29 basis.

30 (16) Within amounts provided in this section, the department,
31 shall convene a work group of relevant stakeholders, to make
32 recommendations on methods to assist former military members with
33 demonstrated comparable recent military experience transition into
34 civilian employment in commercial trucking and the construction
35 trades. The issues explored by the work group may include, but are
36 not limited to, expanding the allowed waivers under the federal motor
37 carrier safety administration regulations, the specific training
38 documents and military license information needed to demonstrate
39 comparable military experience, the options to ensure that the former

1 military drivers have the requisite knowledge and skills to safely
2 operate commercial motor vehicles, and options to expand the
3 transition and employment opportunities of former military drivers.
4 The work group shall submit a report with its findings and
5 recommendations to the transportation committees of the
6 legislature by December 1, 2019.

7 (17) Within amounts provided in this section, the department, in
8 consultation with the department of ecology and the Washington state
9 patrol, shall convene a work group that includes representation from
10 the vehicle recycling community, local law enforcement, environmental
11 interests, and other appropriate parties to review enforcement of and
12 compliance with the state's vehicle wrecking laws.

13 (a) The work group shall review the current problems relating to
14 illegal vehicle wrecking operations and efforts underway in other
15 west coast states to address the problems of illegal vehicle wrecking
16 operations, including tax evasion, environmental impacts, health
17 impacts, and facilitation of vehicle theft, and other related issues.

18 (b) The work group shall consider strategies for bringing illegal
19 vehicle wreckers into compliance through compliance assistance,
20 education and training, or other methods, including coordinated
21 enforcement and compliance activities, and recommendations for
22 statutory and administrative changes needed to better allow for
23 enforcement against illegal wrecking operations.

24 (c) By December 1, 2019, the department must submit a preliminary
25 progress report on the work group activities to the transportation
26 committees of the legislature. By August 1, 2020, the department must
27 submit a final report with potential legislation to the
28 transportation committees of the legislature.

20 (2) As long as the facility is tolled, the department must
21 provide quarterly reports to the transportation committees of the
22 legislature on the Interstate 405 express toll lane project
23 performance measures listed in RCW 47.56.880(4). These reports must
24 include:

1 to the travel times and travel time reliability prior to
2 implementation of the express toll lanes;

3 (c) Total express toll lane and total general purpose lane
4 traffic volumes, as well as per lane traffic volumes for each type of
5 lane (i) compared to total express toll lane and total general
6 purpose lane traffic volumes, as well as per lane traffic volumes for
7 each type of lane, on this segment of Interstate 405 prior to
8 implementation of the express toll lanes and (ii) compared to total
9 express toll lane and total general purpose lane traffic volumes, as
10 well as per lane traffic volumes for each type of lane, from month to
11 month since implementation of the express toll lanes; and

12 (d) Underlying congestion measurements, that is, speeds, that are
13 being used to generate the summary graphs provided, to be made
14 available in a digital file format.

15 (3) (a) \$71,000 of the high occupancy toll lanes operations
16 account—state appropriation, \$1,238,000 of the state route number 520
17 corridor account—state appropriation, \$532,000 of the Tacoma Narrows

20 \$699,000 of the Alaskan Way viaduct replacement project account—state
21 appropriation are provided solely for the department to finish
22 implementing a new tolling customer service toll collection system,
23 and are subject to the conditions, limitations, and review provided
24 in section 701 of this act.

25 (b) The department shall continue to work with the office of
26 financial management, office of the chief information officer, and
27 the transportation committees of the legislature on the project
28 management plan that includes a provision for independent
29 verification and validation of contract deliverables from the
30 successful bidder and a provision for quality assurance that includes
31 reporting independently to the office of the chief information
32 officer on an ongoing basis during system implementation.

33 (4) The department shall make detailed quarterly reports to the
34 transportation committees of the legislature and the public on the
35 department's web site on the following:

36 (a) The use of consultants in the tolling program, including the
37 name of the contractor, the scope of work, the type of contract,
38 timelines, deliverables, any new task orders, and any extensions to
39 existing consultant contracts;

1 (b) The nonvendor costs of administering toll operations,

19 (iv) Workload costs related to hearings;

20 (v) The cost and effectiveness of debt collection activities; and

21 (vi) Revenues generated from notices of civil penalty; and

22 (e) A summary of toll revenue by facility on all operating toll
23 facilities and high occupancy toll lane systems, and an itemized

25 (5) \$15,384,000 of the Interstate 405 express toll lanes
26 operations account—state appropriation is provided solely for
27 operational costs related to the express toll lane facility.

28 (6) In calendar year 2021, toll equipment on the Tacoma Narrows
29 Bridge will have reached the end of its operational life. During the
30 2019-2021 fiscal biennium, the department plans to issue a request
31 for proposals as the first stage of a competitive procurement process
32 that will replace the toll equipment and select a new tolling
33 operator for the Tacoma Narrows Bridge. The request for proposals and
34 subsequent competitive procurement must incorporate elements that
35 prioritize the overall goal of lowering costs per transaction for the
36 facility, such as incentives for innovative approaches which result
37 in lower transactional costs, requests for efficiencies on the part
38 of the bidder that lower operational costs, and incorporation of
39 technologies such as self-serve credit card machines or other point-

1 of-payment technologies that lower costs or improve operational
2 efficiencies.

3 (7) \$19,300,000 of the Alaskan Way viaduct replacement project
4 account—state appropriation is provided solely for the new state
5 route number 99 tunnel toll facility's expected share of collecting
6 toll revenues, operating customer services, and maintaining toll
7 collection systems. Due to the uncertainty of the new state route
8 number 99 tunnel toll facility actual toll transactions and revenue,
9 the legislature is holding the other tolled facilities'
10 administrative cost shares constant for this biennium. The
11 legislature expects to see appropriate reductions to the other toll
12 facility accounts once tolling on the new state route number 99
13 tunnel toll facility commences and any previously incurred costs for
14 start-up of the new facility are charged back to the Alaskan Way
15 viaduct replacement project account. The office of financial
16 management shall closely monitor the application of the cost
17 allocation model and ensure that the new state route number 99 tunnel
18 toll facility is adequately sharing costs and the other toll facility
19 accounts are not being overspent or subsidizing the new state route
20 number 99 tunnel toll facility.

21 NEW SECTION. **Sec. 210. FOR THE DEPARTMENT OF TRANSPORTATION—**
22 **INFORMATION TECHNOLOGY—PROGRAM C**

23	Transportation Partnership Account—State Appropriation . . .	\$1,460,000
24	Motor Vehicle Account—State Appropriation	\$93,832,000
25	Puget Sound Ferry Operations Account—State	
26	Appropriation	\$263,000
27	Multimodal Transportation Account—State	
28	Appropriation	\$2,878,000
29	Transportation 2003 Account (Nickel Account)—State	
30	Appropriation	\$1,460,000
31	TOTAL APPROPRIATION.	\$99,893,000

32 The appropriations in this section are subject to the following
33 conditions and limitations:

34 (1) \$11,717,000 of the motor vehicle account—state appropriation
35 is provided solely for the development of the labor system
36 replacement project and is subject to the conditions, limitations,
37 and review provided in section 701 of this act. It is the intent of
38 the legislature that if any portion of the labor system replacement

1 project is leveraged in the future for the time, leave, and labor
2 distribution of any other agencies, the motor vehicle account will be
3 reimbursed proportionally for the development of the system since
4 amounts expended from the motor vehicle account must be used
5 exclusively for highway purposes in conformance with Article II,
6 section 40 of the state Constitution. This must be accomplished
7 through a loan arrangement with the current interest rate under the
8 terms set by the office of the state treasurer at the time the system
9 is deployed to additional agencies. If the motor vehicle account is
10 not reimbursed for future use of the system, it is further the intent
11 of the legislature that reductions will be made to central service
12 agency charges accordingly.

13 (2) \$198,000 of the motor vehicle account—state appropriation is
14 provided solely for the department's cost related to the one
15 Washington project.

16 (3) \$21,500,000 of the motor vehicle account—state appropriation
17 is provided solely for the activities of the information technology
18 program in developing and maintaining information systems that
19 support the operations and program delivery of the department,
20 ensuring compliance with section 701 of this act, and the
21 requirements of the office of the chief information officer under RCW
22 43.88.092 to evaluate and prioritize any new financial and capital
23 systems replacement or modernization project and any other
24 information technology project. During the 2019-2021 biennium, the
25 department is prohibited from using the distributed direct program
26 support or any other cost allocation method to fund any new financial
27 and capital systems replacement or modernization project without
28 having the project evaluated and prioritized by the office of the
29 chief information officer and submitting a decision package to the
30 governor and the transportation committees of the legislature as part
31 of the normal budget process.

3 Aeronautics Account—State Appropriation \$7,203,000
4 Aeronautics Account—Federal Appropriation \$2,542,000
5 Aeronautics Account—Private/Local Appropriation \$60,000
6 TOTAL APPROPRIATION. \$9,805,000

7 The appropriations in this section are subject to the following
8 conditions and limitations:

9 (1) \$2,751,000 of the aeronautics account—state appropriation is
10 provided solely for the airport aid grant program, which provides
11 competitive grants to public airports for pavement, safety, planning,
12 and security.

13 (2) \$134,000 of the aeronautics account—state appropriation is
14 provided solely for a 0.5 FTE planning position to support emerging
15 technologies. If chapter . . . (Substitute Senate Bill No. 5137)
16 (aircraft excise taxes), Laws of 2019 is not enacted by June 30,
17 2019, the amount provided in this subsection lapses.

18 NEW SECTION. **Sec. 213. FOR THE DEPARTMENT OF TRANSPORTATION—**

19 **PROGRAM DELIVERY MANAGEMENT AND SUPPORT—PROGRAM H**

20 Motor Vehicle Account—State Appropriation \$57,399,000
21 Motor Vehicle Account—Federal Appropriation \$500,000
22 Multimodal Transportation Account—State Appropriation . . . \$258,000
23 TOTAL APPROPRIATION. \$58,157,000

24 The appropriations in this section are subject to the following
25 conditions and limitations:

26 (1) The legislature recognizes that the trail known as the Rocky
27 Reach Trail, and its extensions, serve to separate motor vehicle
28 traffic from pedestrians and bicyclists, increasing motor vehicle
29 safety on state route number 2 and the coincident section of state
30 route number 97. Consistent with chapter 47.30 RCW and pursuant to
31 RCW 47.12.080, the legislature declares that transferring portions of
32 WSDOT Inventory Control (IC) No. 2-09-04686 containing the trail and
33 associated buffer areas to the Washington state parks and recreation
34 commission is consistent with the public interest. The legislature
35 directs the department to transfer the property to the Washington
36 state parks and recreation commission.

1 (a) The department must be paid fair market value for any
2 portions of the transferred real property that is later abandoned,
3 vacated, or ceases to be publicly maintained for trail purposes.

4 (b) Prior to completing the transfer in this subsection (2), the
5 department must ensure that provisions are made to accommodate
6 private and public utilities and any facilities that predate the
7 department's acquisition of the property, at no cost to those
8 entities. Prior to completing the transfer, the department shall also
9 ensure that provisions, by fair market assessment, are made to
10 accommodate other private and public utilities and any facilities
11 that have been legally allowed by permit or other instrument.

