Part I: Estimates

No Fiscal Impact

Estimated Cash Receipts to:

NONE

Estimated Operating Expenditures from:

NONE

Estimated Capital Budget Impact:

NONE

The cash receipts and expenditure estimates on this page represent the most likely fiscal impact. Factors impacting the precision of these estimates, and alternate ranges (if appropriate), are explained in Part II.

Check applicable boxes and follow corresponding instructions:

- If fiscal impact is greater than \$50,000 per fiscal year in the current biennium or in subsequent biennia, complete entire fiscal note form Parts I-V.
- If fiscal impact is less than \$50,000 per fiscal year in the current biennium or in subsequent biennia, complete this page only (Part I).
- Capital budget impact, complete Part IV.
- Requires new rule making, complete Part V.

OFM Review: Kelsey Rote	Phone: (360) 000-0000	Date: 01/20/2023

Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

This bill increases bid limits required for public works projects to go through competitive bid processes at public institutions of higher education. It raises the threshold for which projects must be bid or otherwise delivered as public work, as opposed to being done by the University's own forces. The current limits in statute have not been revised for a significant amount of time, and the revised limits in this bill are modest and would therefore not impact a significant number of projects, given inflation and increased costs of projects overall. The UW does not anticipate that this will have a fiscal impact on the University of Washington.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.

Part III: Expenditure Detail

III. A - Operating Budget Expenditures

NONE

III. B - Expenditures by Object Or Purpose

Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

SB 5385 - Higher Ed/Work relates to work performed by institutions of higher education.

Section 1 (1) of this bill increases the threshold to from \$90,000 to \$110,000 to send out for public bid if any Washington State University building requires building, construction, renovation, remodeling, or demolition, other than maintenance or repairs. The threshold for public bid is increased from \$45,000 to \$90,000 if the work requires one trade or craft area.

Section 1 (4) of this bill changes the estimated cost threshold from \$90,000 to \$110,000 when requirements of RCW 30.04.020 do not apply to the construction, renovation, remodeling or demolition of a WSU building.

Section 2 (1) changes the authorization that is given to board of trustees to act when capital improvements are necessary from \$90,000 to \$110,000. The threshold for this authorization is increased from \$45,000 to \$90,000 if the work requires one trade or craft area.

This bill may result in more negotiations with bargaining units, however, these costs will be absorbed in the normal course of business. This bill has no fiscal impact on WSU.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.

Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

Proposed SB 5385 – Amends RCW 28B.10.350 and 28B.50.330 increasing the threshold requiring public bid on building, construction, renovation, remodeling, or demolition to \$110,000, or \$90,000 if the work involves only one trade or craft are

Eastern does not anticipate this proposed bill will have any fiscal impact.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.

OFM Review: Kelsey Rote	Phone: (360) 000-0000	Date: 01/18/2023

Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

SB 5844 increases the limit of construction, building, renovation, improvement or repair projects of when the work shall be put out for bid. The new limits are \$110,000 or \$90,000 if the work involves one trade or craft area (up from \$90,000 and \$45,000 respectively), as well as modifies language to reflect the new amount of \$110,000 and \$90,000 when referencing situations in which the estimated cost is lower than that limit.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.

NONE

IV. B - Expenditures by Object Or Purpose

NONE

IV. C - Capital Budget Breakout

Acquisition and construction costs not reflected elsewhere on the fiscal note and description of potential financing methods.

NONE

IV. D - Capital FTE Detail: *FTEs listed by classification and corresponding annual compensation. Totals agree with total FTEs in Part IVB.*

NONE

The proposed bill will require some minor modifications to the current standard operating procedures as well as to the procurement procedures as part of the public works process during the scope of development and estimating stage of the projects. This will result in a project classification change for some projects. The cost to updating procedures will be absorbed by the impacted departments.

In some cases the bill could create opportunities for cost savings of self-performed work, however since CWU is currently under-staffed and unable to fill all the vacancies with qualified individuals and so therefore is already self-performing the maximum amount of work the current staff is capable of, and no cost savings are expected to arise from this bill in the foreseeable future.

Part V: New Rule Making Required

Provisions of the bill that require the agency to adopt new administrative rules or repeal/revise existing rules.

Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

SB 5385 relates to work being done at institutions of higher education.

Section 1 (1) revises the limit beyond which a project needs to be put out for public bid from \$90,000 to \$110,000. This applies to projects of construction, renovation, remodeling, or demolition, other than maintenance or repairs. The limit for work that only involves one trade or craft area is revised from \$45,000 to \$90,000.

Section 1 (4) revises the limit beyond which a project that is awarded through the small works roster procedure has to be published IAW with RCW 39.04.020 from \$90,000 to \$110,000.

Section 2 (1) stipulates that if projects exceed the limits established above, complete plans and specifications for the work shall be completed and the work shall be put out for a public bid.

There will be no fiscal impact to the Evergreen State College resulting from this bill.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.

OFM Review: Kelsey Rote	Phone: (360) 000-0000	Date: 01/25/2023

Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

Section 1(1): Amends RCW 28B.10.350 by raising the minimum dollar threshold from \$90K to 110K when public bids are required for building, construction, renovation, remodeling, or demolition. If the work involves only one trade or craft area, the threshold is raised from \$45K to \$90K.

Section 1(4): Raises the dollar threshold for waiving publication requirements on projects costing less than \$110K (previously \$90K or less) or when the contract is awarded through the small works procedure.

Section 2: Applies the same dollar thresholds in Section 1 for revenue bond-financed projects.

While this bill may result in the need for additional staff, those FTE would likely be funded from self-sustaining revenue generated from the work. Additional FTE funded from state general fund would not be required.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.

Legislative Contact: Alicia Kinne-Clawson	Phone: 360-786-7407	Date: 01/17/2023
Agency Preparation: Brian Myhre	Phone: 360-704-4413	Date: 01/18/2023
Agency Approval: Cherie Berthon	Phone: 360-704-1023	Date: 01/18/2023
OFM Review: Kelsey Rote	Phone: (360) 000-0000	Date: 01/18/2023

Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

Section 2 of the bill would increase the dollar threshold for when construction and repair projects in community and technical colleges must be put out for public bid. The dollar amount is increase to \$90,000 if the work involves one trade or craft area and \$110,000 for all others.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

No cash receipts impact.

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.

No expenditure impact.

Changing the dollar threshold for when construction and repair projects must be put out for public bid would not change expenditure impacts for the community and technical college system.
