Committee discharged; considered and agreed to

RESOLUTION

Recognizing the tenth anniversary of the enactment of the Paul Wellstone and Pete Domenici Mental Health Parity and Addiction Equity Act of 2008.

Whereas, according to the Substance Abuse and Mental Health Services Administration, in 2017, 18,200,000 individuals in the United States ages 12 and older needed substance use treatment but did not receive specialty treatment in the past year;

Whereas, in the United States in 2017, an estimated 2 out of 5 adults with any mental illness and 1/2 of adults with serious mental illness who had unmet needs for mental health services did not receive treatment because those individuals could not afford the cost of care; and

Whereas parity in insurance coverage for behavioral health services consistent with the requirements of the MHPAEA can provide access to life-saving treatment and services: Now, therefore be it
