Sec. 3. 33 V.S.A. § 1811 is added to read:

§ 1811. HEALTH BENEFIT PLANS FOR INDIVIDUALS AND SMALL EMPLOYERS

(a) As used in this section:

(1) "Health benefit plan" means a health insurance policy, a nonprofit hospital or medical service corporation service contract, or a health maintenance organization health benefit plan offered through the Vermont health benefit exchange and issued to an individual or to an employee of a small employer. The term does not include coverage only for accident or disability income insurance, liability insurance, coverage issued as a supplement to liability insurance, workers' compensation or similar insurance, automobile medical payment insurance, credit-only insurance, coverage for on-site medical clinics, or other similar insurance coverage in which benefits for health services are secondary or incidental to other insurance benefits as provided under the Affordable Care Act. The term also does not include stand-alone dental or vision benefits; long-term care insurance; specific disease or other limited benefit coverage, Medicare supplemental health benefits, Medicare Advantage plans, and other similar benefits excluded under the Affordable Care Act.

(2) "Registered carrier" means any person, except an insurance agent, broker, appraiser, or adjuster, who issues a health benefit plan and who has a

registration in effect with the commissioner of banking, insurance, securities, and health care administration as required by this section.

(3) "Small employer" means an employer which, on at least 50 percent of its working days during the preceding calendar quarter, employs at least one and no more than 100 employees. The term includes self-employed persons. Calculation of the number of employees of a small employer shall not include a part-time employee who works fewer than 30 hours per week. An employer may continue to participate in the exchange even if the employer's size grows beyond 100 employees as long as the employer continuously makes qualified health benefit plans in the Vermont health benefit exchange available to its employees.

(b) No person may provide a health benefit plan to an individual or small employer unless the plan is offered through the Vermont health benefit exchange and complies with the provisions of this subchapter.

(c) No person may provide a health benefit plan to an individual or small employer unless such person is a registered carrier. The commissioner of banking, insurance, securities, and health care administration shall establish, by rule, the minimum financial, marketing, service and other requirements for registration. Such registration shall be effective upon approval by the commissioner and shall remain in effect until revoked or suspended by the commissioner for cause or until withdrawn by the carrier. A carrier may

withdraw its registration upon at least six months prior written notice to the commissioner. A registration filed with the commissioner shall be deemed to be approved unless it is disapproved by the commissioner within 30 days of filing.

(d) A registered carrier shall guarantee acceptance of all individuals, small employers, and employees of small employers, and each dependent of such individuals and employees, for any health benefit plan offered by the carrier.

(e) A registered carrier shall offer a health benefit plan rate structure which at least differentiates between single person, two person, and family rates.

(f)(1) A registered carrier shall use a community rating method acceptable to the commissioner of banking, insurance, securities, and health care administration for determining premiums for health benefit plans. Except as provided in subdivision (2) of this subsection, the following risk classification factors are prohibited from use in rating individuals, small employers, or employees of small employers, or the dependents of such individuals or employees:

(A) demographic rating, including age and gender rating;

(B) geographic area rating;

(C) industry rating;

(D) medical underwriting and screening;

(E) experience rating;

(F) tier rating; or

(G) durational rating.

(2)(A) The commissioner shall, by rule, adopt standards and a process for permitting registered carriers to use one or more risk classifications in their community rating method, provided that the premium charged shall not deviate above or below the community rate filed by the carrier by more than 20 percent and provided further that the commissioner's rules may not permit any medical underwriting and screening and shall give due consideration to the need for affordability and accessibility of health insurance.

(B) The commissioner's rules shall permit a carrier, including a hospital or medical service corporation and a health maintenance organization, to establish rewards, premium discounts, split benefit designs, rebates, or to otherwise waive or modify applicable co-payments, deductibles, or other cost-sharing amounts in return for adherence by a member or subscriber to programs of health promotion and disease prevention. The commissioner shall consult with the commissioner of health, the director of the Blueprint for Health, and the commissioner of Vermont health access in the development of health promotion and disease prevention rules that are consistent with the Blueprint for Health. Such rules shall:

(i) limit any reward, discount, rebate, or waiver or modification of cost-sharing amounts to not more than a total of 15 percent of the cost of the

premium for the applicable coverage tier, provided that the sum of any rate deviations under subdivision (A) of this subdivision (2) does not exceed 30 percent;

(ii) be designed to promote good health or prevent disease for individuals in the program and not be used as a subterfuge for imposing higher costs on an individual based on a health factor;

(iii) provide that the reward under the program is available to all similarly situated individuals and shall comply with the nondiscrimination provisions of the federal Health Insurance Portability and Accountability Act of 1996; and

(iv) provide a reasonable alternative standard to obtain the reward to any individual for whom it is unreasonably difficult due to a medical condition or other reasonable mitigating circumstance to satisfy the otherwise applicable standard for the discount and disclose in all plan materials that describe the discount program the availability of a reasonable alternative standard.

