**SENATE BILL 5203**

---

**State of Washington**

**69th Legislature**

**2025 Regular Session**

**By** Senators Salomon, Shewmake, and Cortes

Prefiled 01/09/25.

1 AN ACT Relating to ensuring connectivity for Washington wildlife  
2 through safe passages; reenacting and amending RCW 43.84.092 and  
3 43.84.092; adding a new section to chapter 47.04 RCW; adding a new  
4 section to chapter 77.36 RCW; adding a new section to chapter 46.68  
5 RCW; adding a new section to chapter 77.04 RCW; creating a new  
6 section; providing an effective date; and providing an expiration  
7 date.

8 BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF WASHINGTON:

9 NEW SECTION. **Sec. 1.** (1) The legislature finds that:

10 (a) Vehicle collisions kill over 5,000 deer and 300 elk, hundreds  
11 of black bears, cougars, bobcats, and coyotes, and tens of thousands  
12 of small mammals and amphibians in Washington state per year. Such  
13 loss depletes the state's natural heritage, depriving residents of  
14 wildlife watching and hunting opportunities, and weakening ecosystem  
15 functions required to support human well-being;

16 (b) Wildlife vehicle collisions with deer and elk alone cost  
17 Washington residents over \$74,000,000 per year in lost work from  
18 injury, medical treatment, vehicle damage, emergency response, and  
19 insurance payouts. This does not include the cost of lost wildlife;

20 (c) Human development and roads cause loss and fragmentation of  
21 habitat, reducing the total area and quality of habitat available to

1 Washington state's wildlife populations, and impeding normal patterns  
2 of movement that wildlife need to meet their daily, seasonal, and  
3 long-term life history and population viability needs. For example,  
4 Washington state lost over 1.1 million acres of forestland to other  
5 uses between 1978 and 2019, and over 80 percent of shrub-steppe  
6 habitat has been lost since European settlement;

7 (d) Climate change is already causing wildlife populations to  
8 shift home ranges in search of more suitable habitats. Fragmented  
9 landscapes with barriers to movement make it more difficult for  
10 wildlife to meet their normal needs and to adapt to climate change;

11 (e) Preventing the loss of remaining intact landscape corridors  
12 and vulnerable core habitats is crucial for preventing large-scale  
13 loss of Washington's biological diversity;

14 (f) The state of Washington and partners have built wildlife  
15 crossing structures over and under Interstate 90 and retrofitted one  
16 underpass on United States route 97. These structures have reduced  
17 wildlife-vehicle collisions by 90 percent in the areas near the  
18 crossing structures, showing that this is an effective method of  
19 improving wildlife habitat connectivity and public safety; and

20 (g) The state of Washington has developed some of the best  
21 wildlife habitat connectivity science in the United States. The  
22 department of fish and wildlife, in consultation with the department  
23 of transportation, has begun to develop the Washington habitat  
24 connectivity action plan to synthesize that science and propose  
25 priority actions to protect habitat connectivity corridors and  
26 facilitate passage of wildlife across the state's highways.

27 (2) Therefore, it is the intent of the legislature to direct the  
28 departments of fish and wildlife and transportation, in cooperation  
29 with other state agencies as needed, to identify and protect wildlife  
30 habitat connectivity corridors and build appropriate crossing  
31 structures to preserve the natural heritage of the state and to  
32 improve highway safety by reducing wildlife vehicle collisions.

33 NEW SECTION. **Sec. 2.** A new section is added to chapter 47.04  
34 RCW to read as follows:

35 (1) The department and the department of fish and wildlife shall  
36 develop an integrated strategy to implement and periodically update  
37 the Washington wildlife habitat connectivity action plan developed by  
38 the department of fish and wildlife. In developing their integrated  
39 wildlife habitat connectivity strategy, the department and the

1 department of fish and wildlife shall consult with tribal  
2 governments, federal agencies, and nongovernmental partners  
3 representing nonprofit conservation organizations and academia, for  
4 recommending funding strategies and priorities to the legislature,  
5 and developing agency budget requests.

6 (2) The integrated wildlife habitat connectivity strategy should  
7 include the following objectives:

8 (a) Help advance projects that provide safe passage for wildlife  
9 and the traveling public;

10 (b) Enhance or maintain ecological connectivity for Washington's  
11 fish and wildlife species;

12 (c) Bring together state and federal agencies, tribal  
13 governments, and a diverse cadre of nongovernmental partners that  
14 represent academia, nonprofit organizations, and biological and  
15 engineering sciences in the furtherance of this purpose; and

16 (d) Establish a framework for prioritization, oversight, and  
17 funding recommendations related to implementing the Washington  
18 wildlife habitat connectivity action plan developed by the department  
19 of fish and wildlife, and the utilization of funds in the Washington  
20 wildlife corridors and Washington wildlife crossings accounts in  
21 sections 3 and 4 of this act.

