Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

Section 1 (2) requires OFM to calculate the maximum tuition increase, based on the average annual percentage growth rate in the median hourly wage for the previous 14 years, for resident undergraduates at institutions of higher education and transmit this information to the institutions of higher learning by October 1st. This requirement can be completed by OFM within current practices, and therefore has no fiscal impact.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.

Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

SB 5079 would change the process by which the Office of Financial Management (OFM) calculates the maximum allowable annual increase for resident undergraduate operating fees (a portion of tuition) at public institutions of higher education. Section 1 modifies the current language in RCW 28B.15.067 so that OFM is required to announce the allowable increase for the following academic year in October of each year. Other changes are editorial and have no impact.

The Bureau of Labor Statistics (BLS) typically releases state median hourly wage data in March or April, OFM announces the allowable increase in April, and institutions' governing boards approve annual budgets in June, which include tuition rates for the following academic year. This bill would provide approximately eight months between the announcement and institutional budget approval rather than two months. In effect, if this bill were to pass in the 2023 legislative session, the allowable increase announced in April of 2023 for the 2023-24 academic year would be the same allowable increase announced in October of 2023 for the 2024-25 academic year. Then, data released in March or April of 2024 would be used in OFM's calculation for the allowable increase for the 2025-26 academic year, which would be announced in October of 2024.

The University of Washington does not anticipate any significant costs associated with implementing this bill; and therefore, we are submitting a no-impact fiscal note.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.

Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

SB 5079 directs the Office of Financial Management to report maximum allowable tuition increase rate for public higher education institutions by October 1st for the following academic year. While this does improve the timeliness of the tuition setting process, there will be no fiscal impact to WSU.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

This bill proposes a modification of the date that Office of Financial Management transmits the maximum tuition increase to Institution of Higher Education. October 1st is the date proposed.

EWU does not anticipate these changes to have any fiscal impact.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

SB 5079 modifies the current RCW to require OFM to calculate the maximum increase in tuition operating fees, and to transmit that date to IHEs by October 1st each year. While there are no specific costs related to this bill, it should be noted that this would allow CWU to set tuition rates at the October board meetings and would enable improved planning for the upcoming budget. Students would also see the tuition costs earlier and would allow them to plan ahead. Although there is no fiscal impact to report, this bill would allow CWU to maximize its efforts in budget development, which is not possible to calculate but could result in considerable time savings.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

SB 5079 relates to the setting of maximum tuition increases by the Office of Financial Management.

Section 1 (2) requires the Office of Financial Management to set the maximum tuition increase for institutions of higher education by October 1st of each year for the following academic year.

SB 5079 creates no fiscal impact for The Evergreen State College.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

Calculating the resident undergraduate tuition rate by Oct 1 for the following academic year is anticipated to give clarity to tuition expenses for incoming students whereas the rate under the current timeline is subject to change. This may result in more students enrolling at WWU who might otherwise choose out of state colleges.

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

This bill would establish a date by which the maximum tuition operating fee is calculated.

The Office of Financial Management (OFM) is directed to calculate the maximum percentage increase in tuition operating fees by October 1 for the following academic year and notify Institutions of Higher Education. The calculation is based on Washington state median hourly wage data, as determined by the federal Bureau of Labor Statistics, for the 14 years prior to the October 1st date.

The authorized increase applies to tuition operating fees for resident undergraduates, except for applied baccalaureate degrees.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

No cash receipts impact.

The bill would change the timing of tuition calculations but would not change how calculations are performed.

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.

No expenditure impact.

Institutions of Higher Education already receive information from OFM for use in calculating the maximum allowed tuition increase. This bill would change the timing of when information is received, and when work is performed, but would not change the amount of work required.
