By Representative Santos

1 Strike everything after the enacting clause and insert the
2 following:

3 "NEW SECTION. **Sec. 1.** (1)(a)(i) The legislature finds that the
4 federal individuals with disabilities education act, Title 20 U.S.C.
5 Sec. 1400 et seq., establishes duties for the state education agency,
6 which is the office of the superintendent of public instruction in
7 Washington, with respect to students with disabilities who are placed
8 in a private school or facility by a school district or other public
9 agency as a means of providing special education and related
10 services.

11 (ii) Since 2006, the federal implementing regulations of the
12 federal individuals with disabilities education act have required
13 that the office of the superintendent of public instruction ensure
14 that a student with a disability who is placed in a private school or
15 facility by a school district or other public agency:

16 (A) Is provided special education and related services in
17 conformance with an individualized education program that meets the
18 requirements of federal law and at no cost to the student's parents;

19 (B) Is provided an education that meets the standards that apply
20 to education provided by a school district or other public agency;
21 and

22 (C) Has all of the rights of a student with a disability who is
23 served by a school district or other public agency.

24 (iii) Since 2006, the federal implementing regulations of the
25 federal individuals with disabilities education act have required
26 that the office of the superintendent of public instruction, in
27 implementing the requirements described in (a)(ii) of this
28 subsection:

29 (A) Monitor compliance through procedures such as written
30 reports, on-site visits, and parent questionnaires;

31 (B) Disseminate copies of applicable standards to each private
32 school and facility to which a school district or other public agency
33 has placed a student with a disability; and

1 (C) Provide an opportunity for those private schools and
2 facilities to participate in the development and revision of state
3 standards that apply to them.

4 (iv) The federal implementing regulations of the federal
5 individuals with disabilities education act require the state to
6 monitor implementation of the individuals with disabilities education
7 act to improve educational results and functional outcomes for all
8 students with disabilities. The state must use indicators to measure
9 school district performance, identify areas of noncompliance, and use
10 appropriate enforcement mechanisms, such as technical assistance,
11 corrective action, or withholding funds.

12 (b) The legislature acknowledges that it has not codified the
13 federal requirements. Therefore, the legislature intends to codify
14 the duty and authority of the superintendent of public instruction to
15 establish standards for authorizing, monitoring, and investigating
16 private schools approved by the state board of education under RCW
17 28A.305.130, other private in-state entities, and any out-of-state
18 entities, that contract with school districts to provide special
19 education and related services to students with disabilities. The
20 legislature also intends to codify the requirement that these
21 standards must ensure that any students with disabilities placed in
22 the authorized entities by school districts have the same rights,
23 protections, and access to special education and related services
24 that they would have if served by school districts.

25 (2) (a) (i) The federal implementing regulations of the federal
26 individuals with disabilities education act specify that, when a
27 school district or other public agency has placed a student with
28 disabilities in a private school or facility, responsibility for
29 compliance with the federal individuals with disabilities education
30 act remains with the school district or other public agency and with
31 the office of the superintendent of public instruction.

32 (ii) State statute permits school districts to contract with
33 entities authorized by the office of the superintendent of public
34 instruction to operate special education programs for students with
35 disabilities and specifies that the approval standards must conform
36 substantially to those of special education programs in the school
37 districts.

38 (iii) Rules of the office of the superintendent of public
39 instruction specify the minimum elements of the written contract that
40 must be made between a school district and an authorized entity. In

1 addition, these rules specify that the school district remains
2 responsible for ensuring that any student placed in an authorized
3 entity is provided a free appropriate public education in conformance
4 with the individualized education program developed by the school
5 district.

6 (b) The legislature intends to codify the responsibilities of
7 school districts placing students with disabilities in authorized
8 entities, including specifying minimum contract and parent
9 notification requirements.

10 (3) In addition, the legislature intends to ensure accountability
11 is properly exercised and shared by directing the state auditor to
12 conduct a performance audit of the system for overseeing the
13 authorized entities that provide special education services to
14 students with disabilities, as well as requiring school districts
15 contracting with these authorized entities to report concerns about
16 education overbilling to the office of the superintendent of public
17 instruction and the office of the state auditor.

18 **Sec. 2.** RCW 28A.155.090 and 2007 c 115 s 11 are each amended to
19 read as follows:

21 authority, through the administrative section or unit for the

1 RCW 28A.155.060 to provide special education and related services to

3 children with disabilities placed in authorized entities by school
4 districts have the same rights, protections, and access to special
5 education and related services that they would have if served by a
6 school district;

7 (7) Consistent with the provisions of RCW 28A.150.390,

31 (4) This section expires August 1, 2027."

32 Correct the title.

EFFECT: Makes the following changes to the underlying bill:

(1) Adds an intent section.

(2) Replaces the term "nonpublic agency" with the term
"authorized entity" defined to mean a "private school approved by the
State Board of Education (SBE), another private in-state entity, or
any out-of-state entity, that has been authorized by the Office of
the Superintendent of Public Instruction (OSPI) to contract with a

school district to provide a program of special education for students with disabilities.

(3) Adds to the OSPI approval standards that an applicant for authorization or reauthorization: (a) Offer a program of basic education that will provide: (i) Opportunities for students to meet the four goals of public education, in accordance with an individual assessment of student strengths and needs as determined by the placing school districts, and any other requirements established by contract; and (ii) opportunities for students in grades nine through 12 to either meet Washington high school graduation requirements or to earn a high school equivalency certificate; and (b) provide assurance that it will meet all requirements applicable to authorized entities during the period of approval.

(4) Removes the requirement that authorized entities conduct a Washington State Patrol criminal background check, and instead requires authorized entities to conduct state and federal criminal background checks, as is currently required under rules of the OSPI.

(5) Modifies on-site visit requirements for authorized entities by: (a) Specifying that the OSPI's preapproval inspection must include confirmation of staffing qualifications; and (b) permitting a contracting school district to arrange for another school district to complete the annual on-site visit on its behalf, so long as the school district conducting the on-site visit provides a written report to the contracting school district that documents the results of the on-site visit and any concerns about the learning environment.

(6) Adds to the reasons that the OSPI can suspend, revoke, or refuse to renew authorization of an entity that the entity fails to adhere to local, state, and federal laws, including health, safety, and civil rights laws.

(7) Modifies the requirement that the OSPI use its complaint process to identify and address patterns of misconduct at authorized entities, including issuing corrective action or revoking approval, by instead specifying that the OSPI must monitor and investigate authorized entities and contracting school districts using information and data provided by these entities and districts, gathered during on-site visits, and submitted through the complaint processes.
