3 "PART 1

4 **TRUTH IN LABELING**

5 NEW SECTION. **Sec. 101.** TRUTH IN LABELING. (1) Beginning January
6 1, 2027, a producer may not offer for sale, sell, or distribute in or
7 into Washington, including by means of remote sale, any covered
8 product that makes a deceptive or misleading claim about its
9 recyclability.

10 (a) A product or packaging that displays a chasing arrows symbol,
11 a chasing arrows symbol surrounding a resin identification code, or
12 any other symbol or statement indicating that it is recyclable or
13 otherwise directing the consumer to recycle the product or packaging,
14 is deemed to be a deceptive or misleading claim under this section
15 unless the product or packaging is considered recyclable in the state
16 under section 103 of this act and is of a material type and form that
17 routinely becomes feedstock used in the production of new products or
18 packaging or is exempt under (b) of this subsection.

19 (b) (a) of this subsection does not apply to products or
20 packaging:

21 (i) For which a symbol or statement described in (a) of this
22 subsection is required by another state or by a federal law or agency
23 in the United States at the time that the claim is made;

24 (ii) For which a symbol or statement described in (a) of this
25 subsection is part of a widely adopted and standardized third-party
26 labeling system;

27 (iii) For which a chasing arrows symbol is used in combination
28 with a clearly visible line placed at a 45-degree angle over the
29 chasing arrows symbol to convey that an item is not recyclable;

30 (iv) Manufactured up to 18 months after the date the department
31 publishes the first material characterization study required under

1 section 102 of this act, or before January 1, 2027, whichever is
2 later; or

3 (v) Any product or packaging manufactured up to 18 months after
4 the date the department updates the material characterization study
5 under section 102 of this act, if the product or packaging satisfied
6 or, for a new product or packaging, would have satisfied, the
7 requirements to be considered recyclable in the state under section
8 103 of this act before the publication of the updated study.

9 (c) For a product or packaging that is not considered to be
10 recyclable in the state under section 103 of this act, all the
11 following apply:

12 (i) Displaying a chasing arrows symbol or any other statement
13 indicating the product is recyclable directly on the product is
14 deemed to be deceptive or misleading under this section;

15 (ii) If a product or packaging has multiple material types, a
16 chasing arrows symbol or statement indicating recyclability may be
17 displayed on the external packaging that is considered to be
18 recyclable in the state under section 103 of this act if the chasing
19 arrows symbol or statement makes clear in the same or greater font,
20 font size, or symbol size which other components of the product or
21 packaging are not recyclable; and

22 (iii) Displaying a chasing arrows symbol or any other statement
23 indicating recyclability on packaging containing a consumable product
24 shall, for purposes of this section, be deemed to refer only to the
25 packaging.

26 (2) At such time as an enforceable federal statutory or
27 regulatory standard is implemented for labeling packaging related to
28 recyclability, within 180 days the department shall review criteria
29 under this chapter with federal standards or requirements. Upon
30 completing its review, the department may adopt the federal criteria
31 in lieu of the requirements of this section.

32 (3) Beginning August 1, 2023, a city, town, or county may not
33 enact an ordinance restricting the distribution or sale of covered
34 products due to displaying a chasing arrows symbol, a chasing arrows
35 symbol surrounding a resin identification code, or any other symbol
36 or statement indicating that it is recyclable if the covered product
37 is, at the time that the claim is made:

38 (a) Designated for collection in a producer responsibility
39 organization plan approved by the department;

1 (b) Required to display the symbol or statement by another state
2 or by a federal law or agency;

3 (c) Part of a widely adopted and standardized third-party
4 labeling system; or

5 (d) Using a chasing arrows symbol in combination with a clearly
6 visible line placed at a 45-degree angle over the chasing arrows
7 symbol to convey that an item is not recyclable.

8 (4) The definitions in this subsection apply throughout this
9 section unless the context clearly requires otherwise.

10 (a)(i) "Chasing arrows symbol" means an equilateral triangle,
11 formed by three arrows curved at their midpoints, depicting a
12 clockwise path, with a short gap separating the apex of each arrow
13 from the base of the adjacent arrow.

14 (ii) "Chasing arrows symbol" also includes variants of that
15 symbol that are likely to be interpreted by a consumer as an
16 implication of recyclability including, but not limited to, one or
17 more arrows arranged in a circular pattern or around a globe.

18 (b) "Consumable product" means a commodity that is intended to be
19 used and not disposed of.

20 (c) "Packaging" is to be broadly construed and includes secondary
21 and tertiary packaging and may be comprised of any material type.

