IN THE SENATE OF THE UNITED STATES

June 22, 2011

Mr. Akaka introduced the following bill; which was read twice and referred to the Committee on Health, Education, Labor, and Pensions

A BILL

To require financial literacy and economic education counseling for student borrowers, and for other purposes.

- 1 Be it enacted by the Senate and House of Representa-
- 2 tives of the United States of America in Congress assembled,
- 3 SECTION 1. SHORT TITLE.
- 4 This Act may be cited as the "College Literacy in
- 5 Finance and Economics Act of 2011" or the "College
- 6 LIFE Act".
- 7 SEC. 2. FINDINGS.
- 8 Congress finds the following:
- 9 (1) Student borrowing is widespread in higher
- 10 education, and more than \$100,000,000,000 in Fed-

- eral education loans are originated each year. In 2 2008, 62 percent of recipients of a baccalaureate de-3 gree graduated with student debt.
 - (2) Forty-eight percent of students at 4-year public institutions of higher education borrow money to pay for college, as do 57 percent of students at 4-year private institutions of higher education, and 96 percent of students at for-profit institutions of higher education.
 - (3) In 2008, 92 percent of Black students, 85 percent of Hispanic students, 85 percent of American Indian/Alaska Native students, 82 percent of multi-racial students, 80 percent of Native Hawaiian/Pacific Islander students, 77 percent of White students, and 68 percent of Asian students received financial aid.
 - (4) Students depart from institutions of higher education with significant debt. In 2008, the average student loan debt among graduates of institutions of higher education was \$23,186, and 1 in 10 recipients of a baccalaureate degree graduated at least \$40,000 in debt. In 2008, 57 percent of recipients of a baccalaureate degree from a for-profit institution of higher education owed more than \$30,000, and the median amount of debt was \$32,700. Since

- 2 2003, the average cumulative debt among students at institutions of higher education has increased by 5.6 percent each year.
 - (5) Students enrolled in for-profit institutions of higher education account for 47 percent of all student loan defaults, despite representing approximately 10 percent of all students enrolled in institutions of higher education. Since 2003, the national cohort default rate has increased from 4.5 percent to 7 percent.
 - (6) Students rely on access to credit. Fifty-six percent of dependent students at institutions of higher education had a credit card in their own name in 2004. The average credit card balance among such students who were carrying a balance on their cards was \$2,000.
 - (7) According to the National Foundation for Credit Counseling, the majority of adults (56 percent of adults in the United States, or 127,000,000 people) do not have a budget or keep close track of expenses or spending.
 - (8) According to a 2009 National Bankruptcy Research Center study, consumers who received financial education through pre-bankruptcy counseling had 27.5 percent fewer delinquent accounts and re-

- 1 mained current on their accounts for 29 percent 2 longer.
- (9) According to the Financial Industry Regulatory Authority Investor Education Foundation, less than one-third of young adults (ages 18 to 29) set aside emergency savings to weather unexpected financial challenges.
- 8 (10) According to a Jump\$tart Coalition for 9 Personal Financial Literacy survey, 62 percent of 10 high school students cannot pass a basic personal fi-11 nance exam, and financial literacy scores among fu-12 ture higher education students are low.
- 13 (11) According to research by the National En-14 downent for Financial Education and the University 15 of Arizona, schools are the institutions that students 16 trust most to help increase their knowledge of per-17 sonal finance.