22 NEW SECTION. **Sec. 3.** A new section is added to chapter 77.36  
23 RCW to read as follows:

24 (1) The Washington wildlife corridors account is created in the  
25 state treasury. The account may receive moneys appropriated to the  
26 account from the general fund and the capital appropriations act and  
27 other funding sources as directed or appropriated by the legislature.  
28 Private donations may be made to the account. Moneys in the account  
29 may be spent only after appropriation.

30 (2) Expenditures from the account may be used for implementation  
31 of strategic activities that promote the protection and management of  
32 wildlife corridors as identified in the Washington wildlife habitat  
33 connectivity action plan developed by the department pursuant to  
34 section 308(29), chapter 475, Laws of 2023 including, but not limited  
35 to:

36 (a) The purchase of land or interest in land through voluntary  
37 conservation easements to protect habitat within key connectivity  
38 corridors guided by the Washington wildlife habitat connectivity  
39 action plan developed by the department;

1 (b) Landowner assistance programs including fencing removal and  
2 invasive weed control and other habitat restoration activities within  
3 corridors;

4 (c) Required updates under sections 2 and 5 of this act to the  
5 Washington wildlife habitat connectivity action plan; and

6 (d) Department administrative and personnel staffing needs for  
7 implementation of the Washington wildlife habitat connectivity action  
8 plan.

9 (3) Biennial spending plans shall be developed consistently with  
10 the integrated wildlife habitat connectivity strategy directed in  
11 section 2 of this act.

12 (4) Beginning in 2026, the department of transportation and the  
13 department of fish and wildlife shall jointly report by June 30th of  
14 each even-numbered year, in accordance with RCW 43.01.036, to the  
15 appropriate committees of the legislature, the governor's office, and  
16 the fish and wildlife commission on expenditures from the account and  
17 how the expenditures have furthered implementation of the Washington  
18 wildlife habitat connectivity action plan; and additional funding  
19 necessary to accomplish the goals of the Washington wildlife habitat  
20 connectivity action plan, including estimates for agency staffing  
21 needs, matching funds for federal grant opportunities, and other  
22 allowable expenditures specified in this section and section 4 of  
23 this act.

24 NEW SECTION. **Sec. 4.** A new section is added to chapter 46.68  
25 RCW to read as follows:

26 (1) The Washington wildlife crossings account is created in the  
27 state treasury. The account may receive moneys appropriated to the  
28 account from the transportation appropriations act and other funding  
29 sources as directed by the legislature. Private donations may be made  
30 to the account. Moneys in the account may be spent only after  
31 appropriation.

32 (2) Expenditures from the account may be used for the design,  
33 construction, identification, restoration, and protection of wildlife  
34 crossings and other highway features to reduce wildlife-vehicle  
35 collisions and habitat fragmentation in this state. Authorized uses  
36 of funds in the account include but are not limited to:

37 (a) Conducting feasibility studies, planning, engineering design,  
38 construction of crossing structures, retrofits, fencing, wildlife  
39 jump-outs, and other features for crossing structures identified as

1 priorities in the Washington wildlife habitat connectivity action  
2 plan developed by the department of fish and wildlife;

3 (b) Using as match for federal grants to construct wildlife  
4 crossing structures;

5 (c) Incorporating wildlife connectivity features into the design  
6 and construction of fish passage projects where appropriate;

7 (d) Conducting monitoring studies of the effectiveness of  
8 constructed crossing structures at facilitating wildlife movement and  
9 reducing wildlife-vehicle collisions; and

10 (e) Department administrative and personnel staffing needs  
11 related to the design, construction, maintenance, identification,  
12 restoration, monitoring, and protection of wildlife crossings and  
13 other related highway features.

14 (3) Biennial spending priorities for constructing wildlife  
15 crossing structures shall be developed consistently with the  
16 integrated wildlife habitat connectivity strategy directed in section  
17 2 of this act.

20 each even-numbered year, in accordance with RCW 43.01.036, to the  
21 appropriate committees of the legislature and the governor's office  
22 on expenditures from the account and how the expenditures have  
23 furthered implementation of the Washington wildlife habitat  
24 connectivity action plan developed by the department of fish and  
25 wildlife; and additional funding necessary to accomplish the goals of  
26 the Washington wildlife habitat connectivity action plan, including  
27 estimates for agency staffing needs, matching funds for federal grant  
28 opportunities, and other allowable expenditures specified in this  
29 section and section 3 of this act.

30 NEW SECTION. **Sec. 5.** A new section is added to chapter 77.04