12 (c) The department may sell any adjoining property that is not
13 necessary to support the Rocky Reach Trail and adjacent buffer areas
14 only after the transfer of trail-related property to the Washington
15 state parks and recreation commission is complete. Adjoining property
16 owners must be given the first opportunity to acquire such property
17 that abuts their property, and applicable boundary line or other
18 adjustments must be made to the legal descriptions for recording
19 purposes.

20 (2) With respect to Parcel 12 of the real property conveyed by
21 the state of Washington to the city of Mercer Island under that
22 certain quitclaim deed, dated April 19, 2000, recorded in King county
23 under recording no. 20000425001234, the requirement in the deed that
24 the property be used for road/street purposes only will be deemed
25 satisfied by the department of transportation so long as commuter
26 parking, as part of the vertical development of the property, is one
27 of the significant uses of the property.

28 (3) \$1,600,000 of the motor vehicle account—state appropriation
29 is provided solely for real estate services activities. Consistent
30 with RCW 47.12.120 and during the 2019-2021 biennium, when
31 initiating, extending, or renewing any rent or lease agreements with
32 a regional transit authority, consideration of value must be
33 equivalent to one hundred percent of economic or market rent.

34 NEW SECTION. **Sec. 214. FOR THE DEPARTMENT OF TRANSPORTATION—**
35 **PUBLIC-PRIVATE PARTNERSHIPS—PROGRAM K**

36	Motor Vehicle Account—State Appropriation	\$646,000

1 The appropriation in this section is subject to the following
2 conditions and limitations:

3 (1) The economic partnerships program must continue to explore
4 retail partnerships at state-owned park and ride facilities, as
5 authorized in RCW 47.04.295.

6 (2) The department is authorized to execute a transit oriented
7 development pilot project at Kingsgate park and ride in Kirkland
8 intended to be completed by December 31, 2023. The purpose of the
9 pilot project is to demonstrate how appropriate department properties
10 may be used to provide multiple public benefits such as affordable
11 and market rate housing, commercial development and institutional
12 facilities in addition to transportation purposes. To accomplish the
13 pilot project, the department is authorized to exercise all legal and
14 administrative powers authorized in statute which may include, but is
15 not limited to, the transfer, lease, or sale of some or all of the
16 property to another governmental agency or private developer approved
17 by the department and partner agencies. The department may also
18 partner with sound transit, King county, the city of Kirkland, and
19 any other federal, regional, or local jurisdiction on any policy
20 changes necessary from those jurisdictions to facilitate the pilot
21 project. By December 1, 2019, the department must report to the
22 legislature on any legislative actions necessary to facilitate the
23 pilot project and future transit oriented development projects.

22 (5) \$5,000,000 of the motor vehicle account—state appropriation
23 is provided solely for a contingency pool for snow and ice removal.
24 The department will notify the office of financial management and the
25 transportation committees of the legislature when they have spent the
26 base budget for snow and ice removal and will begin using the
27 contingency pool funding.

28 (6) \$1,025,000 of the motor vehicle account—state appropriation
29 is provided solely for the department to implement safety
30 improvements and debris clean up on department-owned rights-of-way in
31 the city of Seattle at levels above that being implemented as of
32 January 1, 2019. The department must contract out or hire a crew
33 dedicated solely to collecting and disposing of garbage, clearing
34 debris or hazardous material, and implementing safety improvements
35 where hazards exist to the traveling public, department employees, or
36 people encamped upon department-owned rights-of-way. The department
37 may request assistance from the Washington state patrol as necessary
38 in order for both agencies to provide enhanced safety-related

13 NEW SECTION. **Sec. 216. FOR THE DEPARTMENT OF TRANSPORTATION—**
14 **TRAFFIC OPERATIONS—PROGRAM Q—OPERATING**

15	Motor Vehicle Account—State Appropriation	\$68,302,000
16	Motor Vehicle Account—Federal Appropriation	\$2,050,000
17	Motor Vehicle Account—Private/Local Appropriation	\$250,000
18	TOTAL APPROPRIATION.	\$70,602,000

19 The appropriations in this section are subject to the following
20 conditions and limitations:

21 (1) \$6,000,000 of the motor vehicle account—state appropriation
22 is provided solely for low-cost enhancements. The department shall
23 give priority to low-cost enhancement projects that improve safety or
24 provide congestion relief. By December 15th of each odd-numbered
25 year, the department shall provide a report to the legislature
26 listing all low-cost enhancement projects completed in the prior
27 fiscal biennium.

28 (2) (a) During the 2019-2021 fiscal biennium, the department shall
29 continue a pilot program that expands private transportation
30 providers' access to high occupancy vehicle lanes. Under the pilot
31 program, when the department reserves a portion of a highway based on
32 the number of passengers in a vehicle, the following vehicles must be
33 authorized to use the reserved portion of the highway if the vehicle
34 has the capacity to carry eight or more passengers, regardless of the
35 number of passengers in the vehicle: (i) Auto transportation company
36 vehicles regulated under chapter 81.68 RCW; (ii) passenger charter
37 carrier vehicles regulated under chapter 81.70 RCW, except marked or
38 unmarked stretch limousines and stretch sport utility vehicles as

1 defined under department of licensing rules; (iii) private nonprofit
2 transportation provider vehicles regulated under chapter 81.66 RCW;
3 and (iv) private employer transportation service vehicles. For
4 purposes of this subsection, "private employer transportation
5 service" means regularly scheduled, fixed-route transportation
6 service that is offered by an employer for the benefit of its
7 employees. Nothing in this subsection is intended to authorize the
8 conversion of public infrastructure to private, for-profit purposes
9 or to otherwise create an entitlement or other claim by private users
10 to public infrastructure.

11 (b) The department shall expand the high occupancy vehicle lane
12 access pilot program to vehicles that deliver or collect blood,
13 tissue, or blood components for a blood-collecting or distributing
14 establishment regulated under chapter 70.335 RCW. Under the pilot
15 program, when the department reserves a portion of a highway based on
16 the number of passengers in a vehicle, blood-collecting or
17 distributing establishment vehicles that are clearly and identifiably
18 marked as such on all sides of the vehicle are considered emergency
19 vehicles and must be authorized to use the reserved portion of the
20 highway.

21 (c) The department shall expand the high occupancy vehicle lane
22 access pilot program to private, for hire vehicles regulated under
23 chapter 81.72 RCW that have been specially manufactured, designed, or
24 modified for the transportation of a person who has a mobility
25 disability and uses a wheelchair or other assistive device. Under the
26 pilot program, when the department reserves a portion of a highway
27 based on the number of passengers in a vehicle, wheelchair-accessible
28 taxicabs that are clearly and identifiably marked as such on all
29 sides of the vehicle are considered public transportation vehicles
30 and must be authorized to use the reserved portion of the highway.

31 (d) Nothing in this subsection (2) is intended to exempt these

33 department to determine whether the grant should be terminated. The
34 department shall promptly close out grants when projects have been
35 completed, and any remaining funds must be used only to fund projects
36 identified in the LEAP transportation document referenced in this
37 subsection. The department shall provide annual status reports on
38 December 15, 2019, and December 15, 2020, to the office of financial

2 legislature to appropriate funds through the regional mobility grant
3 program only for projects that will be completed on schedule. A
4 grantee may not receive more than twenty-five percent of the amount
5 appropriated in this subsection. Additionally, when allocating
6 funding for the 2021-2023 biennium, no more than thirty percent of

11 (b) In order to be eligible to receive a grant under (a) of this
12 subsection during the 2019-2021 fiscal biennium, a transit agency
13 must establish a process for private transportation providers to

23 route transportation service that is offered by an employer for the
24 benefit of its employees.

25 (6) Funds provided for the commute trip reduction (CTR) program
26 may also be used for the growth and transportation efficiency center
27 program.

28 (7) \$7,670,000 of the multimodal transportation account—state
29 appropriation and \$784,000 of the state vehicle parking account—state
30 appropriation are provided solely for CTR grants and activities. Of
31 this amount:

32 (a) \$1,000,000 of the multimodal transportation account—state
33 appropriation is provided solely for the department to continue a
34 pilot transit pass incentive program. Businesses and nonprofit
35 organizations located in a county adjacent to Puget Sound with a
36 population of more than seven hundred thousand that have never
37 offered transit subsidies to employees are eligible to apply to the
38 program for a fifty percent rebate on the cost of employee transit
39 subsidies provided through the regional ORCA fare collection system.

1 No single business or nonprofit organization may receive more than
2 ten thousand dollars from the program.

3 (i) Businesses and nonprofit organizations may apply and be
4 awarded funds prior to purchasing a transit subsidy, but the
5 department may not provide reimbursement until proof of purchase or a
6 contract has been provided to the department.

7 (ii) The department shall update the transportation committees of
8 the legislature on the impact of the program by January 31, 2020, and
9 may adopt rules to administer the program.

10 (b) \$30,000 of the state vehicle parking account—state
11 appropriation is provided solely for the STAR pass program for state

17 appropriation is provided solely for a first mile/last mile
18 connections grant program. Eligible grant recipients include cities,
19 businesses, nonprofits, and transportation network companies with
20 first mile/last mile solution proposals. Transit agencies are not
21 eligible. The commute trip reduction board shall develop grant
22 parameters, evaluation criteria, and evaluate grant proposals. The
23 commute trip reduction board shall provide the transportation
24 committees of the legislature a report on the effectiveness of this
25 grant program and best practices for continuing the program.

26 (8) \$27,048,000 of the multimodal transportation account—state
27 appropriation is provided solely for connecting Washington transit
28 projects identified in LEAP Transportation Document 2019-2 ALL
29 PROJECTS as developed March 26, 2019. It is the intent of the
30 legislature that entities identified to receive funding in the LEAP
31 document referenced in this subsection receive the amounts specified
32 in the time frame specified in that LEAP document. If an entity has
33 already completed a project in the LEAP document referenced in this
34 subsection before the time frame identified, the entity may
35 substitute another transit project or projects that cost a similar or
36 lesser amount.

37 (9) \$2,000,000 of the multimodal transportation account—state
38 appropriation is provided solely for transit coordination grants.

1 (10) The department shall not require more than a ten percent
2 match from nonprofit transportation providers for state grants.

3 (11)(a) For projects funded as part of the 2015 connecting
4 Washington transportation package listed on the LEAP transportation
5 document identified in subsection (4) of this section, if the
6 department expects to have substantial reappropriations for the
7 2021-2023 fiscal biennium, the department may, on a pilot basis,
8 apply funding from a project with an appropriation that cannot be
9 used for the current fiscal biennium to advance one or more of the
10 following projects:

- 11 (i) King County Metro - RapidRide Expansion, Burien-Delridge
12 (G2000031);
- 13 (ii) King County Metro - Route 40 Northgate to Downtown
14 (G2000032);
- 15 (iii) Spokane Transit - Spokane Central City Line (G2000034);
- 16 (iv) Mason Transit Park & Ride Development (G2000042); or
- 17 (v) Pierce Transit - SR 7 Express Service (G2000046).

18 (b) At least ten business days before advancing a project
19 pursuant to this subsection, the department must notify the office of
20 financial management and the transportation committees of the
21 legislature. The advancement of a project may not hinder the delivery
22 of the projects for which the reappropriations are necessary for the
23 2021-2023 fiscal biennium.

24 (c) To the extent practicable, the department shall use the
25 flexibility and authority granted in this section to minimize the
26 amount of reappropriations needed each biennium.

26 appropriation is provided solely for:

27 (a) The arterial preservation program to help low tax-based,
28 medium-sized cities preserve arterial pavements;

30 preservation needs; and

31 (c) The small city low-energy street light retrofit program.