(C) The commissioner's rules shall include:

(i) standards and procedures for health promotion and disease prevention programs based on the best scientific, evidence-based medical practices as recommended by the commissioner of health;

(ii) standards and procedures for evaluating an individual's adherence to programs of health promotion and disease prevention; and

(iii) any other standards and procedures necessary or desirable to carry out the purposes of this subdivision (2).

(D) The commissioner may require a registered carrier to identify that percentage of a requested premium increase which is attributed to the following categories: hospital inpatient costs, hospital outpatient costs, pharmacy costs, primary care, other medical costs, administrative costs, and projected reserves or profit. Reporting of this information shall occur at the time a rate increase is sought and shall be in the manner and form directed by the commissioner. Such information shall be made available to the public in a manner that is easy to understand.

(g) A registered carrier shall file with the commissioner an annual certification by a member of the American Academy of Actuaries of the carrier's compliance with this section. The requirements for certification shall be as the commissioner prescribes by rule.

(h) A registered carrier shall provide, on forms prescribed by the commissioner, full disclosure to a small employer of all premium rates and any risk classification formulas or factors prior to acceptance of a plan by the small employer.

(i) A registered carrier shall guarantee the rates on a health benefit plan for a minimum of 12 months.

(j) The commissioner shall disapprove any rates filed by any registered carrier, whether initial or revised, for insurance policies unless the anticipated medical loss ratios for the entire period for which rates are computed are at least 80 percent, as required by the Patient Protection and Affordable Care Act (Public Law 111-148).

(k) The guaranteed acceptance provision of subsection (d) of this section shall not be construed to limit an employer's discretion in contracting with his or her employees for insurance coverage.

Sec. 4. 8 V.S.A. § 4080g is added to read:

§ 4080g. GRANDFATHERED PLANS

(a) Application. Notwithstanding the provisions of 33 V.S.A. § 1811, on and after January 1, 2014, the provisions of this section shall apply to an individual, small group, or association plan that qualifies as a grandfathered health plan under Section 1251 of the Patient Protection and Affordable Care Act (Public Law 111-148), as amended by the Health Care and Education Reconciliation Act of 2010 (Public Law 111-152) ("Affordable Care Act"). In the event that a plan no longer qualifies as a grandfathered health plan under the Affordable Care Act, the provisions of this section shall not apply and the provisions of 33 V.S.A. § 1811 shall govern the plan.

(b) Small group plans.

(1) Definitions. As used in this subsection:

(A) "Small employer" means an employer who, on at least 50 percent of its working days during the preceding calendar quarter, employs at least one and no more than 50 employees. The term includes self-employed persons. Calculation of the number of employees of a small employer shall not include a part-time employee who works fewer than 30 hours per week. The provisions of this subsection shall continue to apply until the plan anniversary date following the date that the employer no longer meets the requirements of this subdivision.

(B) "Small group" means:

(i) a small employer; or

(ii) an association, trust, or other group issued a health insurance policy subject to regulation by the commissioner under subdivisions 4079(2), (3), or (4) of this title.

(C) "Small group plan" means a group health insurance policy, a nonprofit hospital or medical service corporation service contract, or a health maintenance organization health benefit plan offered or issued to a small group, including but not limited to common health care plans approved by the commissioner under subdivision (5) of this subsection. The term does not include disability insurance policies, accident indemnity or expense policies,

long-term care insurance policies, student or athletic expense or indemnity policies, dental policies, policies that supplement the Civilian Health and Medical Program of the Uniformed Services, or Medicare supplemental policies.

(D) "Registered small group carrier" means any person except an insurance agent, broker, appraiser, or adjuster who issues a small group plan and who has a registration in effect with the commissioner as required by this subsection.

