1 **SEC. 2. FINDINGS.**

2 Congress finds that—

3 (1) meat and poultry slaughter and processing  
4 is a particularly dangerous occupation, with meat  
5 and poultry processing workers suffering injuries at  
6 measurably higher rates than workers in other pri-  
7 vate sector industries;

8 (2) meat and poultry processing workers face  
9 double the rate of amputations as the average work-  
10 er in private industry, and injuries such as sprains,  
11 lacerations, and contusions are common among poul-  
12 try workers;

13 (3) meat and poultry processing workers suffer  
14 from musculoskeletal injuries, such as carpal tunnel  
15 syndrome, “trigger finger”, tendinitis, rotator cuff  
16 injuries, lower back injuries, and chronic pain and  
17 numbness, in numbers that can exceed 50 percent of  
18 workers;

19 (4) higher line speeds in meat and poultry proc-  
20 essing facilities is a recognized risk factor that leads  
21 to increased risk of both laceration and musculo-  
22 skeletal injuries;

23 (5) meat and poultry processing work was and  
24 continues to be particularly dangerous during the

1       Coronavirus Disease 2019 (COVID–19) pandemic  
2       due to, among other factors—

3               (A) the easily transmissible nature of the  
4       virus via aerosol and droplet;

5               (B) the close proximity of meat processing  
6       workers;

7               (C) cold conditions inside meat processing  
8       facilities; and

9               (D) the pace and physical rigor of meat  
10      and poultry processing work;

11              (6) during the COVID–19 pandemic, covered  
12      establishments have implemented policies and proce-  
13      dures that have—

14               (A) increased workers’ risk of exposure to  
15      SARS–CoV–2;

16               (B) prioritized processing rates over work-  
17      er health and welfare; and

18               (C) caused a disparate adverse impact on  
19      Asian, Black, and Latino workers in the meat  
20      and poultry processing industry;

21              (7) enforcement of requirements of the Occupa-  
22      tional Safety and Health Administration in the meat  
23      and poultry processing industry has been fundamen-  
24      tally inadequate, especially during the COVID–19  
25      pandemic; and

1           (8) meat and poultry processing workers are  
2           subjected to exploitative conditions and abusive be-  
3           havior by employers—

4           (A) including—

5           (i) use of abusive and humiliating  
6           shouting by supervisors accusing workers  
7           of not working fast enough and harassing  
8           them to work “faster” and “harder”;

9           (ii) use of sexualized language to har-  
10          ass women workers to work “harder” and  
11          “faster”;

12          (iii) patterns of direct sexual harass-  
13          ment and incidents of sexual assault; and

14          (iv) little or no accountability or re-  
15          dress for emotional, sexualized, or psycho-  
16          logical abuse due to—

17               (I) weak enforcement of, and  
18               noncompliance with, discrimination  
19               protections; and

20               (II) meat and poultry processing  
21               workers not reporting the abuse due  
22               to fear of receiving more abuse, hav-  
23               ing their employment terminated, or  
24               being reported to immigration en-  
25               forcement; and

1 (B) that lead to long-term psychological  
2 impacts, including—

3 (i) increased feelings of anger and  
4 stress by workers pressured to work faster  
5 and more aggressively to slaughter animals  
6 on killing lines; and

7 (ii) episodes of panic and fear by  
8 workers who were required to continue  
9 working during COVID–19 outbreaks.