32 (3) To maximize the efficiency of the state funds provided in
33 this section and the safety of the bike and pedestrian users of the U
34 District Gateway Bridge (G2000005) and the Sprague Avenue
35 improvements (8-3-165(089)-1) projects funded in this act, any new
36 approval for grants or allocations for projects during the 2019-2021
37 biennium for the city of Spokane is contingent upon the city
38 developing an infrastructure plan to provide an east-west safe

1 connection for the increased bike traffic volume on Sprague Avenue
2 and identifying funding for these connection improvements. The
3 connection improvements may include a bike only path reasonably
4 adjacent to Sprague Avenue. Funds provided in this section may not be
5 released to the city of Spokane unless the board has made a
6 determination that the city has met this requirement and provided
7 notification to the transportation committees of the legislature.

8 (4) Consistent with RCW 47.26.086, during the 2019-2021 biennium,
9 projects funded by the transportation improvement account may include
10 projects that provide emergency vehicle access to ferry terminals in
11 response to street-level railroad crossing conflicts.

17 The appropriations in this section are subject to the following
18 conditions and limitations:

19 (1) Except as provided otherwise in this section, the entire
20 connecting Washington account—state appropriation and the entire
21 transportation partnership account—state appropriation are provided
22 solely for the projects and activities as listed by fund, project,
23 and amount in LEAP Transportation Document 2019-1 as developed March
24 26, 2019, Program - Highway Improvements Program (I). However,

34 the federal funds forecast, additional congressional action not
35 related to a specific project or purpose, or the federal funds
36 redistribution process must then be applied to highway and bridge
37 preservation activities.

38 (3) Within the motor vehicle account—state appropriation and
39 motor vehicle account—federal appropriation, the department may

1 transfer funds between programs I and P, except for funds that are
2 otherwise restricted in this act. The department shall submit a

4 using this subsection as part of the department's annual budget
5 submittal.

14 authorized in RCW 47.10.812.

15 (7) The Alaskan Way viaduct replacement project account—state
16 appropriation includes up to \$77,951,000 in proceeds from the sale of

20 appropriation, \$3,383,000 of the transportation 2003 account (nickel
21 account)—state appropriation, \$77,951,000 of the Alaskan Way viaduct
22 replacement project account—state appropriation, and \$1,838,000 of
23 the multimodal transportation account—state appropriation are
24 provided solely for the SR 99/Alaskan Way Viaduct Replacement project
25 (809936Z).

26 (9) \$3,000,000 of the multimodal transportation account—state
27 appropriation is provided solely for transit mitigation for the SR
28 99/Viaduct Project - Construction Mitigation project (809940B).

29 (10) \$164,000,000 of the connecting Washington account—state
30 appropriation is provided solely for the US 395 North Spokane
31 Corridor project (M00800R).

32 (11) \$22,195,000 of the transportation partnership account—state
33 appropriation, \$12,805,000 of the transportation 2003 account (nickel
34 account)—state appropriation, and \$27,000,000 of the Interstate 405
35 express toll lanes operations account—state appropriation are
36 provided solely for the I-405/SR 522 to I-5 Capacity Improvements
37 project (L2000234) for activities related to adding capacity on
38 Interstate 405 between state route number 522 and Interstate 5, with
39 the goals of increasing vehicle throughput and aligning project

1 completion with the implementation of bus rapid transit in the
2 vicinity of the project. The transportation partnership account—state
3 appropriation and transportation 2003 account (nickel account)—state
4 appropriation are a transfer or a reappropriation of a transfer from
5 the I-405/Kirkland Vicinity Stage 2 - Widening project (8BI1002) due
6 to savings.

7 (12) (a) \$395,822,000 of the connecting Washington account—state
8 appropriation and \$342,000 of the motor vehicle account—local
9 appropriation are provided solely for the SR 520 Seattle Corridor
10 Improvements - West End project (M00400R).

11 (b) Recognizing that the department of transportation requires
12 full possession of parcel number 1-23190 to complete the Montlake
13 Phase of the West End project, the department is directed to:

14 (i) Work with the operator of the Montlake boulevard market
15 located on parcel number 1-23190 to negotiate a lease allowing
16 continued operations up to January 1, 2020. After that time, the
17 department shall identify an area in the vicinity of the Montlake
18 property for a temporary market or other food service to be provided
19 during the period of project construction. Should the current
20 operator elect not to participate in providing that temporary
21 service, the department shall then develop an outreach plan with the
22 city to solicit community input on the food services provided, and
23 then advertise the opportunity to other potential vendors. Further,
24 the department shall work with the city of Seattle and existing
25 permit processes to facilitate vendor access to and use of the area
26 in the vicinity of the Montlake property.

27 (ii) Upon completion of the Montlake Phase of the West End
28 project (current anticipated contract completion of 2023), WSDOT
29 shall sell that portion of the property not used for permanent
30 transportation improvements and initiate a process to convey that
31 surplus property to a subsequent owner.

32 (13) It is the intent of the legislature that for the I-5 JBLM
33 Corridor Improvements project (M00100R), the department shall
34 actively pursue \$50,000,000 in federal funds to pay for this project
35 to supplant state funds in the future. \$50,000,000 in connecting
36 Washington account funding must be held in unallotted status during
37 the 2021-2023 fiscal biennium. These funds may only be used after the
38 department has provided notice to the office of financial management

1 that it has exhausted all efforts to secure federal funds from the
2 federal highway administration and the department of defense.

3 (14) \$265,100,000 of the connecting Washington account—state
4 appropriation is provided solely for the SR 167/SR 509 Puget Sound
5 Gateway project (M00600R).

6 (a) Any savings on the project must stay on the Puget Sound
7 Gateway corridor until the project is complete.

8 (b) Proceeds from the sale of any surplus real property acquired
9 for the purpose of building the SR 167/SR 509 Puget Sound Gateway
10 (M00600R) project must be deposited into the motor vehicle account
11 for the purpose of constructing the project.

12 (c) In making budget allocations to the Puget Sound Gateway
13 project, the department shall implement the project's construction as
14 a single corridor investment. The department shall develop a
15 coordinated corridor construction and implementation plan for state
16 route number 167 and state route number 509 in collaboration with
17 affected stakeholders. Specific funding allocations must be based on
18 where and when specific project segments are ready for construction
19 to move forward and investments can be best optimized for timely
20 project completion. Emphasis must be placed on avoiding gaps in fund
21 expenditures for either project.

22 (d) It is the legislature's intent that the department shall
23 construct a full single-point urban interchange at the junction of
24 state route number 161 (Meridian avenue) and state route number 167
25 and a full single-point urban interchange at the junction of state
26 route number 509 and 188th Street. If the department receives
27 additional funds from an outside source for this project after the
28 funding gap on the base project is closed, the funds must first be
29 applied toward the completion of these two full single-point urban
30 interchanges.

31 (15) It is the intent of the legislature that, for the I-5/North
32 Lewis County Interchange project (L2000204), the department develop
33 and design the project with the objective of significantly improving
34 access to the industrially zoned properties in north Lewis
35 county. The design must consider the county's process of
36 investigating alternatives to improve such access from Interstate 5
37 that began in March 2015.

38 (16) \$950,000 of the transportation partnership account—state
39 appropriation is provided solely for the U.S. 2 Trestle IJR project
40 (L1000158).

1 (17) The legislature finds that there are sixteen companies
2 involved in wood preserving in the state that employ four hundred
3 workers and have an annual payroll of fifteen million dollars. Before
4 the department's switch to steel guardrails, ninety percent of the
5 twenty-five hundred mile guardrail system was constructed of
6 preserved wood and one hundred ten thousand wood guardrail posts were
7 produced annually for state use. Moreover, the policy of using steel
8 posts requires the state to use imported steel. Given these findings,
9 where practicable, and until June 30, 2021, the department shall
10 include the design option to use wood guardrail posts, in addition to
11 steel posts, in new guardrail installations. The selection of posts
12 must be consistent with the agency design manual policy that existed
13 before December 2009.

14 (18)(a) For projects funded as part of the 2015 connecting
15 Washington transportation package listed on the LEAP transportation
16 document identified in subsection (1) of this section, if the
17 department expects to have substantial reappropriations for the
18 2021-2023 fiscal biennium, the department may, on a pilot basis,
19 apply funding from a project in this section with an appropriation
20 that cannot be used for the current fiscal biennium to advance one or
21 more of the following projects:

22 (i) I-82 Yakima - Union Gap Economic Development Improvements
23 (T21100R);

24 (ii) I-5 Federal Way - Triangle Vicinity Improvements (T20400R);
25 or

26 (iii) SR 522/Paradise Lk Rd Interchange & Widening on SR 522
27 (Design/Engineering) (NPARADI).

28 (b) At least ten business days before advancing a project
29 pursuant to this subsection, the department must notify the office of
30 financial management and the transportation committees of the
31 legislature. The advancement of a project may not hinder the delivery
32 of the projects for which the reappropriations are necessary for the
33 2021-2023 fiscal biennium.

34 (c) For connecting Washington projects that have already begun
35 and are eligible for the authority granted in section 601 of this
36 act, the department shall prioritize advancing the following projects
37 if expected reappropriations become available:

38 (i) SR 14/I-205 to SE 164th Ave - Auxiliary Lanes (L2000102);

39 (ii) SR 305 Construction - Safety Improvements (N30500R);

40 (iii) SR 14/Bingen Overpass (L2220062);

1 (iv) I-405/NE 132nd Interchange - Totem Lake (L1000110);

2 (v) US Hwy 2 Safety (N00200R); or

3 (vi) US-12/Walla Walla Corridor Improvements (T20900R).

4 (d) To the extent practicable, the department shall use the
5 flexibility and authority granted in this section and in section 601
6 of this act to minimize the amount of reappropriations needed each
7 biennium.

8 (19) The legislature continues to prioritize the replacement of
9 the state's aging infrastructure and recognizes the importance of
10 reusing and recycling construction aggregate and recycled concrete
11 materials in our transportation system. To accomplish Washington
12 state's sustainability goals in transportation and in accordance with
13 RCW 70.95.805, the legislature reaffirms its determination that
14 recycled concrete aggregate and other transportation building
15 materials are natural resource construction materials that are too
16 valuable to be wasted and landfilled, and are a commodity as defined
17 in WAC 173-350-100.

18 Further, the legislature determines construction aggregate and
19 recycled concrete materials substantially meet widely recognized
20 international, national, and local standards and specifications
21 referenced in American society for testing and materials, American
22 concrete institute, Washington state department of transportation,
23 Seattle department of transportation, American public works
24 association, federal aviation administration, and federal highway
25 administration specifications, and are described as necessary and
26 desirable products for recycling and reuse by state and federal
27 agencies.

28 As these recyclable materials have well established markets, are
29 substantially a primary or secondary product of necessary
30 construction processes and production, and are managed as an item of
31 commercial value, construction aggregate and recycled concrete
32 materials are exempt from chapter 173-350 WAC.