(2) No person may provide a small group plan unless the plan complies with the provisions of this subsection.

(3) No person may provide a small group plan unless such person is a registered small group carrier. The commissioner, by rule, shall establish the minimum financial, marketing, service and other requirements for registration. Such registration shall be effective upon approval by the commissioner and shall remain in effect until revoked or suspended by the commissioner for cause or until withdrawn by the carrier. A small group carrier may withdraw its registration upon at least six months prior written notice to the commissioner. A registration filed with the commissioner shall be deemed to be approved unless it is disapproved by the commissioner within 30 days of filing.

(4)(A) A registered small group carrier shall guarantee acceptance of all small groups for any small group plan offered by the carrier. A registered small group carrier shall also guarantee acceptance of all employees or members of a small group and each dependent of such employees or members for any small group plan it offers.

(B) Notwithstanding subdivision (A) of this subdivision (b)(4), a health maintenance organization shall not be required to cover:

(i) a small employer which is not physically located in the health maintenance organization's approved service area; or

(ii) a small employer or an employee or member of the small group located or residing within the health maintenance organization's approved service area for which the health maintenance organization:

(I) is not providing coverage; and

(II) reasonably anticipates and demonstrates to the satisfaction of the commissioner that it will not have the capacity within its network of providers to deliver adequate service because of its existing group contract obligations, including contract obligations subject to the provisions of this subsection and any other group contract obligations.

(5) A registered small group carrier shall offer one or more common health care plans approved by the commissioner. The commissioner, by rule, shall adopt standards and a process for approval of common health care plans

that ensure that consumers may compare the costs of plans offered by carriers and that ensure the development of an affordable common health care plan, providing for deductibles, coinsurance arrangements, managed care, cost containment provisions, and any other term, not inconsistent with the provisions of this title, deemed useful in making the plan affordable. A health maintenance organization may add limitations to a common health care plan if the commissioner finds that the limitations do not unreasonably restrict the insured from access to the benefits covered by the plans.

(6) A registered small group carrier shall offer a small group plan rate structure which at least differentiates between single person, two person and family rates.

(7)(A) A registered small group carrier shall use a community rating method acceptable to the commissioner for determining premiums for small group plans. Except as provided in subdivision (B) of this subdivision (7), the following risk classification factors are prohibited from use in rating small groups, employees or members of such groups, and dependents of such employees or members:

(i) demographic rating, including age and gender rating;

(ii) geographic area rating;

(iii) industry rating;

(iv) medical underwriting and screening;

(v) experience rating;

(vi) tier rating; or

(vii) durational rating.

(B)(i) The commissioner shall, by rule, adopt standards and a process for permitting registered small group carriers to use one or more risk classifications in their community rating method, provided that the premium charged shall not deviate above or below the community rate filed by the carrier by more than 20 percent and provided further that the commissioner's rules may not permit any medical underwriting and screening.

(ii) The commissioner's rules shall permit a carrier, including a hospital or medical service corporation and a health maintenance organization, to establish rewards, premium discounts, split benefit designs, rebates, or otherwise waive or modify applicable co-payments, deductibles, or other cost-sharing amounts in return for adherence by a member or subscriber to programs of health promotion and disease prevention. The commissioner shall consult with the commissioner of health, the director of the Blueprint for Health, and the commissioner of Vermont health access in the development of health promotion and disease prevention rules that are consistent with the Blueprint for Health. Such rules shall:

(I) limit any reward, discount, rebate, or waiver or modification of cost-sharing amounts to not more than a total of 15 percent of the cost of the

premium for the applicable coverage tier, provided that the sum of any rate deviations under subdivision (i) of this subdivision (77)(B) does not exceed 30 percent;

(II) be designed to promote good health or prevent disease for individuals in the program and not be used as a subterfuge for imposing higher costs on an individual based on a health factor;

(III) provide that the reward under the program is available to all similarly situated individuals and complies with the nondiscrimination provisions of the federal Health Insurance Portability and Accountability Act of 1996; and

(IV) provide a reasonable alternative standard to obtain the reward to any individual for whom it is unreasonably difficult due to a medical condition or other reasonable mitigating circumstance to satisfy the otherwise applicable standard for the discount and disclose in all plan materials that describe the discount program the availability of a reasonable alternative standard.

