

114TH CONGRESS
1ST SESSION

S. 1372

To repeal the crude oil export ban, and for other purposes.

IN THE SENATE OF THE UNITED STATES

MAY 19, 2015

Ms. HEITKAMP (for herself, Ms. MURKOWSKI, Mr. MANCHIN, and Mr. CORKER) introduced the following bill; which was read twice and referred to the Committee on Banking, Housing, and Urban Affairs

A BILL

To repeal the crude oil export ban, and for other purposes.

1 *Be it enacted by the Senate and House of Representa-*
2 *tives of the United States of America in Congress assembled,*

3 SECTION 1. SHORT TITLE.

4 This Act may be cited as the “American Crude Oil
5 Export Equality Act”.

6 SEC. 2. FINDINGS.

7 Congress finds that—

8 (1) the United States has enjoyed a renaissance
9 in energy production—

10 (A) increasing domestic investment and
11 jobs; and

- 1 (B) establishing the United States as a
2 world leader in crude oil production;
- 3 (2) the United States upholds a commitment to
4 free trade and open markets and has consistently
5 opposed attempts by other nations to restrict the
6 free flow of energy;
- 7 (3) independent studies have concluded that al-
8 lowing the export of domestically produced crude
9 oil—
- 10 (A) will increase the globally available sup-
11 ply of crude oil; and
- 12 (B) will tend to reduce domestic prices for
13 gasoline and other refined petroleum products
14 in the United States;
- 15 (4) gasoline and other refined petroleum prod-
16 ucts are already eligible for export from the United
17 States without restriction;
- 18 (5) gasoline prices in the United States reflect
19 the price paid on the global market for crude oil and
20 not a separate crude oil price in the United States;
- 21 (6) exports of crude oil produced in the United
22 States would provide an alternative stable supplier
23 for crude oil to allies of the United States around
24 the world—

- 1 (A) allowing United States crude oil ex-
2 ports to compete on equal footing with other
3 international crudes;
- 4 (B) allowing United States crude oil ex-
5 ports to compete with and potentially displace
6 crude oil exports from Iran, as potential easing
7 of sanctions could lead to Iran regaining mar-
8 ket share;
- 9 (C) facilitating assistance to the countries
10 of Europe and Eurasia to diversify their energy
11 sources and achieve energy security by pro-
12 viding another option to protect against possible
13 unstable supply flows; and
- 14 (D) allowing the United States to use na-
15 tional energy policy to further United States in-
16 terests abroad; and
- 17 (7) the United States should remove all restric-
18 tions on the export of domestically produced crude
19 oil or crude oil of any origin, which will increase eco-
20 nomic benefits, enhance energy security, improve the
21 trade deficit, and promote key national security in-
22 terests of the United States domestically and around
23 the world.
