ENACTS:

40-8-24, Utah Code Annotated 1953

28 *Be it enacted by the Legislature of the state of Utah:*

29 Section 1. Section **40-8-24** is enacted to read:

30 **40-8-24. Brine mining.**

31 (1) As used in this section:

32 (a) "Brine" means subterranean saltwater and all of the saltwater's constituent parts and
33 dissolved minerals contained in the saltwater, including:

34 (i) bromine;

35 (ii) magnesium;

36 (iii) potassium;

37 (iv) lithium;

38 (v) boron;

39 (vi) chlorine;

40 (vii) iodine;

41 (viii) calcium;

42 (ix) strontium;

43 (x) sodium;

44 (xi) sulfur;

45 (xii) barium; or

46 (xiii) another chemical substance produced with or separated from the saltwater.

47 (b) "Brine mining operation" means, through the use of a production well not involving
48 operations on the Great Salt Lake, the exploration for, development of, or production of brine.

49 (c) "Multiple mineral development area" means an area designated by the board
50 involving the management and development of various concurrent surface and sub-surface
51 resource extraction operations, including exploratory activities, for the purpose of efficient and
52 effective development of resources in the area without unreasonable interference.

53 (2) The board, by rule made in accordance with Title 63G, Chapter 3, Utah
54 Administrative Rulemaking Act, may designate an area within the state as a multiple mineral
55 development area for purposes of brine mining operations.

56 (3) (a) The division may take an action described in Subsection (3)(b), if the division
57 finds that:

58 (i) the permit area for a notice of intention for brine mining operations is located, in

59 whole or in part, within a multiple mineral development area;

60 (ii) the proposed brine mining operation may cause potential injury to other mineral
61 deposits on the land effected within the multiple mineral development area;

62 (iii) the proposed brine mining operation may result in simultaneous or concurrent
63 brine mining operations; and

64 (iv) the operator submitting the notice of intention has not entered into a cooperative
65 agreement with the other operators operating within the multiple mineral development area if a
66 cooperative agreement is required by rule made by the board in accordance with Title 63G,
67 Chapter 3, Utah Administrative Rulemaking Act.

68 (b) If the division makes a finding under Subsection (3)(a), the division may issue an
69 order that the notice of intention is:

70 (i) deficient if the brine mining operation is a large mining operation;

71 (ii) incomplete if the brine mining operation is a small mining operation; or

72 (iii) deficient if the brine mining operation is for an exploration operation.

73 (4) (a) The board may make rules, in accordance with Title 63G, Chapter 3, Utah
74 Administrative Rulemaking Act:

75 (i) requiring operators to enter into cooperative agreements described in Subsection
76 (3)(a); and

77 (ii) requiring the terms necessary for concurrent surface and subsurface operations
78 within a multiple mineral development area.

79 (b) A cooperative agreement shall comply with the requirements imposed by rule made
80 by the board.

81 (c) The cooperative agreement shall have as signatory the division and where
82 applicable the Division of Forestry, Fire, and State Lands and the School and Institutional Trust
83 Lands Administration.

84 (5) The board may:

85 (a) adjudicate and determine multiple mineral development conflicts among brine
86 mining operations if there:

87 (i) is potential injury to other mineral deposits on the land effected; or

88 (ii) are simultaneous or concurrent operations conducted by other mineral owners or
89 lessees affecting the lands effected; and

90 (b) enter an order with respect to a conflict described in Subsection (5)(a).
91 (6) (a) The division shall study brine mining operations within the state to evaluate
92 current and potential regulation of brine mining operations, including:
93 (i) determining which state agencies have jurisdiction over some or all of the activities
94 related to brine mining operations;
95 (ii) identifying necessary safety measures;
96 (iii) addressing spacing of brine mining wells;
97 (iv) addressing multiple mineral development; and
98 (v) any other issue the division considers relevant to the regulation of brine mining
99 operations.
100 (b) In conducting the study required by this Subsection (6), the division:
101 (i) shall seek input from other state agencies, including:
102 (A) the Division of Forestry, Fire, and State Lands;
103 (B) the Division of Water Rights;
104 (C) the Department of Environmental Quality; and
105 (D) the School and Institutional Trust Lands Administration; and
106 (ii) may select a consultant in accordance with Title 63G, Chapter 6a, Utah
107 Procurement Code, to assist in the evaluation of current and potential regulation of brine
108 mining operations.
109 (c) The division shall report the results of the study, including any recommendations
110 for legislation, to the Natural Resources, Agriculture, and Environment Interim Committee on
111 or before the committee's 2024 October interim committee meeting.
112 Section 2. **Effective date.**
113 This bill takes effect on May 1, 2024.