22 NEW SECTION. **Sec. 102.** MATERIAL CHARACTERIZATION STUDY. (1) By
23 January 1, 2026, the department shall produce a material
24 characterization study to provide information to the public
25 sufficient for evaluating whether a product or packaging is
26 recyclable in the state according to the criteria set forth in
27 section 103 of this act and are of material types and forms that
28 routinely become feedstock used in the production of new products or
29 packaging.

30 (a) The department shall conduct and publish on its website a
31 characterization study of material types and forms that are
32 collected, sorted, sold, or transferred by facilities that process
33 recyclable materials from curbside recycling programs and other solid
34 waste facilities deemed appropriate by the department for inclusion
35 in the study.

36 (b) The material characterization study must:

37 (i) Use data from statistically valid and representative samples
38 of materials collected from curbside recycling programs in the state
39 analyzed using industry standard methodologies;

1 (ii) Identify what material types and forms are actively sorted
2 for recycling, and not considered contaminants, by included
3 operations or facilities;

4 (iii) Identify what material types and forms are not sorted for
5 recycling, and are considered contaminants, by included operations or
6 facilities; and

7 (iv) Identify how the material collected or processed by the
8 operations and facilities was collected.

9 (2) The department shall update the material characterization
10 study required under this section no less often than every five
11 years, with the first update being issued by the department in 2029.

12 (3) For each material characterization study conducted under this
13 section, the department shall publish on its website the preliminary
14 findings of the study and conduct a public meeting to present the
15 preliminary findings and receive public comments. The public meeting
16 must occur at least 30 days after the department publishes the
17 preliminary findings. After receiving and considering public
18 comments, and within 90 days of the public meeting, the department
19 shall finalize and publish on its website the findings of the study.

20 (4) The department may publish additional information that was
21 not available at the time of the most recent periodic material
22 characterization study regarding the appropriate characterization of
23 material types and forms.

24 NEW SECTION. **Sec. 103.** RECYCLABILITY DETERMINATIONS. (1)(a) A
25 product or packaging is considered recyclable in the state if, based
26 on information published by the department under section 102 of this
27 act, the product or packaging is of a material type and form that
28 meets both of the following requirements:

29 (i) The material type and form is collected for recycling by
30 recycling programs for jurisdictions that collectively encompass at
31 least 60 percent of the population of the state; and

32 (ii) The material type and form are sorted into defined streams
33 for recycling processes by large volume transfer or processing
34 facilities, as provided in chapter 70A.205 RCW, that process
35 materials and collectively serve at least 60 percent of recycling
36 programs statewide, with the defined streams sent to and reclaimed at
37 a reclaiming facility consistent with the requirements of chapter
38 70A.205 RCW.

1 (b) The department may adopt rules modifying the requirement to
2 encompass transfer or processing facilities other than large volume
3 transfer or processing facilities as the department deems appropriate
4 for achieving the purposes of this section.

5 (2) A product or packaging is not considered recyclable in the
6 state unless the product or packaging meets all the following
7 criteria, as applicable:

8 (a) For plastic packaging, the plastic packaging is designed to
9 not include any components, inks, adhesives, or labels that prevent
10 the recyclability of the packaging according to the association of
11 plastic recyclers design guide published by the association of
12 plastic recyclers; and

13 (b) For plastic products and nonplastic products and packaging,
14 the product or packaging is designed to ensure recyclability and does
15 not include any components, inks, adhesives, or labels that prevent
16 the recyclability of the product or packaging.

17 (3) A product or packaging is recyclable in the state if the
18 product or packaging has a demonstrated recycling rate of at least 75
19 percent, meaning that not less than 75 percent of the product or
20 packaging sorted and aggregated in the state is reprocessed into new
21 products or packaging.

22 (4) Before January 1, 2032, a product or packaging not collected
23 under a curbside collection program is recyclable in the state if the
24 noncurbside collection program recovers at least 60 percent of the
25 product or packaging in the program and the material has sufficient
26 commercial value to be marketed for recycling and be transported at
27 the end of its useful life to a transfer, processing, or recycling
28 facility to be sorted and aggregated into defined streams by material
29 type and form.

30 (5) After January 1, 2032, a product or packaging not collected
31 under a curbside collection program is recyclable in the state if the
32 noncurbside collection program recovers at least 75 percent of the
33 product or packaging in the program and the material has sufficient
34 commercial value to be marketed for recycling and be transported at
35 the end of its useful life to a transfer, processing, or recycling
36 facility to be sorted and aggregated into defined streams by material
37 type and form.

38 (6) A product or packaging is recyclable in the state if the
39 product or packaging is part of, and in compliance with, a program
40 established under state or federal law on or after January 1, 2025,

1 governing the recyclability or disposal of that product or packaging
2 if the director of the department determines that the product or
3 packaging will not increase contamination of curbside recycling or
4 deceive consumers as to the recyclability of the product or
5 packaging.

