150 (1) (a) A person operating a motor vehicle in this state is considered to have given the
151 person's consent to a chemical test or tests of the person's breath, blood, urine, or oral fluids for
152 the purpose of determining whether the person was operating or in actual physical control of a
153 motor vehicle while:

154 (i) having a blood or breath alcohol content statutorily prohibited under Section
155 [41-6a-502](#), [41-6a-530](#), or [53-3-231](#);

164 (c) (i) The peace officer determines which of the tests are administered and how many
165 of them are administered.

166 (ii) If a peace officer requests more than one test, refusal by a person to take one or
167 more requested tests, even though the person does submit to any other requested test or tests, is
168 a refusal under this section.

169 (d) (i) A person who has been requested under this section to submit to a chemical test

170 or tests of the person's breath, blood, or urine, or oral fluids may not select the test or tests to be

173 not a defense to taking a test requested by a peace officer, and it is not a defense in any
174 criminal, civil, or administrative proceeding resulting from a person's refusal to submit to the
175 requested test or tests.

176 (2) (a) A peace officer requesting a test or tests shall warn a person that refusal to
177 submit to the test or tests may result in revocation of the person's license to operate a motor
178 vehicle, a five or 10 year prohibition of driving with any measurable or detectable amount of
179 alcohol in the person's body depending on the person's prior driving history, and a three-year
180 prohibition of driving without an ignition interlock device if the person:

182 (ii) has then been requested by a peace officer to submit to any one or more of the

207 the person's own choice administer a chemical test in addition to the test or tests administered
208 at the direction of a peace officer.

209 (b) The failure or inability to obtain the additional test does not affect admissibility of
210 the results of the test or tests taken at the direction of a peace officer, or preclude or delay the
211 test or tests to be taken at the direction of a peace officer.

212 (c) The additional test shall be subsequent to the test or tests administered at the
213 direction of a peace officer.

214 (5) For the purpose of determining whether to submit to a chemical test or tests, the

473 or tests of the person's breath, blood, urine, or oral fluids may not select the test or tests to be

516 the results of the test or tests taken at the direction of a peace officer, or preclude or delay the
517 test or tests to be taken at the direction of a peace officer.

518 (c) The additional test shall be subsequent to the test or tests administered at the
519 direction of a peace officer.

520 (7) For the purpose of determining whether to submit to a chemical test or tests, the