(iii) The commissioner's rules shall include:

(I) standards and procedures for health promotion and disease prevention programs based on the best scientific, evidence-based medical practices as recommended by the commissioner of health;

(II) standards and procedures for evaluating an individual's adherence to programs of health promotion and disease prevention; and

(III) any other standards and procedures necessary or desirable to carry out the purposes of this subdivision (7)(B).

(C) The commissioner may require a registered small group carrier to identify that percentage of a requested premium increase which is attributed to the following categories: hospital inpatient costs, hospital outpatient costs, pharmacy costs, primary care, other medical costs, administrative costs, and projected reserves or profit. Reporting of this information shall occur at the time a rate increase is sought and shall be in the manner and form as directed by the commissioner. Such information shall be made available to the public in a manner that is easy to understand.

(D) The commissioner may exempt from the requirements of this subsection an association as defined in subdivision 4079(2) of this title which:

(i) offers a small group plan to a member small employer which is community rated in accordance with the provisions of subdivisions (A) and (B) of this subdivision (b)(7). The plan may include risk classifications in accordance with subdivision (B) of this subdivision (7);

(ii) offers a small group plan that guarantees acceptance of all persons within the association and their dependents; and

(iii) offers one or more of the common health care plans approved by the commissioner under subdivision (5) of this subsection.

(E) The commissioner may revoke or deny the exemption set forth in subdivision (D) of this subdivision (7) if the commissioner determines that:

(i) because of the nature, size, or other characteristics of the association and its members, the employees or members are in need of the protections provided by this subsection; or

(ii) the association exemption has or would have a substantial adverse effect on the small group market.

(8) A registered small group carrier shall file with the commissioner an annual certification by a member of the American Academy of Actuaries of the carrier's compliance with this subsection. The requirements for certification shall be as the commissioner by rule prescribes.

(9) A registered small group carrier shall provide, on forms prescribed by the commissioner, full disclosure to a small group of all premium rates and any risk classification formulas or factors prior to acceptance of a small group plan by the group.

(10) A registered small group carrier shall guarantee the rates on a small group plan for a minimum of six months.

(11)(A) A registered small group carrier may require that 75 percent or less of the employees or members of a small group with more than 10

employees participate in the carrier's plan. A registered small group carrier may require that 50 percent or less of the employees or members of a small group with 10 or fewer employees or members participate in the carrier's plan. A small group carrier's rules established pursuant to this subsection shall be applied to all small groups participating in the carrier's plans in a consistent and nondiscriminatory manner.

(B) For purposes of the requirements set forth in subdivision (A) of this subdivision (11), a registered small group carrier shall not include in its calculation an employee or member who is already covered by another group health benefit plan as a spouse or dependent or who is enrolled in Catamount Health, Medicaid, the Vermont health access plan, or Medicare. Employees or members of a small group who are enrolled in the employer's plan and receiving premium assistance under 33 V.S.A. chapter 19 shall be considered to be participating in the plan for purposes of this subsection. If the small group is an association, trust, or other substantially similar group, the participation requirements shall be calculated on an employer-by-employer basis.

(C) A small group carrier may not require recertification of compliance with the participation requirements set forth in this subdivision (11) more often than annually at the time of renewal. If, during the recertification process, a small group is found not to be in compliance with the

participation requirements, the small group shall have 120 days to become compliant prior to termination of the plan.

(12) This subsection shall apply to the provisions of small group plans. This subsection shall not be construed to prevent any person from issuing or obtaining a bona fide individual health insurance policy; provided that no person may offer a health benefit plan or insurance policy to individual employees or members of a small group as a means of circumventing the requirements of this subsection. The commissioner shall adopt, by rule, standards and a process to carry out the provisions of this subsection.

(13) The guaranteed acceptance provision of subdivision (4) of this subsection shall not be construed to limit an employer's discretion in contracting with his or her employees for insurance coverage.

(14) Registered small group carriers, except nonprofit medical and hospital service organizations and nonprofit health maintenance organizations, shall form a reinsurance pool for the purpose of reinsuring small group risks. This pool shall not become operative until the commissioner has approved a plan of operation. The commissioner shall not approve any plan which he or she determines may be inconsistent with any other provision of this subsection. Failure or delay in the formation of a reinsurance pool under this subsection shall not delay implementation of this subdivision. The participants in the plan of operation of the pool shall guarantee, without limitation, the solvency of the

pool, and such guarantee shall constitute a permanent financial obligation of each participant, on a pro rata basis.