6 (7) The information published by the department under section 102
7 of this act does not limit the discretion of a local government under
8 existing law to decide whether, and to what extent, a material type
9 or form is accepted by a local recycling program.

11 **ESTABLISHING POSTCONSUMER RECYCLED CONTENT**
12 **REQUIREMENTS**

13 NEW SECTION. **Sec. 201.** ROLL CARTS. (1) Beginning January 1,
14 2024, a manufacturer or person may only sell, offer for sale, or
15 distribute for use in Washington plastic collection bins made from at
16 least 25 percent postconsumer recycled content, including at least 10
17 percent derived from curbside recycling programs. However, a person
18 providing solid waste collection services may distribute for use in
19 Washington any plastic collection bins that were in use or in its
20 inventory in Washington state prior to January 1, 2024, until the end
21 of such a bin's useful life.

22 (2) A person with an existing municipal contract for plastic
23 collection bins that was in place prior to August 1, 2023, is exempt
24 from this section until the expiration or renewal date of the
25 contract. A new or renewed contract whose terms take effect after
26 August 1, 2023, must be consistent with the requirements of this
27 section. Exempt persons are encouraged to meet the requirements of
28 this section as collection bins are replaced under existing
29 contracts.

31 that sell, offer for sale, distribute, or provide collection bins in
32 Washington must provide written evidence or certification, upon
33 request, to the department or any municipality, retailer, stewardship
34 organization, solid waste collection company, or other purchaser of
35 collection bins showing that their collection bins meet the
36 requirements of this section.

37 (4) For the purposes of this section, "plastic collection bins"
38 include plastic bins, cans, carts, toters, roll carts, or other

1 receptacles used to collect recyclables, compostable materials, or
2 garbage used by solid waste collection services.

3 NEW SECTION. **Sec. 202.** DE MINIMIS PRODUCERS. (1) For purposes
4 of determining whether a producer is a de minimis producer, the
5 weight and revenue definitional thresholds must be calculated at the
6 level of the entity associated with the covered product.

7 (2) The exemptions under this chapter for de minimis producers do
8 not apply to an entity that has agreed to accept responsibility for
9 compliance with the requirements of this chapter for a covered
10 product on the behalf of another producer.

11 (3)(a) De minimis producers are not required to meet annual
12 registration, reporting, postconsumer recycled content, or fee
13 requirements of covered products under this chapter.

14 (b) De minimis producers must annually notify the department, in
15 a form and manner specified by the department, to demonstrate that
16 the producer is a de minimis producer.

17 (4) The department may require that a producer submit information
18 necessary to verify whether a producer qualifies for de minimis
19 status, including:

20 (a) Annual global gross revenue dollar amount less than or equal
21 to \$5,000,000;

22 (b) Annual total resin weight less than or equal to one ton; and

35 content percentages for the year under review required pursuant to
36 (~~subsection (4), (5), or (6) of this section~~) sections 203 through
37 209 of this act.

38 (ii) For plastic household cleaning product containers and
39 personal care product containers, the department may not adjust the
40 minimum postconsumer recycled content requirements above the minimum

1 postconsumer recycled content percentages for the year under review
2 required pursuant to (~~subsection (5) of this~~) section 204 of this
3 act or below a minimum of 10 percent.

4 (iii) For plastic trash bags, the department may not adjust the
5 minimum postconsumer recycled content requirements above the minimum
6 postconsumer recycled content percentages for the year under review
7 required pursuant to (~~subsection (6) of this~~) section 205 of this
8 act or below the minimum percentage required in (~~subsection (6) (a)~~
9 ~~of this~~) section 205(1) of this act.

11 product may appeal a decision by the department to adjust
12 postconsumer recycled content percentages under (a) of this
13 subsection or to temporarily exclude covered products from minimum
14 postconsumer recycled content requirements under subsection (~~(+8)~~)
15 (5) of this section to the pollution control hearings board within 30
16 days of the department's determination.

17 (~~(+8)~~) (5) The department must temporarily exclude from minimum
18 postconsumer recycled content requirements for the upcoming year any
19 types of covered products in plastic containers for which a producer
20 annually demonstrates to the department by (~~December 31st~~) June 1st
21 of a given year that the achievement of postconsumer recycled content
22 requirements in the container material is not technically feasible in
23 order to comply with health or safety requirements of federal law,
24 including the federal laws specified in subsection (~~(+7)~~) (4) (b) (v)
25 of this section. A producer must continue to register and report
26 consistent with the requirements of this chapter for covered products
27 temporarily excluded from minimum postconsumer recycled content
28 requirements under this subsection.