33 (20) \$8,500,000 of the motor vehicle account—state appropriation
34 is provided solely for staffing of a project office to replace the
35 Interstate 5 bridge across the Columbia river (G2000088). The work of
36 this project office should include, but is not limited to, the
37 reevaluation of the purpose and need identified for the project
38 previously known as the Columbia river crossing, the reevaluation of
39 permits and development of a finance plan, the reengagement of key
40 stakeholders, and the reevaluation of scope, schedule, and budget for

1 a reinvigorated bistate effort for replacement of the Interstate 5
2 Columbia river bridge. When reevaluating the finance plan for the
3 project, the department shall assume that some costs of the new
4 facility may be covered by tolls. Within the amount provided in this
5 subsection, the department must implement chapter . . . (Engrossed
6 Substitute House Bill No. 1994) (projects of statewide significance),
7 Laws of 2019. The project office must also study the possible
8 different governance structures for a bridge authority that would
9 provide for the joint administration of the bridges over the Columbia
10 river between Oregon and Washington. As part of this study, the
11 project office must examine the feasibility and necessity of an
12 interstate compact in conjunction with the national center for
13 interstate compacts. The department shall reengage project
14 stakeholders, and reevaluate the purpose and need and environmental
15 permits by July 1, 2020. The department must have developed a finance
16 plan by December 1, 2020, and have made significant progress towards
17 beginning the supplemental environmental impact statement process by
18 June 30, 2021. The department shall provide a progress report on
19 these activities to the governor and the transportation committees of
20 the legislature by December 1, 2019, and a final report to the
21 governor and the transportation committees of the legislature by
22 December 1, 2020.

23 (21) \$6,823,000 of the motor vehicle account—state appropriation,
24 \$36,500,000 of the connecting Washington account—state appropriation,
25 \$44,961,000 of the motor vehicle account—federal appropriation, and
26 \$185,716,000 of the forward Washington account—state appropriation
27 are provided solely for the Fish Passage Barrier project (OBI4001)
28 with the intent of fully complying with the court injunction by 2030.
29 The department shall coordinate with the Brian Abbott fish passage
30 barrier removal board to use a watershed approach to maximize habitat
31 gain by replacing both state and local culverts.

32 (22) \$14,750,000 of the connecting Washington account—state
33 appropriation and \$8,900,000 of the motor vehicle account—local
34 appropriation are provided solely for the I-90/Barker to Harvard -
35 Improve Interchanges & Local Roads project (L2000122). The connecting
36 Washington appropriation may only be expended if the city of Liberty
37 Lake agrees to cover any project costs above the \$18,000,000 of state
38 appropriation provided for the total project in LEAP Transportation

1 Document 2019-1 as developed March 26, 2019, Program - Highway
2 Improvements (I).

22 The appropriations in this section are subject to the following
23 conditions and limitations:

24 (1) Except as provided otherwise in this section, the entire
25 connecting Washington account—state appropriation and the entire
26 transportation partnership account—state appropriation are provided
27 solely for the projects and activities as listed by fund, project,
28 and amount in LEAP Transportation Document 2019-1 as developed March
29 26, 2019, Program - Highway Preservation Program (P). However,
30 limited transfers of specific line-item project appropriations may
31 occur between projects for those amounts listed subject to the
32 conditions and limitations in section 601 of this act.

33 (2) Except as provided otherwise in this section, the entire
34 motor vehicle account—state appropriation and motor vehicle account—
35 federal appropriation are provided solely for the projects and
36 activities listed in LEAP Transportation Document 2019-2 ALL PROJECTS

1 the federal funds forecast, additional congressional action not
2 related to a specific project or purpose, or the federal funds
3 redistribution process must then be applied to highway and bridge
4 preservation activities.

5 (3) Within the motor vehicle account—state appropriation and
6 motor vehicle account—federal appropriation, the department may
7 transfer funds between programs I and P, except for funds that are
8 otherwise restricted in this act. The department shall submit a
9 report on fiscal year funds transferred in the prior fiscal year
10 using this subsection as part of the department's annual budget
11 submittal.

12 (4) \$25,036,000 of the connecting Washington account—state
13 appropriation is provided solely for the land mobile radio upgrade
14 (G2000055) and is subject to the conditions, limitations, and review
15 provided in section 701 of this act. The land mobile radio project is
16 subject to technical oversight by the office of the chief information
17 officer. The department, in collaboration with the office of the
18 chief information officer, shall identify where existing or proposed
19 mobile radio technology investments should be consolidated, identify
20 when existing or proposed mobile radio technology investments can be
21 reused or leveraged to meet multiagency needs, increase mobile radio
22 interoperability between agencies, and identify how redundant
23 investments can be reduced over time. The department shall also
24 provide quarterly reports to the technology services board on project
25 progress.

26 (5) \$2,500,000 of the motor vehicle account—state appropriation

33 financial management may release the funds only when it determines
34 that all other funds designated for litigation awards, settlements,
35 and dispute mitigation activities have been exhausted. No funds
36 provided in this subsection may be expended on any legal fees related
37 to the SR 99/Alaskan Way viaduct replacement project (809936Z).

38 (6) \$22,729,000 of the motor vehicle account—federal
39 appropriation and \$553,000 of the motor vehicle account—state

1 appropriation are provided solely for the preservation of
2 structurally deficient bridges or bridges that are at risk of
3 becoming structurally deficient (L1000068). These funds must be used
4 widely around the state of Washington. When practicable, the
5 department shall pursue design-build contracts for these bridge
6 projects to expedite delivery. The department shall provide a report
7 that identifies the progress of each project funded in this
8 subsection as part of its annual agency budget request.

9 (7) The department must consult with the Washington state patrol
10 and the office of financial management during the design phase of any
11 improvement or preservation project that could impact Washington

20 (9) (a) For projects funded as part of the 2015 connecting

28 (b) At least ten business days before advancing the project
29 pursuant to this subsection, the department must notify the office of
30 financial management and the transportation committees of the
31 legislature. The advancement of the project may not hinder the
32 delivery of the projects for which the reappropriations are necessary
33 for the 2021-2023 fiscal biennium.

34 (c) To the extent practicable, the department shall use the
35 flexibility and authority granted in this section and in section 601
36 of this act to minimize the amount of reappropriations needed each

35 delivery of the projects for which the reappropriations are necessary
36 for the 2021-2023 fiscal biennium.

37 (c) To the extent practicable, the department shall use the
38 flexibility and authority granted in this section to minimize the

9 (1) The 2005 transportation partnership projects or improvements
10 and 2015 connecting Washington projects or improvements are listed in
11 the LEAP Transportation Document 2019-1 as developed March 26, 2019,
12 which consists of a list of specific projects by fund source and
13 amount over a sixteen-year period. Current fiscal biennium funding
14 for each project is a line-item appropriation, while the outer year
15 funding allocations represent a sixteen-year plan. The department of
16 transportation is expected to use the flexibility provided in this
17 section to assist in the delivery and completion of all
18 transportation partnership account and connecting Washington account
19 projects on the LEAP transportation document referenced in this
20 subsection. For the 2019-2021 project appropriations, unless
21 otherwise provided in this act, the director of the office of
22 financial management may provide written authorization for a transfer
23 of appropriation authority between projects funded with
24 transportation partnership account appropriations or connecting
25 Washington account appropriations to manage project spending and
26 efficiently deliver all projects in the respective program under the
27 following conditions and limitations:

28 (a) Transfers may only be made within each specific fund source
29 referenced on the respective project list;

30 (b) Transfers from a project may not be made as a result of the
31 reduction of the scope of a project or be made to support increases
32 in the scope of a project;

33 (c) Transfers from a project may be made if the funds
34 appropriated to the project are in excess of the amount needed in the
35 current fiscal biennium;

36 (d) Transfers may not occur for projects not identified on the
37 applicable project list;

1 (e) Transfers may not be made while the legislature is in
2 session;

3 (f) Transfers to a project may not be made with funds designated
4 as attributable to practical design savings as described in RCW
5 47.01.480;

6 (g) Each transfer between projects may only occur if the director
7 of the office of financial management finds that any resulting change
8 will not hinder the completion of the projects as approved by the
9 legislature. Until the legislature reconvenes to consider the 2020
10 supplemental omnibus transportation appropriations act, any
11 unexpended 2017-2019 appropriation balance as approved by the office
12 of financial management, in consultation with the legislative staff
13 of the house of representatives and senate transportation committees,
14 may be considered when transferring funds between projects; and

15 (h) Transfers between projects may be made by the department of
16 transportation without the formal written approval provided under
17 this subsection (1), provided that the transfer amount does not
18 exceed two hundred fifty thousand dollars or ten percent of the total
19 project, whichever is less. These transfers must be reported
20 quarterly to the director of the office of financial management and
21 the chairs of the house of representatives and senate transportation
22 committees.

23 (2) The department of transportation must submit quarterly all
24 transfers authorized under this section in the transportation
25 executive information system. The office of financial management must
26 maintain a legislative baseline project list identified in the LEAP
27 transportation documents referenced in this act, and update that

32 (4) Before approval, the office of financial management shall
33 work with legislative staff of the house of representatives and
34 senate transportation committees to review the requested transfers in
35 a timely manner.

36 (5) No fewer than ten days after the receipt of a project
37 transfer request, the director of the office of financial management
38 must provide written notification to the department of any decision
39 regarding project transfers, with copies submitted to the
40 transportation committees of the legislature.

18 those transportation bonds in a maximum amount equal to the amount of
19 such appropriation.

21 source of funding.

22 (2) To facilitate the report in subsection (1) of this section,

25 implement any transit, bicycle, or pedestrian project elements.

26 NEW SECTION. **Sec. 607. PROJECT SCOPE CHANGES**

28 delivering connecting Washington projects, it is necessary to create
29 a process for the department of transportation to request and receive

31 legislature is not in session. During the 2019-2021 fiscal biennium,
32 the director of the office of financial management may approve

27 speeds in the lane remain above forty-five miles per hour at least
28 ninety percent of the time during peak hours. The toll charge may
29 vary in amount by time of day, level of traffic congestion within the
30 highway facility, vehicle occupancy, or other criteria, as the
31 commission may deem appropriate. The commission may also vary toll
32 charges for single-occupant inherently low-emission vehicles such as
33 those powered by electric batteries, natural gas, propane, or other

5 (b) Effectiveness for transit;

6 (c) Person and vehicle movements by mode;

7 (d) Ability to finance improvements and transportation services
8 through tolls; and

9 (e) The impacts on all highway users. The department shall
10 analyze aggregate use data and conduct, as needed, separate surveys

12 socioeconomic, and demographic information within the corridor in
13 order to ascertain actual and perceived questions of equitable use of
14 the facility.

15 (4) The department shall modify the pilot project to address
16 identified safety issues and mitigate negative impacts to high
17 occupancy vehicle lane users.

18 (5) Authorization to impose high occupancy vehicle tolls for the
19 state route 167 high occupancy toll pilot project expires if either
20 of the following two conditions apply:

21 (a) If no contracts have been let by the department to begin
22 construction of the toll facilities associated with this pilot
23 project within four years of July 24, 2005; or

24 (b) If high occupancy vehicle tolls are being collected on June
25 30, (~~2019~~) 2021.

26 (6) The department of transportation shall adopt rules that allow
27 automatic vehicle identification transponders used for electronic
28 toll collection to be compatible with other electronic payment
29 devices or transponders from the Washington state ferry system, other
30 public transportation systems, or other toll collection systems to
31 the extent that technology permits.

32 (7) The conversion of a single existing high occupancy vehicle
33 lane to a high occupancy toll lane as proposed for SR-167 must be
34 taken as the exception for this pilot project.

35 (8) A violation of the lane restrictions applicable to the high
36 occupancy toll lanes established under this section is a traffic
37 infraction.