(c) Nongroup health benefit plans.

(1) Definitions. As used in this subsection:

(A) "Individual" means a person who is not eligible for coverage by group health insurance as defined by section 4079 of this title.

(B) "Nongroup plan" means a health insurance policy, a nonprofit hospital or medical service corporation service contract, or a health maintenance organization health benefit plan offered or issued to an individual, including but not limited to common health care plans approved by the commissioner under subdivision (5) of this subsection. The term does not include disability insurance policies, accident indemnity or expense policies, long-term care insurance policies, student or athletic expense or indemnity policies, Medicare supplemental policies, and dental policies. The term also does not include hospital indemnity policies or specified disease indemnity or expense policies, provided such policies are sold only as supplemental coverage when a common health care plan or other comprehensive health care policy is in effect.

(C) "Registered nongroup carrier" means any person, except an insurance agent, broker, appraiser, or adjuster, who issues a nongroup plan and

who has a registration in effect with the commissioner as required by this subsection.

(2) No person may provide a nongroup plan unless the plan complies with the provisions of this subsection.

(3) No person may provide a nongroup plan unless such person is a registered nongroup carrier. The commissioner, by rule, shall establish the minimum financial, marketing, service, and other requirements for registration. Registration under this subsection shall be effective upon approval by the commissioner and shall remain in effect until revoked or suspended by the commissioner for cause or until withdrawn by the carrier. A nongroup carrier may withdraw its registration upon at least six months' prior written notice to the commissioner. A registration filed with the commissioner shall be deemed to be approved unless it is disapproved by the commissioner within 30 days of filing.

(4)(A) A registered nongroup carrier shall guarantee acceptance of any individual for any nongroup plan offered by the carrier. A registered nongroup carrier shall also guarantee acceptance of each dependent of such individual for any nongroup plan it offers.

(B) Notwithstanding subdivision (A) of this subdivision, a health maintenance organization shall not be required to cover:

(i) an individual who is not physically located in the health maintenance organization's approved service area; or

(ii) an individual residing within the health maintenance organization's approved service area for which the health maintenance organization:

(I) is not providing coverage; and

(II) reasonably anticipates and demonstrates to the satisfaction of the commissioner that it will not have the capacity within its network of providers to deliver adequate service because of its existing contract obligations, including contract obligations subject to the provisions of this subsection and any other group contract obligations.

(5) A registered nongroup carrier shall offer two or more common health care plans approved by the commissioner. The commissioner, by rule, shall adopt standards and a process for approval of common health care plans that ensure that consumers may compare the cost of plans offered by carriers. At least one plan shall be a low-cost common health care plan that may provide for deductibles, coinsurance arrangements, managed care, cost-containment provisions, and any other term not inconsistent with the provisions of this title that are deemed useful in making the plan affordable. A health maintenance organization may add limitations to a common health care

plan if the commissioner finds that the limitations do not unreasonably restrict the insured from access to the benefits covered by the plan.

(6) A registered nongroup carrier shall offer a nongroup plan rate structure which at least differentiates between single-person, two-person and family rates.

(7) For a 12-month period from the effective date of coverage, a registered nongroup carrier may limit coverage of preexisting conditions which exist during the 12-month period before the effective date of coverage; provided that a registered nongroup carrier shall waive any preexisting condition provisions for all individuals and their dependents who produce evidence of continuous health benefit coverage during the previous nine months substantially equivalent to the carrier's common health care plan approved by the commissioner. If an individual has a preexisting condition excluded under a subsequent policy, such exclusion shall not continue longer than the period required under the original contract or 12 months, whichever is less. Credit shall be given for prior coverage that occurred without a break in coverage of 63 days or more. For an eligible individual as such term is defined in Section 2741 of Title XXVII of the Public Health Service Act, a registered nongroup carrier shall not limit coverage of preexisting conditions.

(8)(A) A registered nongroup carrier shall use a community rating method acceptable to the commissioner for determining premiums for

nongroup plans. Except as provided in subdivision (B) of this subsection, the following risk classification factors are prohibited from use in rating individuals and their dependents:

(i) demographic rating, including age and gender rating;

(ii) geographic area rating;

(iii) industry rating;

(iv) medical underwriting and screening;

(v) experience rating;

(vi) tier rating; or

(vii) durational rating.

