Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

The bill eliminates, changes the frequency of, and/or provides alternative mechanisms for submitting (generally, by posting the report on an agency's website) several legislatively mandated reports. None of the reports affected by this bill are created or submitted by OFM, though OFM may facilitate the receipt or review of reports completed by other agencies. The changes proposed by this bill can be incorporated into OFM's current practices and resources and therefore, have no fiscal impact.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.

Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

Note: This fiscal note reflects language in 2ESHB 1362, 2024 Legislative Session.

This fiscal note addresses only sections 29 and 32-34 of the bill, which impact the Department of Revenue (department).

COMPARISON OF THE SECOND ENGROSSED SUBSTITUTE BILL WITH THE ORIGINAL BILL:

The second engrossed substitute bill renumbers sections and removes the section to eliminate the department's requirement to submit a progress report detailing the department's partnership efforts for business licensing requirements because previous legislation eliminated this reporting requirement.

CURRENT LAW:

The law (RCW 54.16.425) requires the department to compile a report by December 1st each year detailing:

- The amount of payments in lieu of property taxes made by public utility districts (PUDs) on their broadband infrastructure used in providing retail telecommunications service, which is exempt from property tax.
- The amount of property tax due on PUDs' broadband infrastructure used in providing retail telecommunications services if the property was not exempt from property taxation.

The law (RCW 82.14.470(5)) requires the department to compile a report with the list of public improvements undertaken by local governments and financed in whole or in part with hospital benefit zone (HBZ) financing. The report must also include a summary of certain information the law requires local governments using HBZ financing to provide to the department. The department makes the report available to the public and the Legislature by June 1st every year.

The law (RCW 82.32.765(2)) requires the department to compile a report with a summary of the activity for the Local Revitalization Financing program. The department makes the report available to the public and the Legislature by June 1st every year.

The law (RCW 19.02.055) requires the department to compile information about each license that is issued by those state agencies required to fully participate in the implementation of the Business License Center Act. The department submits the report to the governor and the Legislature by January 1st of each year.

PROPOSAL:

This bill eliminates the above current reporting requirements for the department.

EFFECTIVE DATE:

The bill takes effect 90 days after final adjournment of the session.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

This legislation results in no revenue impact to taxes administered by the department.

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.

ASSUMPTIONS:

The department will have minimal cost savings of approximately 200 to 300 labor hours spread out among positions in various divisions from the repeal of the report requirements. However, the repeal of these reports will allow the department to focus these labor hours on higher priority and more complex assignments.

Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

The proposed legislation has no fiscal impact on the Washington State Patrol (WSP).

The second substitute version of the proposed legislation makes additional changes to reporting requirements that change the section relevant to the WSP but that do not alter our previous assumptions.

Section 8(4) of the current version changes the frequency of the required SAK Tracking System report from semiannual to annual and makes the due date January 31st.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

NONE

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.

The decrease in report frequency in Section 8(4) is expected to result in a net-zero impact due to an increase in preparation time for the annual report as it will now involve more data. This is expected to offset the time savings associated with the reduction in frequency.
