16 ciently contained so that the daily transmission rate
17 of the virus in the United States during the prior 2-
18 week period is at or below 1 per 1,500,000 individ-
19 uals.

20 (3) TRANSFERS DESCRIBED.—The restriction

 25 of Homeland Security Office of the Inspector General, the

1 Centers for Disease Control and Prevention, State or local
2 public health officials, court-appointed investigators, or
3 the Director of ICE determine that ICE cannot ensure
4 adherence to guidelines issued by the Centers for Disease
5 Control and Prevention to mitigate against the spread of
6 COVID–19 at any ICE facility, including maintaining
7 physical distance between individuals in custody at all
8 times, due to population levels or facility structures that
9 necessitates housing and sleeping large groups of people
10 in a single room, the Director shall—

11 (1) immediately conduct a custody review of all
12 the individuals detained at such facility; and

13 (2) release all individuals who are determined
14 eligible for release, with priority given to individuals