29 (~~(+9)~~) (6) A producer that does not achieve the postconsumer

35 requirements established in this section.

36 (b) A city, town, county, or municipal corporation may establish
37 local purchasing requirements that include recycled content standards
38 that exceed the minimum recycled content requirements established by
39 this chapter for plastic household cleaning product containers and

1 personal care product containers or plastic trash bags purchased by a
2 city, town, or municipal corporation, or its contractor.

9 read as follows:

10 (1)(a) A producer that does not meet the minimum postconsumer
11 recycled content requirements pursuant to (~~RCW 70A.245.020~~) this
12 chapter is subject to a penalty pursuant to this section. Beginning
13 June 1st of the year following the first year that minimum
14 postconsumer recycled product content requirements apply to a
15 category of covered product, the penalty must be calculated
16 consistent with subsection (2) of this section unless a penalty
17 reduction or corrective action plan has been approved pursuant to
18 subsection (3) of this section.

19 (b) A producer that is assessed a penalty pursuant to this
20 section may pay the penalty to the department in one payment, in
21 quarterly installments, or arrange an alternative payment schedule
22 subject to the approval of the department, not to exceed a 12-month
23 payment schedule unless the department determines an extension is
24 needed due to unforeseen circumstances, such as a public health
25 emergency, state of emergency, or natural disaster.

26 (2) Beginning (~~June~~) October 1st of the year following the
27 first year that minimum postconsumer recycled product content
28 requirements apply to a category of covered product, and annually
29 thereafter, the department shall determine the penalty for the
30 previous calendar year based on the postconsumer recycled content
31 requirement of the previous calendar year. The department shall
32 calculate the amount of the penalty based upon the amounts in pounds
33 in the aggregate of virgin plastic, postconsumer recycled content
34 plastic, and any other plastic per category used by the producer to
35 produce covered products sold or offered for sale in or into
36 Washington state, in accordance with the following:

37 (a)(i) The annual penalty amount assessed to a producer must
38 equal the product of both of the following: The total pounds of
39 plastic used per category multiplied by the relevant minimum

1 postconsumer recycled plastic target percentage, less the pounds of
2 total plastic multiplied by the percent of postconsumer recycled
3 plastic used; multiplied by 20 cents.

4 (ii) Example: [(Total pounds of plastic used x minimum
5 postconsumer recycled plastic target percentage) - (Total pounds of
6 plastic used x postconsumer recycled plastic percentage used)] x 20
7 cents.

8 (b) For the purposes of (a) of this subsection, both of the
9 following apply:

10 (i) The total pounds of plastic used must equal the sum of the
11 amount of virgin plastic, postconsumer recycled content plastic, and
12 any other plastic used by the producer, as reported pursuant to RCW
13 70A.245.030.

14 (ii) If the product calculated pursuant to (a) of this subsection
15 is equal to or less than zero, the department may not assess a
16 penalty.

17 (3) (a) (i) The department shall consider granting a reduction of
18 penalties assessed pursuant to this section for the purpose of
19 meeting the minimum postconsumer recycled content requirements
20 required pursuant to RCW 70A.245.020.

21 (ii) In determining whether to grant the reduction pursuant to
22 (a) (i) of this subsection, the department shall consider, at a
23 minimum, all of the following factors:

24 (A) Anomalous market conditions;

25 (B) Disruption in, or lack of supply of, recycled plastics; and

26 (C) Other factors that have prevented a producer from meeting the
27 requirements.

28 (b) In lieu of or in addition to assessing a penalty under this
29 section, the department may require a producer to submit a corrective
30 action plan detailing how the producer plans to come into compliance
31 with ((RCW 70A.245.020)) the minimum postconsumer recycled content
32 requirements of this chapter.

33 (4) For the purposes of determining compliance with the
34 postconsumer recycled content requirements of this chapter, the
35 department may consider the date of manufacture of a covered product
36 or the container of a covered product.

37 (5) A producer shall pay the penalty assessed pursuant to this
38 section, as applicable, based on the information reported to the
39 department as required under RCW 70A.245.030 in the form and manner
40 prescribed by the department.

1 (6) A producer may appeal the penalty assessed under this section
2 to the pollution control hearings board within 30 days of assessment.

4 the recycling enhancement account created in RCW 70A.245.100.

14 that the plastic trash bag contains; or

15 (b) A uniform resource locator or quick response code to an
16 internet website that contains the information required pursuant to
17 (a) of this subsection.

18 (2)(a) The provisions of subsection (1) of this section do not

20 store, or transport dangerous waste or biomedical waste.