38 (9) Procurement activity associated with this pilot project shall
39 be open and competitive in accordance with chapter 39.29 RCW.

5 **Sec. 713.** RCW 41.45.0631 and 2009 c 561 s 7 are each amended to
6 read as follows:

7 (1) The allocation of costs between the employer and members of
8 the Washington state patrol retirement system shall be made only
9 after the application of any minimum total contribution rate that may
10 be in effect for the system under subsection (4) of this section. For
11 benefit improvements effective on or after July 1, 2007, costs shall
12 be shared equally by members and the employer, and any cap on member
13 contributions shall be adjusted accordingly. The member contribution
14 rate shall be based on the adjusted total contribution rate described
15 in subsection (2) of this section. Beginning July 1, 2007, the
16 required member contribution rate for members of the Washington state
17 patrol retirement system shall be the lesser of the following: (a)
18 One-half of the adjusted total contribution rate for the system; or

20 increase caused by any benefit improvements effective on or after
21 July 1, 2007.

22 (2) The employer shall continue to pay for all costs attributable
23 to distributions under RCW 43.43.270(2) for survivors of members who
24 became disabled under RCW 43.43.040(2) prior to July 1, 2006, until
25 such costs are fully paid. In order to avoid charging members for
26 these costs, the total required contribution rate shall be adjusted
27 to exclude these costs. The result of the adjustment shall be the
28 adjusted total contribution rate that is to be used to calculate the
29 required member contribution rate.

30 (3) The employer rate shall be the contribution rate required to
31 cover all total system costs that are not covered by the member
32 contribution rate.

33 (4) Beginning July 1, 2009, a minimum total contribution rate is
34 established for the Washington state patrol retirement system. The
35 total Washington state patrol retirement system contribution rate may

39 rate required to fund fifty percent of the Washington state patrol

1 retirement system's normal cost as calculated under the entry age
2 normal cost method. Beginning July 1, 2011, the minimum total
3 contribution rate shall equal the total contribution rate required to
4 fund seventy percent of the Washington state patrol retirement
5 system's normal cost as calculated under the entry age normal cost
6 method. This minimum rate, when applicable, shall be collected in
7 addition to any contribution rate required to amortize any unfunded
8 costs attributable to distributions under RCW 43.43.270(2) for
9 survivors of members who became disabled under RCW 43.43.040(2) prior
10 to July 1, 2006.

11 (5) Upon completion of each biennial actuarial valuation, the
12 state actuary shall review the appropriateness of this minimum total
13 contribution rate and recommend to the council any adjustments as may
14 be needed. Any changes adopted by the council shall be subject to
15 revision by the legislature.

16 (6) The legislature recognizes the short-term volatility of
17 projected employer contribution rates for the Washington state patrol
18 retirement system and intends to phase-in the increase in
19 contribution rates from the 2017-2019 biennium to the 2019-2021
20 biennium over three successive biennia. The phase-in shall be
21 calculated by the state actuary and shall not result in an expected
22 funding shortfall when measured over the entire phase-in period.
23 Consistent with this intent, the legislature revises the basic
24 employer contribution rate for the Washington state patrol retirement
25 system from 22.13 percent to 17.5 percent during the 2019-2021
26 biennium. By June 30, 2020, the state actuary shall calculate and
27 report to the council the expected change to the basic employer
28 contribution rates for the 2021-2023 and 2023-2025 biennia that
29 continue this phase-in.

16 (1) \$9,588,000 of the motor vehicle account—state appropriation
17 is provided solely for the development of the labor system
18 replacement project and is subject to the conditions, limitations,
19 and review provided in section 701, chapter 313, Laws of 2017. It is
20 the intent of the legislature that if any portion of the labor system
21 replacement project is leveraged in the future for the time, leave,
22 and labor distribution of any other agencies, the motor vehicle
23 account will be reimbursed proportionally for the development of the
24 system since amounts expended from the motor vehicle account must be
25 used exclusively for highway purposes in conformance with Article II,
26 section 40 of the state Constitution. This must be accomplished
27 through a loan arrangement with the current interest rate under the
28 terms set by the office of the state treasurer at the time the system
29 is deployed to additional agencies. If the motor vehicle account is
30 not reimbursed for future use of the system, it is further the intent
31 of the legislature that reductions will be made to central service
32 agency charges accordingly.

33 (2) \$2,296,000 of the motor vehicle account—state appropriation
34 is provided solely for the development of ferries network systems
35 support.

36 (3) \$365,000 of the motor vehicle account—state appropriation is

38 develop a plan, in consultation with the office of financial
39 management, and cost estimate to modernize and migrate the

29 competitive grants to public airports for pavement, safety, planning,
30 and security.

31 (2) The entire public use general aviation airport loan revolving

35 revitalization board.

36 ((+4)) (3) Within amounts appropriated in this section, the
37 department shall convene an electric aircraft work group to analyze

1 the state of the electrically powered aircraft industry and assess

4 (a) The work group must include, but is not limited to,
5 representation from the electric aircraft industry, the aircraft
6 manufacturing industry, electric utility districts, the battery

37 The appropriations in this section are subject to the following
38 conditions and limitations:

1 (1) \$300,000 of the motor vehicle account—state appropriation is
2 provided solely for the completion of property value determinations
3 for surplus properties to be sold. The value determinations must be
4 completed by agency staff if available; otherwise, the agency may
5 contract out for these services. The real estate services division of
6 the department must recover the cost of its efforts from the sale of
7 surplus property. Proceeds for surplus property sales must fund
8 additional future sales, and the real estate services division shall
9 prioritize staff resources to meet revenue assumptions for surplus
10 property sales.

11 (2) The legislature recognizes that the trail known as the Rocky
12 Reach Trail, and its extensions, serve to separate motor vehicle
13 traffic from pedestrians and bicyclists, increasing motor vehicle
14 safety on state route number 2 and the coincident section of state
15 route number 97. Consistent with chapter 47.30 RCW and pursuant to
16 RCW 47.12.080, the legislature declares that transferring portions of
17 WSDOT Inventory Control (IC) No. 2-09-04686 containing the trail and
18 associated buffer areas to the Washington state parks and recreation
19 commission is consistent with the public interest. The legislature
20 directs the department to transfer the property to the Washington
21 state parks and recreation commission.

22 (a) The department must be paid fair market value for any
23 portions of the transferred real property that is later abandoned,
24 vacated, or ceases to be publicly maintained for trail purposes.

25 (b) Prior to completing the transfer in this subsection (2), the
26 department must ensure that provisions are made to accommodate
27 private and public utilities and any facilities that predate the
28 department's acquisition of the property, at no cost to those
29 entities. Prior to completing the transfer, the department shall also
30 ensure that provisions, by fair market assessment, are made to
31 accommodate other private and public utilities and any facilities
32 that have been legally allowed by permit or other instrument.

33 (c) The department may sell any adjoining property that is not
34 necessary to support the Rocky Reach Trail and adjacent buffer areas
35 only after the transfer of trail-related property to the Washington
36 state parks and recreation commission is complete. Adjoining property
37 owners must be given the first opportunity to acquire such property
38 that abuts their property, and applicable boundary line or other
39 adjustments must be made to the legal descriptions for recording
40 purposes.

1 (3) With respect to Parcel 12 of the real property conveyed by
2 the state of Washington to the city of Mercer Island under that
3 certain quitclaim deed, dated April 19, 2000, recorded in King county
4 under recording no. 20000425001234, the requirement in the deed that
5 the property be used for road/street purposes only will be deemed
6 satisfied by the department of transportation so long as commuter
7 parking, as part of the vertical development of the property, is one
8 of the significant uses of the property.

26 private partnership to rebuild the Anacortes ferry terminal. The
27 public-private partnerships program shall issue a request for letters
28 of interest, similar to the request issued in 2009, in a public-
29 private partnership to rebuild the Anacortes ferry terminal by
30 combining the ferry terminal functions and structure with one or more
31 commercial ventures, including, but not limited to, ventures to
32 provide lodging, conference and meeting facilities, food service,
33 shopping, or other retail operations. The public-private partnerships
34 program shall notify the transportation committees of the legislature
35 upon release of the request for letters of interest and shall provide
36 the transportation committees of the legislature with a summary of
37 the information collected once the letters of interest have been
38 received.

2 account—state appropriation is provided solely for the purpose of
3 capitalizing the Washington electric vehicle infrastructure bank as
4 provided in chapter 44, Laws of 2015 3rd sp. sess. (transportation
5 revenue). The department may spend no more than one million dollars
6 from the electric vehicle charging infrastructure account during the
7 four-year period of the 2015-2017 and 2017-2019 fiscal biennia.

8 (3) The economic partnerships program must continue to explore
9 retail partnerships at state-owned park and ride facilities, as
10 authorized in RCW 47.04.295.

11 (4) \$500,000 of the multimodal transportation account—state
12 appropriation is provided solely to study public-private partnership
13 alternatives for the financing and construction of an entry building
14 located at Colman Dock.

15 (a) As part of the study, the public-private partnerships program
16 must work with the city of Seattle, Native American tribes, and local
17 community groups to evaluate the efficacy of contracting with a
18 private entity to participate in the construction of the Colman Dock
19 entry building. The study must:

20 (i) Identify and discuss options to construct the facility as
21 currently scoped;

22 (ii) Identify and discuss options, including rescoping the
23 current design of the facility for purposes of providing a project
24 that has the potential to increase economic development activities
25 along the Seattle waterfront area, such as through the inclusion of
26 office space and restaurants;

27 (iii) Consider concepts and options found in the design
28 development described in the 2013-2015 capital budget (chapter 19,
29 Laws of 2013 2nd sp. sess.), including connections to Pier 48 as a
30 future public park;

31 (iv) Consider rooftop public access for panoramic views of the
32 Puget Sound and Olympic mountains; and

33 (v) Consider exhibits of the history and heritage of the
34 vicinity.

35 (b) By November 15, 2017, the public-private partnerships program
36 must provide a report to the governor and the transportation
37 committees of the legislature on the program's findings and
38 recommendations.

1 (5) \$75,000 of the multimodal transportation account—state
2 appropriation is provided solely for the department to contract with
3 the Puget Sound Clean Air Agency to conduct a study that identifies
4 and evaluates opportunities to facilitate low-income utilization of
5 electric vehicles. The study must include, but is not limited to,
6 development and evaluation of an electric vehicle car-sharing program
7 for low-income housing sites that is designed to maximize the use of
8 electric vehicles by residents of these sites, and that must consider
9 any infrastructure needs that will need to be met to support the use
10 of electric vehicles at these sites. The department must provide a
11 report detailing the findings of this study to the transportation
12 committees of the legislature by December 1, 2018.

38 conditions and limitations:

1 (1) \$6,000,000 of the motor vehicle account—state appropriation
2 is provided solely for low-cost enhancements. The department shall

4 provide congestion relief. By December 15th of each odd-numbered
5 year, the department shall provide a report to the legislature
6 listing all low-cost enhancement projects completed in the prior
7 fiscal biennium.

8 (2) When regional transit authority construction activities are
9 visible from a state highway, the department shall allow the regional
10 transit authority to place safe and appropriate signage informing the
11 public of the purpose of the construction activity.

12 (3) The department must make signage for low-height bridges a
13 high priority.

14 (4) \$50,000 of the motor vehicle account—state appropriation is
15 provided solely for the department to coordinate with the appropriate

18 the Idaho state border.

