Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Significant provisions of the bill and any related workload or policy assumptions that have revenue or expenditure impact on the responding agency by section number.

Section 1 (e) requires the establishment of a depreciation sub-fund for school districts to reserve funds for future facility and equipment needs. Districts may contribute up to two percent of a district's general fund each fiscal year into the depreciation sub-fund for the purpose of preventative maintenance. No money from the depreciation sub-fund may be used for compensation unrelated to this sub-section.

II. B - Cash receipts Impact

Cash receipts impact of the legislation on the responding agency with the cash receipts provisions identified by section number and when appropriate, the detail of the revenue sources. Description of the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explanation of how workload assumptions translate into estimates. Distinguished between one time and ongoing functions.

None.

II. C - Expenditures

Agency expenditures necessary to implement this legislation (or savings resulting from this legislation), with the provisions of the legislation that result in the expenditures (or savings) identified by section number. Description of the factual basis of the assumptions and the method by which the expenditure impact is derived. Explanation of how workload assumptions translate into cost estimates. Distinguished between one time and ongoing functions.

OSPI has estimated the state cost for this bill based on the following technical assumptions.

1. The second sub fund will be in place in September 2023 for financial reporting for the 2023-24 school year.
2. File upload process needs to be modified to allow for the new sub-fund.
3. No calculations will be performed in this sub-fund.
4. No new formulas will be added for this new sub-fund.
5. Minimal structural edits only for this new sub-fund.
6. Reports will be modified to reflect the new sub-fund.

OSPI assumes the implementation of this bill would cost \$39,000 in FY 24.

Districts will need to change their accounting and file upload systems to accommodate the new sub-fund. Costs will depend on which vendor districts use or if they manage their own fiscal IT systems. OSPI does not have copies of current IT vendor contracts and therefore cannot reasonably project the cost of this change.