(B)(i) The commissioner shall, by rule, adopt standards and a process for permitting registered nongroup carriers to use one or more risk classifications in their community rating method, provided that the premium charged shall not deviate above or below the community rate filed by the carrier by more than 20 percent and provided further that the commissioner's rules may not permit any medical underwriting and screening and shall give due consideration to the need for affordability and accessibility of health insurance.

(ii) The commissioner's rules shall permit a carrier, including a hospital or medical service corporation and a health maintenance organization, to establish rewards, premium discounts, and rebates or to otherwise waive or

modify applicable co-payments, deductibles, or other cost-sharing amounts in return for adherence by a member or subscriber to programs of health promotion and disease prevention. The commissioner shall consult with the commissioner of health and the commissioner of Vermont health access in the development of health promotion and disease prevention rules. Such rules shall:

(I) limit any reward, discount, rebate, or waiver or modification of cost-sharing amounts to not more than a total of 15 percent of the cost of the premium for the applicable coverage tier, provided that the sum of any rate deviations under subdivision (B)(i) of this subdivision (8) does not exceed 30 percent;

(II) be designed to promote good health or prevent disease for individuals in the program and not be used as a subterfuge for imposing higher costs on an individual based on a health factor;

(III) provide that the reward under the program is available to all similarly situated individuals; and

(IV) provide a reasonable alternative standard to obtain the reward to any individual for whom it is unreasonably difficult due to a medical condition or other reasonable mitigating circumstance to satisfy the otherwise applicable standard for the discount and disclose in all plan materials that

describe the discount program the availability of a reasonable alternative standard.

(iii) The commissioner's rules shall include:

(I) standards and procedures for health promotion and disease prevention programs based on the best scientific, evidence-based medical practices as recommended by the commissioner of health;

(II) standards and procedures for evaluating an individual's adherence to programs of health promotion and disease prevention; and

(III) any other standards and procedures necessary or desirable to carry out the purposes of this subdivision (8)(B).

(iv) The commissioner may require a registered nongroup carrier to identify that percentage of a requested premium increase which is attributed to the following categories: hospital inpatient costs, hospital outpatient costs, pharmacy costs, primary care, other medical costs, administrative costs, and projected reserves or profit. Reporting of this information shall occur at the time a rate increase is sought and shall be in the manner and form directed by the commissioner. Such information shall be made available to the public in a manner that is easy to understand.

(9) Notwithstanding subdivision (8)(B) of this subsection, the commissioner shall not grant rate increases, including increases for medical inflation, for individuals covered pursuant to the provisions of this subsection

that exceed 20 percent in any one year; provided that the commissioner may grant an increase that exceeds 20 percent if the commissioner determines that the 20 percent limitation will have a substantial adverse effect on the financial safety and soundness of the insurer. In the event that this limitation prevents implementation of community rating to the full extent provided for in subdivision (8) of this subsection, the commissioner may permit insurers to correspondingly limit community rating provisions from applying to individuals who would otherwise be entitled to rate reductions.

(10) A registered nongroup carrier shall file with the commissioner an annual certification by a member of the American Academy of Actuaries of the carrier's compliance with this subsection. The requirements for certification shall be as the commissioner by rule prescribes.

(11) A registered nongroup carrier shall guarantee the rates on a nongroup plan for a minimum of 12 months.

(12) Registered nongroup carriers, except nonprofit medical and hospital service organizations and nonprofit health maintenance organizations, shall form a reinsurance pool for the purpose of reinsuring nongroup risks. This pool shall not become operative until the commissioner has approved a plan of operation. The commissioner shall not approve any plan which he or she determines may be inconsistent with any other provision of this subsection. Failure or delay in the formation of a reinsurance pool under this subsection

shall not delay implementation of this subdivision. The participants in the plan of operation of the pool shall guarantee, without limitation, the solvency of the pool, and such guarantee shall constitute a permanent financial obligation of each participant, on a pro rata basis.

(13) The commissioner shall disapprove any rates filed by any registered nongroup carrier, whether initial or revised, for nongroup insurance policies unless the anticipated loss ratios for the entire period for which rates are computed are at least 70 percent. For the purpose of this subdivision, "anticipated loss ratio" shall mean a comparison of earned premiums to losses incurred plus a factor for industry trend where the methodology for calculating trend shall be determined by the commissioner by rule.