19 (5) (a) During the 2017-2019 fiscal biennium, the department shall
20 continue a pilot program that expands private transportation
21 providers' access to high occupancy vehicle lanes. Under the pilot
22 program, when the department reserves a portion of a highway based on
23 the number of passengers in a vehicle, the following vehicles must be
24 authorized to use the reserved portion of the highway if the vehicle
25 has the capacity to carry eight or more passengers, regardless of the
26 number of passengers in the vehicle: (i) Auto transportation company
27 vehicles regulated under chapter 81.68 RCW; (ii) passenger charter
28 carrier vehicles regulated under chapter 81.70 RCW, except marked or
29 unmarked stretch limousines and stretch sport utility vehicles as
30 defined under department of licensing rules; (iii) private nonprofit
31 transportation provider vehicles regulated under chapter 81.66 RCW;
32 and (iv) private employer transportation service vehicles. For
33 purposes of this subsection, "private employer transportation

1 (b) The department shall expand the high occupancy vehicle lane
2 access pilot program to vehicles that deliver or collect blood,
3 tissue, or blood components for a blood-collecting or distributing
4 establishment regulated under chapter 70.335 RCW. Under the pilot
5 program, when the department reserves a portion of a highway based on
6 the number of passengers in a vehicle, blood-collecting or

16 pilot program, when the department reserves a portion of a highway
17 based on the number of passengers in a vehicle, wheelchair-accessible
18 taxicabs that are clearly and identifiably marked as such on all
19 sides of the vehicle are considered public transportation vehicles
20 and must be authorized to use the reserved portion of the highway.

21 (d) Nothing in this subsection (5) is intended to exempt these
22 vehicles from paying tolls when they do not meet the occupancy
23 requirements established by the department for high occupancy toll
24 lanes.

37 conditions and limitations:

1 (1) \$1,500,000 of the motor vehicle account—state appropriation
2 is provided solely for a grant program that makes awards for the
3 following: (a) Support for nonprofit agencies, churches, and other
4 entities to help provide outreach to populations underrepresented in
5 the current apprenticeship programs; (b) preapprenticeship training;
6 and (c) child care, transportation, and other supports that are
7 needed to help women, veterans, and minorities enter and succeed in
8 apprenticeship. The department must report on grants that have been
9 awarded and the amount of funds disbursed by December 1, 2017, and
10 annually thereafter.

11 (2) \$300,000 of the motor vehicle account—state appropriation is
12 provided solely for succession planning and leadership training. The
13 department shall report on the implementation of these activities to

16 (3) From the revenues generated by the five dollar per studded
17 tire fee under RCW 46.37.427, \$150,000 of the motor vehicle account—
18 state appropriation is provided solely for the department, in
19 consultation with the appropriate local jurisdictions and relevant
20 stakeholder groups, to establish a pilot media-based public
21 information campaign regarding the damage of studded tire use on
22 state and local roadways in Spokane county. The reason for the
23 geographic selection of Spokane county for the pilot is based on the
24 high utilization of studded tires in this jurisdiction. The public
25 information campaign must primarily focus on making the consumer
26 aware of the road deterioration, financial impact for taxpayers, the
27 safety implications for other drivers, and, secondarily, the
28 alternatives to studded tires. The pilot must begin by September 1,
29 2018. By January 14, 2019, the department shall provide the
30 transportation committees of the legislature an update on the pilot
31 public information program. It is the intent of the legislature that
32 the public information campaign will be a two-year pilot program with

20 (2) \$100,000 of the motor vehicle account—state appropriation and
21 \$250,000 of the motor vehicle account—federal appropriation are
22 provided solely for a study that details a cost estimate for
23 replacing the westbound U.S. 2 trestle and recommends a series of
24 financing options to address that cost and to satisfy debt service
25 requirements.

26 In conducting the study, the department shall work in close
27 collaboration with a stakeholder group that includes, but is not
28 limited to, Snohomish county, the port of Everett, economic alliance
29 Snohomish county, the cities of Everett, Lake Stevens, Marysville,
30 Snohomish, and Monroe, and affected transit agencies.

31 The department shall quantify both the cost of replacing the
32 westbound trestle structure and making mobility and capacity
33 improvements to maximize the use of the structure in the years
34 leading up to full replacement. Financing options that should be
35 examined and quantified include public-private partnerships, public-
36 public partnerships, a transportation benefit district tailored to
37 the specific incorporated and unincorporated area, loans and grants,
38 and other alternative financing measures available at the state or
39 federal level.

1 The department shall also evaluate ways in which the costs of
2 alternative financing can be debt financed.

3 The department shall complete the study and submit a final report
4 and recommendations to the transportation committees of the
5 legislature, including recommendations on statutory changes needed to
6 implement available financing options, by January 8, 2018.

22 provided solely for implementation of a state route number 518
23 corridor study to be conducted in partnership with the Port of
24 Seattle, Sound Transit and other regional entities. The department
25 must study practical solutions to address high vehicle volumes and
26 delays in the corridor including evaluation of solutions to the rapid
27 growth of traffic in the corridor and how that growth impacts access
28 to the Seattle-Tacoma international airport and the surrounding
29 communities. (~~The study must be submitted to the transportation~~
30 ~~committees of the legislature by June 30, 2019.~~)

31 (6) (~~(\$500,000)~~) \$370,000 of the motor vehicle account—state
32 appropriation and \$50,000 of the motor vehicle account—local

36 strategies from the corridor sketch, and identify potential US
37 101/I-5 interchange improvements, a strategic plan for the Nisqually
38 River bridges, regional congestion relief options, and ecosystem

1 benefits to the Nisqually River estuary for salmon productivity and
2 flood control.

3 (7) Among the options studied as part of the SR 410 Corridor
4 Study, the department shall examine the mobility and safety benefits
5 of replacing or expanding the White River bridge between Enumclaw and
6 Buckley to four lanes and removing the trestle.

7 (8) Within existing resources, the department shall meet with
8 local stakeholders in south Pierce county and North Thurston county
9 to discuss potential solutions to traffic congestion; emergency
10 management concerns regarding routes away from natural disasters and
11 around incidents similar to the train derailment that occurred on
12 December 18, 2017; and what state transportation investments would
13 benefit the economic development of the area. The department shall
14 provide regular updates on its progress to the joint transportation
15 committee.

39 Public Transportation - 2015" published by the department of

1 transportation. No transit agency may receive more than thirty

13 hired from the funds provided in this section for the vanpool grant
14 program, and supplanting of transit funds currently funding vanpools
15 is not allowed. The department shall encourage grant applicants and
16 recipients to leverage funds other than state funds.

17 (b) At least \$1,600,000 of the amount provided in this subsection

33 department shall review all projects receiving grant awards under
34 this program at least semiannually to determine whether the projects
35 are making satisfactory progress. Any project that has been awarded
36 funds, but does not report activity on the project within one year of
37 the grant award, must be reviewed by the department to determine
38 whether the grant should be terminated. The department shall promptly
39 close out grants when projects have been completed, and any remaining

1 funds must be used only to fund projects identified in the LEAP
2 transportation document referenced in this subsection. The department
3 shall provide annual status reports on December 15, 2017, and
4 December 15, 2018, to the office of financial management and the
5 transportation committees of the legislature regarding the projects
6 receiving the grants. It is the intent of the legislature to

32 appropriation are provided solely for CTR grants and activities. Of
33 this amount:

34 (a) \$500,000 of the multimodal transportation account—state

12 program for a fifty percent rebate on the cost of employee transit
13 subsidies provided through the regional ORCA fare collection system.
14 No single business or nonprofit organization may receive more than
15 ten thousand dollars from the program.

16 (i) Businesses and nonprofit organizations may apply and be

34 identified to receive funding in the LEAP document referenced in this
35 subsection receive the amounts specified in the time frame specified
36 in that LEAP document. If an entity has already completed a project
37 in the LEAP document referenced in this subsection before the time
38 frame identified, the entity may substitute another transit project
39 or projects that cost a similar or lesser amount.

1 (9) \$2,000,000 of the multimodal transportation account—state
2 appropriation is provided solely for transit coordination grants.

3 (10) \$250,000 of the multimodal transportation account—state
4 appropriation is provided solely for King county for a pilot program

6 school districts with an ORCA card during the summer. To be eligible
7 for an ORCA card under this program, a student must also be in high
8 school, be eligible for free and reduced-price lunches, and have a
9 job or other responsibility during the summer. King county must
10 provide a report to the department and the transportation committees
11 of legislature by December 15, 2018, regarding: The annual student
12 usage of the pilot program, available ridership data, the cost to
13 expand the program to other King county school districts, the cost to
14 expand the program to student populations other than high school or
15 eligible for free and reduced-price lunches, opportunities for
16 subsidized ORCA cards or local grant or matching funds, and any
17 additional information that would help determine if the pilot program
18 should be extended or expanded.

19 (11) The department shall not require more than a ten percent
20 match from nonprofit transportation providers for state grants.

21 (12)(a) For projects funded as part of the 2015 connecting
22 Washington transportation package listed on the LEAP transportation
23 document identified in subsection (4) of this section, if the
24 department expects to have substantial reappropriations for the
25 2019-2021 fiscal biennium, the department may, on a pilot basis,
26 apply funding from a project with an appropriation that cannot be
27 used for the current fiscal biennium to advance one or more of the

3 2019-2021 fiscal biennium.

4 (13) \$300,000 of the multimodal transportation account—state
5 appropriation is provided solely for Pierce Transit to procure and

20 transportation metrics and financial reporting; develop and implement
21 an inventory of county culvert and short-span bridge infrastructure;
22 and develop and implement enhanced road safety data in support of
23 county road systemic safety programs. The Washington state
24 association of counties must develop and implement data collection,
25 management, and reporting in cooperation with state agencies involved
26 with the collection and maintenance of related inventory systems.

18 the legislature, the department of transportation shall participate
19 in work sessions, before the transportation committees of the house
20 of representatives and senate, on the Alaskan Way viaduct replacement
21 project. These work sessions must include a report on current
22 progress of the project, timelines for completion, outstanding
23 claims, the financial status of the project, and any other
24 information necessary for the legislature to maintain appropriate
25 oversight of the project. The parties invited to present may include
26 the department of transportation, the Seattle tunnel partners, and
27 other appropriate stakeholders.

3 project (8BI1002). This project must be completed as soon as
4 practicable as a design-build project. Any future savings on this
5 project or other Interstate 405 corridor projects must stay on the
6 Interstate 405 corridor and be made available to either the I-405/SR
7 167 Interchange - Direct Connector project (140504C), the I-405
8 Renton to Bellevue project (M00900R), or the I-405/SR 522 to I-5
9 Capacity Improvements project (L2000234) in the 2017-2019 fiscal
10 biennium.

11 (15) \$4,960,000 of the transportation partnership account—state
12 appropriation and \$3,000,000 of the Interstate 405 express toll lanes
13 operations account—state appropriation are provided solely for the

15 activities related to adding capacity on Interstate 405 between state
16 route number 522 and Interstate 5, with the goals of increasing
17 vehicle throughput and aligning project completion with the
18 implementation of bus rapid transit in the vicinity of the project.
19 The transportation partnership account—state appropriation funding is
20 a transfer or a reappropriation of a transfer from the I-405/Kirkland
21 Vicinity Stage 2 - Widening project due to savings, and will start an
22 additional phase of this I-405 project.

