with higher levels of academic readiness, and they are more patient when handling stress associated with attending school;

Whereas the positive impacts of having an engaged father persist into adolescence and adulthood, resulting in higher intellectual functioning, better verbal skills, and higher academic achievement;

Whereas children with involved fathers have higher self-esteem and fewer behavioral problems at school;

Whereas fathers who take 2 or more weeks off after the birth of a child are more involved in that child’s direct care 9 months after birth than fathers who take no leave;

Whereas a father’s involvement in his newborn’s care in the first 6 months can mean both mother and baby sleep better;

Whereas a mother’s income rises 7 percent for each month of leave their child’s father takes;

Whereas policies that provide support to fathers ensure that families and children thrive while also benefiting fathers’ physical and mental health;

Whereas universal paid family and medical leave will give fathers the freedom to care for themselves and their loved ones;

Whereas affordable, accessible, high-quality child care with family sustaining wages for early educators will help fathers support their children’s healthy development;

Whereas a permanent, fully inclusive, monthly child tax credit will put consistent resources into the hands of fathers caring for children; and

Whereas Sunday, June 16, 2024, will be widely celebrated across the United States as “Father’s Day”: Now, therefore, be it

1 *Resolved*, That the House of Representatives—

2 (1) recognizes the role of fathers in the United

3 States;

1 (2) urges support for universal paid family and
2 medical leave, affordable, accessible, high-quality
3 child care, and a permanent, fully inclusive, monthly
4 child tax credit;

5 (3) acknowledges that fathers can, and should,
6 be celebrated and supported as an integral part of
7 families, communities, workplaces, and society; and

8 (4) supports the designation of a “Father’s
9 Day”.
