RESOLUTION

Supporting the goals of Overdose Awareness Day and strengthening efforts to combat the opioid crisis in the United States.

Whereas more than 932,000 individuals in the United States have died from a drug overdose since 1999;

Whereas overdoses involving opioids killed nearly 69,000 people in 2020, and over 82 percent of those deaths involved synthetic opioids;

Whereas substance use disorder and drug overdose affect all socioeconomic groups, racial and ethnic groups, geographical regions, and ages;

Whereas substance use disorder is a chronic disease, and recognizing it as such decreases stigma and acknowledges that substance use may be beyond an individual's control;

Whereas overdose deaths are preventable, and countless lives can be saved through increased awareness, effective prevention strategies, timely intervention, comprehensive treatment, and robust recovery support;

Whereas communities across the Nation have been pained by substance use disorder through the premature loss of lives and the stigma associated with drug-related fatalities; and

Whereas the opioid crisis imposes an estimated annual economic burden of \$1,000,000,000,000 on the United States, encompassing health care costs, lost productivity, criminal justice expenditures, and social services, while devastating communities and families across the Nation: Now, therefore, be it
