(1) For general property tax purposes, land may be assessed on the basis of the value that the land has for agricultural use if the land:

(a) is not less than five contiguous acres in area, except that land may be assessed on the basis of the value that the land has for agricultural use:

(i) if:

(A) the land is devoted to agricultural use in conjunction with other eligible acreage;

and

(B) the land and the other eligible acreage described in Subsection (1)(a)(i)(A) have identical legal ownership; or

(ii) as provided under Subsections (4) and (5); and

(b) except as provided in Subsection (6) or (7):

(i) is actively devoted to agricultural use; and

(ii) has been actively devoted to agricultural use for at least two successive years immediately preceding the tax year for which the land is being assessed under this part.

(2) In determining whether land is actively devoted to agricultural use, production per

acre for a given county or area and a given type of land shall be determined by using the first applicable of the following:

(a) production levels reported in the current publication of the Utah Agricultural Statistics;

(b) current crop budgets developed and published by Utah State University; and

(c) other acceptable standards of agricultural production designated by the commission by rule adopted in accordance with Title 63G, Chapter 3, Utah Administrative Rulemaking Act.

(3) Land may be assessed on the basis of the land's agricultural value if the land:

- (a) is subject to the privilege tax imposed by Section 59-4-101;
- (b) is owned by the state or any of the state's political subdivisions; and
- (c) meets the requirements of Subsection (1).

(4) Notwithstanding Subsection (1)(a), the commission or a county board of equalization may grant a waiver of the acreage limitation for land upon:

- (a) appeal by the owner; and
- (b) submission of proof that 80% or more of the owner's, purchaser's, or lessee's income is derived from agricultural products produced on the property in question.

(5) Notwithstanding Subsection (1)(a), the commission or a county board of equalization shall grant a waiver of the acreage limitation for land upon:

- (a) appeal by the owner; and
- (b) submission of proof that:
 - (i) the failure to meet the acreage requirement arose solely as a result of an acquisition by a public utility or a governmental entity by:

- (A) eminent domain; or
- (B) the threat or imminence of an eminent domain proceeding; and
- (ii) the land is actively devoted to agricultural use.

(7) Land that otherwise qualifies for assessment under this part qualifies for assessment under this part in the first year the land resumes being actively devoted to agricultural use if:

(a) the land becomes ineligible for assessment under this part only as a result of a split estate mineral rights owner exercising the right to extract a mineral; and

(b) the land qualified for assessment under this part in the year immediately preceding the year the land became ineligible for assessment under this part only as a result of a split estate mineral rights owner exercising the right to extract a mineral.

(8) Land that otherwise qualifies under Subsection (1) to be assessed on the basis of the value that the land has for agricultural use does not lose that qualification by becoming subject to a forest stewardship plan developed under Section 65A-8a-106 under which the land is subject to a temporary period of limited use or nonuse.

(9) (a) Notwithstanding Subsection (1) ~~{(a), fallow land}~~ and except as provided in Subsection (9)(d), land in agricultural use that is intentionally allowed to lay fallow for one or more growing seasons qualifies for assessment under this part if the following is conducted:
