1 (e) To maintain confidentiality of prescription records, the
2 electronic system shall have adequate security and systems safeguards
3 designed to prevent and detect unauthorized access, modification, or
4 manipulation of these records. The pharmacist in charge shall
5 establish or verify the existence of policies and procedures which
6 ensure the integrity and confidentiality of prescription information
7 transmitted to the pharmacy by electronic means. All managers,
8 employees, and agents of the pharmacy are required to read, sign, and
9 comply with the established policies and procedures; and

10 (f) The pharmacist shall exercise professional judgment regarding