23 (16)(a) The SR 520 Bridge Replacement and HOV project (8BI1003)
24 is supported over time from multiple sources, including a
25 \$300,000,000 TIFIA loan, \$924,615,000 in Garvee bonds, toll revenues,
26 state bonds, interest earnings, and other miscellaneous sources.

27 (b) (~~(\$78,958,000)~~) \$49,353,000 of the transportation partnership
28 account—state appropriation, \$12,296,000 of the motor vehicle account
29 —federal appropriation, and (~~(\$232,000)~~) \$50,000 of the motor vehicle
30 account—local appropriation are provided solely for the SR 520 Bridge
31 Replacement and HOV project (8BI1003).

32 (c) When developing the financial plan for the project, the
33 department shall assume that all maintenance and operation costs for
34 the new facility are to be covered by tolls collected on the toll
35 facility and not by the motor vehicle account.

36 (17) The department shall itemize all future requests for the
37 construction of buildings on a project list and submit them through
38 the transportation executive information system as part of the
39 department's annual budget submittal. It is the intent of the

1 legislature that new facility construction must be transparent and
2 not appropriated within larger highway construction projects.

3 (18) Any advisory group that the department convenes during the
4 2017-2019 fiscal biennium must consider the interests of the entire
5 state of Washington.

6 (19) It is the intent of the legislature that for the I-5 JBLM
7 Corridor Improvements project (M00100R), the department shall
8 actively pursue \$50,000,000 in federal funds to pay for this project
9 to supplant state funds in the future. \$50,000,000 in connecting
10 Washington account funding must be held in unallotted status during
11 the 2021-2023 fiscal biennium. These funds may only be used after the
12 department has provided notice to the office of financial management
13 that it has exhausted all efforts to secure federal funds from the
14 federal highway administration and the department of defense.

15 (20) (~~(\$93,651,000)~~) \$133,651,000 of the connecting Washington
16 account—state appropriation is provided solely for the SR 167/SR 509
17 Puget Sound Gateway project (M00600R).

18 (a) Any savings on the project must stay on the Puget Sound
19 Gateway corridor until the project is complete.

20 (b) Proceeds from the sale of any surplus real property acquired
21 for the purpose of building the SR 167/SR 509 Puget Sound Gateway
22 (M00600R) project must be deposited into the motor vehicle account
23 for the purpose of constructing the project.

24 (21)(a) In making budget allocations to the Puget Sound Gateway
25 project, the department shall implement the project's construction as
26 a single corridor investment. The department shall develop a
27 coordinated corridor construction and implementation plan for state
28 route number 167 and state route number 509 in collaboration with
29 affected stakeholders. Specific funding allocations must be based on
30 where and when specific project segments are ready for construction
31 to move forward and investments can be best optimized for timely
32 project completion. Emphasis must be placed on avoiding gaps in fund
33 expenditures for either project.

34 (b) The secretary of transportation must develop a memorandum of
35 understanding with local project stakeholders that identifies a
36 schedule for stakeholders to provide local matching funds for the
37 Puget Sound Gateway project. Criteria for eligibility of local match
38 includes matching funds and equivalent in-kind contributions
39 including, but not limited to, land donations. The memorandum of
40 understanding must be finalized by July 1, 2018. The department must

1 submit a copy of the memorandum of understanding to the
2 transportation committees of the legislature and report regularly on
3 the status of the requirements outlined in this subsection (21)(b)
4 and (c) of this subsection.

5 (c) During the course of developing the memorandum of
6 understanding, the department must evaluate the project schedules to
7 determine if there are any benefits to be gained by moving the
8 project schedule forward. It is the legislature's intent that if the
9 department identifies any savings after the funding gap on the base
10 project is closed as part of the proposal to expedite the project,
11 that these cost savings shall go toward construction of a full
12 single-point urban interchange at the junction of state route number
13 161 (Meridian avenue) and state route number 167 and a full single-
14 point urban interchange at the junction of state route number 509 and
15 188th Street. If the department receives additional funds from an
16 outside source for this project after the funding gap on the base
17 project is closed, the funds must be applied toward the completion of
18 these two full single-point urban interchanges.

19 (d) For the SR 167/SR 509 Puget Sound Gateway project (M00600R)
20 the department is strongly encouraged to work to relocate any
21 significant businesses currently located within the planned path of
22 the state route number 509/Interstate 5 under-crossing to a location
23 within the Kent city limits. The department shall provide regular
24 updates on its progress to the joint transportation committee and
25 affected stakeholders.

26 (e) In designing the state route number 509/state route number
27 516 interchange component of the SR 167/SR 509 Puget Sound Gateway
28 project (M00600R), the department shall make every effort to utilize
29 the preferred "4B" design.

30 (22) It is the intent of the legislature that, for the I-5/North
31 Lewis County Interchange project (L2000204), the department develop
32 and design the project with the objective of significantly improving
33 access to the industrially zoned properties in north Lewis
34 county. The design must consider the county's process of
35 investigating alternatives to improve such access from Interstate 5
36 that began in March 2015.

37 (23)(a) (~~(\$2,000,000)~~) \$1,050,000 of the transportation
38 partnership account—state appropriation and \$942,000 of the motor
39 vehicle account—state appropriation are provided solely for the U.S.
40 2 Trestle IJR project (L1000158).

1 (b) Of the amounts provided in this subsection, \$942,000 of the
2 motor vehicle account—state appropriation is provided solely for the
3 department to complete an interchange justification report (IJR) for
4 the U.S. 2 trestle, covering the state route number 204 and 20th
5 Street interchanges at the end of the westbound structure.

6 ~~((a))~~ (c) The department shall develop the IJR in close
7 collaboration with affected local jurisdictions, including Snohomish
8 county and the cities of Everett, Lake Stevens, Marysville,
9 Snohomish, and Monroe.

10 ~~((b))~~ (d) Within the amount provided for the IJR, the
11 department must address public outreach and the overall operational
12 approval of the IJR.

13 ~~((c))~~ (e) The department shall complete the IJR and submit the
14 final report to the governor and the transportation committees of the
15 legislature by July 1, 2018.

16 (24)(a) The legislature recognizes that the city of Mercer Island
17 has unique access issues that require the use of Interstate 90 to
18 leave the island and that this access may be affected by the I-90/
19 Two-Way Transit and HOV Improvements project. One of the most heavily
20 traveled on-ramps from Mercer Island to the westbound Interstate 90
21 general purpose lanes is from Island Crest Way. The department must
22 continue to consult with the city of Mercer Island and the other
23 signatories to the 1976 memorandum of agreement to preserve access
24 provided to Mercer Island by the Island Crest Way on-ramp, and thus
25 grandfather in the current use of the on-ramp for both high occupancy
26 vehicles as well as vehicles seeking to access the general purpose
27 lanes of Interstate 90. The department must consider all reasonable
28 access solutions, including allowing all vehicles to use the Island
29 Crest Way on-ramp to access the new high occupancy vehicle lane with
30 a reasonable and safe distance provided for single-occupancy vehicles
31 to merge into the general purpose lanes.

32 (b) A final access solution for Mercer Island must consider the
33 following criteria: Safety; operational effects on all users,
34 including maintaining historic access to Interstate 90 provided from
35 Mercer Island by Island Crest Way; enforcement requirements; and
36 compliance with state and federal law.

37 (c) The department may not restrict by occupancy the westbound
38 on-ramp from Island Crest Way until a final access solution that
39 meets the criteria in (b) of this subsection has been reached.

1 (25) (~~(\$3,258,000)~~) \$3,222,000 of the Interstate 405 express toll
2 lanes operations account—state appropriation is provided solely for
3 the I-405 NB Hard Shoulder Running - SR 527 to I-5 project
4 (L1000163).

5 (26) The legislature finds that there are sixteen companies
6 involved in wood preserving in the state that employ four hundred
7 workers and have an annual payroll of fifteen million dollars. Before
8 the department's switch to steel guardrails, ninety percent of the
9 twenty-five hundred mile guardrail system was constructed of
10 preserved wood and one hundred ten thousand wood guardrail posts were
11 produced annually for state use. Moreover, the policy of using steel
12 posts requires the state to use imported steel. Given these findings,
13 where practicable, and until June 30, 2019, the department shall
14 include the design option to use wood guardrail posts, in addition to
15 steel posts, in new guardrail installations. The selection of posts
16 must be consistent with the agency design manual policy that existed
17 before December 2009.

18 (27) For the SR 526 Corridor Improvements project (N52600R), the
19 department shall look holistically at the state route number 526
20 corridor from the state route number 526/Interstate 5 interchange at
21 the east end to the southwest Everett industrial area and Boeing's
22 west access road on the west end. The department, working with
23 affected jurisdictions and stakeholders, shall select project
24 elements that best maximize mobility and congestion relief in the
25 corridor and draw from project elements identified in a practical
26 solutions process.

27 (28)(a) For projects funded as part of the 2015 connecting
28 Washington transportation package listed on the LEAP transportation
29 document identified in subsection (1) of this section, if the
30 department expects to have substantial reappropriations for the
31 2019-2021 fiscal biennium, the department may, on a pilot basis,
32 apply funding from a project with an appropriation that cannot be
33 used for the current fiscal biennium to advance one or more of the
34 following projects:

- 35 (i) SR 20/Sharpes Corner Vicinity Intersection (L1000112);
- 36 (ii) I-5/Marvin Road/SR 510 Interchange (L1100110);
- 37 (iii) I-5/Northbound On-ramp at Bakerview (L2000119);
- 38 (iv) US 395/Ridgeline Intersection (L2000127);
- 39 (v) I-90/Eastside Restripe Shoulders (L2000201);
- 40 (vi) SR 240/Richland Corridor Improvements (L2000202);

- 1 (vii) SR 14/Bingen Overpass (L2220062);
- 2 (viii) US Hwy 2 Safety (N00200R);
- 3 (ix) SR 520/148th Ave NE Overlake Access Ramp (L1100101);
- 4 (x) SR 28/SR 285 North Wenatchee Area Improvements (L2000061);
- 5 (xi) I-5/Rebuild Chamber Way Interchange Improvements (L2000223);
- 6 (xii) SR 28 East Wenatchee Corridor Improvements (T10300R);
- 7 (xiii) SR 3 Freight Corridor (T30400R); or
- 8 (xiv) SR 510/Yelm Loop Phase 2 (T32700R).

9 (b) At least ten business days before advancing a project
10 pursuant to this subsection, the department must notify the office of
11 financial management and the transportation committees of the
12 legislature. The advancement of a project may not hinder the delivery
13 of the projects for which the reappropriations are necessary for the
14 2019-2021 fiscal biennium.

15 (29) Within existing resources and in consultation with local
16 communities, the department shall begin planning efforts, including
17 traffic data collection, analysis and evaluation, scoping, and
18 environmental review, for roundabouts at the intersection of state
19 route number 900 and SE May Valley Road and at the intersection of
20 state route number 169 and Cedar Grove Road SE.

21 (30) The legislature continues to prioritize the replacement of
22 the state's aging infrastructure and recognizes the importance of
23 reusing and recycling construction aggregate and recycled concrete
24 materials in our transportation system.

25 To accomplish Washington state's sustainability goals in
26 transportation and in accordance with RCW 70.95.805, the legislature
27 reaffirms its direction to the department to lead the way in
28 advancing the reuse and recycling of construction aggregate and
29 recycled concrete materials whenever readily available, to use these
30 recycled products when cost competitive, and to work with industry
31 implementation partners to remove obstacles that unnecessarily
32 preclude or inhibit their use and implement strategies for the reuse
33 and recycling of construction aggregate and recycled concrete
34 materials.

35 Specific steps and efforts made to achieve these objectives and
36 accomplishments shall be included in the annual report to the
37 legislature as required by RCW 70.95.807.

38 (31) Within existing resources, the department shall implement a
39 safety solution after evaluating barrier and mitigation options on
40 state route number 167 between the intersections with 50th Ave E and

1 E 40th Street in Pierce county to prevent vehicles from leaving the
2 roadway and entering private property below the grade of the highway.

3 (32) \$350,000 of the motor vehicle account—state appropriation is
4 provided solely for implementation of chapter 288 (Substitute Senate
5 Bill No. 5806), Laws of 2017 (I-5 Columbia river bridge), listed as
6 Replacement Bridge on Interstate 5 across the Columbia River project
7 number (L2000259).

8 (33) For the SR 520 Seattle Corridor Improvements - West End
9 project (M00400R), the legislature recognizes the department must
10 acquire the entirety of parcel number 1-23190 for construction of the
11 project. The department shall work with its design-build contractor
12 to ensure to the maximum extent practicable that the building housing
13 any grocery store or market currently located on parcel number
14 1-23190 will be preserved. The legislature recognizes the city of
15 Seattle has requirements in the project area that the department must
16 address and that those requirements may affect the use of parcel
17 number 1-23190 and may affect the ability of the department to
18 preserve any grocery store or market currently located on the
19 property. The department shall meet and confer regularly with
20 residents in the vicinity of the parcel regarding the status of the
21 project and its effects on any grocery store or market currently
22 located on the property. The legislature strongly encourages the city
23 to utilize maximum flexibility in how the department meets the city's
24 requirements and to be an equal partner in efforts to preserve any
25 grocery store or market on parcel number 1-23190.

24 ((601 of this act)) 601 of this act, chapter . . ., Laws of 2019
25 (this act).

37 efficiencies, adjustments to the federal funds forecast, additional
38 congressional action not related to a specific project or purpose, or

1 the federal funds redistribution process must then be applied to
2 highway and bridge preservation activities.

3 (4) Within the motor vehicle account—state appropriation and
4 motor vehicle account—federal appropriation, the department may

19 provided in section 701, chapter 313, Laws of 2017. The land mobile
20 radio project is subject to technical oversight by the office of the
21 chief information officer. The department, in collaboration with the
22 office of the chief information officer, shall identify where
23 existing or proposed mobile radio technology investments should be
24 consolidated, identify when existing or proposed mobile radio
25 technology investments can be reused or leveraged to meet multiagency
26 needs, increase mobile radio interoperability between agencies, and
27 identify how redundant investments can be reduced over time. The
28 department shall also provide quarterly reports to the technology
29 services board on project progress.

30 (8) (~~(\$3,000,000)~~) \$5,000,000 of the motor vehicle account—state

34 provided in this subsection must be held in unallotted status until
35 the department submits a request to the office of financial
36 management that includes documentation detailing litigation-related
37 expenses. The office of financial management may release the funds
38 only when it determines that all other funds designated for
39 litigation awards, settlements, and dispute mitigation activities

1 have been exhausted. No funds provided in this subsection may be
2 expended on any legal fees related to the SR 99/Alaskan Way viaduct
3 replacement project.

4 (9) \$20,755,000 of the motor vehicle account—federal
5 appropriation and \$844,000 of the motor vehicle account—state

9 around the state of Washington. When practicable, the department
10 shall pursue design-build contracts for these bridge projects to
11 expedite delivery. The department shall provide a report that
12 identifies the progress of each project funded in this subsection as
13 part of its annual agency budget request.

14 (10) The appropriation in this section includes funding for
15 starting planning, engineering, and construction of the Elwha River
16 bridge replacement. To the greatest extent practicable, the
17 department shall maintain public access on the existing route.

18 (11) (a) \$9,014,000 of the motor vehicle account—federal
19 appropriation and \$217,000 of the motor vehicle account—state
20 appropriation are provided solely for weigh station preservation
21 (OBP3006). These amounts must be held in unallotted status, except

29 and construction and must also consider the timing of any available
30 funding for weigh station projects.

31 (12) The department must consult with the Washington state patrol
32 and the office of financial management during the design phase of any
33 improvement or preservation project that could impact Washington
34 state patrol weigh station operations. During the design phase of any
35 such project, the department must estimate the cost of designing
36 around the affected weigh station's current operations, as well as
37 the cost of moving the affected weigh station.

38 (13) During the course of any planned resurfacing or other
39 preservation activity on state route number 26 between Colfax and

1 Othello in the 2017-2019 fiscal biennium, the department must add
2 dug-in reflectors.

3 (14) The department shall continue to monitor the test patch of
4 pavement that used electric arc furnace slag as an aggregate and
5 report back to the legislature by December 1, 2018, on its
6 comparative wear resistance, skid resistance, and feasibility for use
7 throughout the state in new pavement construction.

8 (15) For projects funded as part of the 2015 connecting
9 Washington transportation package listed on the LEAP transportation
10 document identified in subsection (1) of this section, if the
11 department expects to have substantial reappropriations for the
12 2019-2021 fiscal biennium, the department may, on a pilot basis,
13 apply funding from a project with an appropriation that cannot be
14 used for the current fiscal biennium to advance the US 12/Wildcat
15 Bridge Replacement project (L2000075). At least ten business days
16 before advancing the project pursuant to this subsection, the
17 department must notify the office of financial management and the
18 transportation committees of the legislature. The advancement of the
19 project may not hinder the delivery of the projects for which the
20 reappropriations are necessary for the 2019-2021 fiscal biennium.

21 (16) Within the connecting Washington account—state
22 appropriation, the department may transfer funds from Highway System
23 Preservation (L1100071) to other preservation projects listed in the
24 LEAP transportation document identified in subsection (1) of this
25 section, if it is determined necessary for completion of these high
26 priority preservation projects. The department's next budget
27 submittal after using this subsection must appropriately reflect the
28 transfer.

22 replacement vessels, such as passenger and car-carrying capacity,
23 while taking into consideration other cost-driving factors. These
24 factors should include:

25 (A) Anticipated crewing requirements;

26 (B) Fuel type;

27 (C) Other operating and maintenance costs;

13 contracting to be repaid in whole or in part by fuel-cost savings.
14 The department will report total capital cost estimates, optimal
15 construction schedule, annual capital and operating savings or costs,
16 and a recommended funding option to the governor and to the
17 transportation committees of the legislature by June 30, 2019.

33		<u>\$124,238,000</u>

34 The appropriations in this section are subject to the following
35 conditions and limitations:

36 (1) Except as provided otherwise in this section, the entire
37 appropriations in this section are provided solely for the projects
38 and activities as listed by project and amount in LEAP Transportation

1 Document ((2018)) 2019-2 ALL PROJECTS as developed March ((5)) 26,

5 low-interest loans approved by the department through the freight
6 rail investment bank (FRIB) program. The department shall issue FRIB
7 program loans with a repayment period of no more than ten years, and
8 charge only so much interest as is necessary to recoup the
9 department's costs to administer the loans. The department shall
10 report annually to the transportation committees of the legislature
11 and the office of financial management on all FRIB loans issued.

12 (3) \$7,017,000 of the multimodal transportation account—state
13 appropriation and \$24,000 of the essential rail assistance account—
14 state appropriation are provided solely for new statewide emergent
15 freight rail assistance projects identified in the LEAP
16 transportation document referenced in subsection (1) of this section.

17 (4) \$367,000 of the transportation infrastructure account—state
18 appropriation and \$1,100,000 of the multimodal transportation account
19 —state appropriation are provided solely to reimburse Highline Grain,
20 LLC for approved work completed on Palouse River and Coulee City
21 (PCC) railroad track in Spokane county between the BNSF Railway
22 Interchange at Cheney and Geiger Junction and must be administered in
23 a manner consistent with freight rail assistance program projects.
24 The value of the public benefit of this project is expected to meet
25 or exceed the cost of this project in: Shipper savings on
26 transportation costs; jobs saved in rail-dependent industries; and/or
27 reduced future costs to repair wear and tear on state and local
28 highways due to fewer annual truck trips (reduced vehicle miles
29 traveled). The amounts provided in this subsection are not a
30 commitment for future legislatures, but it is the legislature's
31 intent that future legislatures will work to approve biennial
32 appropriations until the full \$7,337,000 cost of this project is
33 reimbursed.

34 (5) (a) \$686,000 of the essential rail assistance account—state
35 appropriation, \$422,000 of the multimodal transportation account—
36 state appropriation, and \$21,000 of the transportation infrastructure

38 the rehabilitation and maintenance of the Palouse river and Coulee
39 City railroad line (F01111B).

1 (b) Expenditures from the essential rail assistance account—state
2 in this subsection may not exceed the combined total of:

3 (i) Revenues and transfers deposited into the essential rail

11 freight rail assistance program, and shall evaluate the applications
12 in a manner consistent with past practices as specified in section
13 309, chapter 367, Laws of 2011. By November 15, 2018, the department
14 shall submit a prioritized list of recommended projects to the office
15 of financial management and the transportation committees of the
16 legislature.

17 (7) For projects funded as part of the 2015 connecting Washington
18 transportation package identified on the LEAP transportation document
19 identified in subsection (1) of this section, if the department
20 expects to have substantial reappropriations for the 2019-2021 fiscal
21 biennium, the department may, on a pilot basis, apply funding from a
22 project with an appropriation that cannot be used for the current
23 fiscal biennium to advance the South Kelso Railroad Crossing project
24 (L1000147). At least ten business days before advancing a project
25 pursuant to this subsection, the department must notify the office of
26 financial management and the transportation committees of the

34 system. The amount listed in this subsection is not a commitment for
35 future legislatures, but is the legislature's intent that future
36 legislatures will work to approve biennial appropriations up to a
37 state match share not to exceed \$6,696,000 of a grant award.

38 (9) \$5,606,000 of the multimodal transportation account—state
39 appropriation is provided solely as expenditure authority for any
40 insurance proceeds received by the state for Passenger Rail Equipment

1 Replacement (project 700010C). The department must use this
2 expenditure authority only to purchase passenger rail equipment that
3 has been competitively procured.

7 safety program projects selected in the previous biennia (L2000188).

8 (b) \$11,400,000 of the motor vehicle account—federal

13 multimodal transportation account—state appropriation, and
14 (~~(\$4,287,000)~~) \$3,487,000 of the highway safety account—state
15 appropriation are reappropriated for safe routes to school projects
16 selected in the previous biennia (L2000189). The department may
17 consider the special situations facing high-need areas, as defined by
18 schools or project areas in which the percentage of the children
19 eligible to receive free and reduced-price meals under the national
20 school lunch program is equal to, or greater than, the state average
21 as determined by the department, when evaluating project proposals
22 against established funding criteria while ensuring continued
23 compliance with federal eligibility requirements.

24 (3) The department shall submit a report to the transportation
25 committees of the legislature by December 1, 2017, and December 1,
26 2018, on the status of projects funded as part of the pedestrian

28 but is not limited to, a list of projects selected and a brief
29 description of each project's status.

1 by the department may receive funding under this subsection. The
2 department shall continue to work with the Washington state freight
3 advisory committee to improve project screening and validation to
4 support project prioritization and selection, including during the
5 freight mobility plan update in 2017. The department may compete for
6 funding under this program and shall provide an updated prioritized
7 freight project list when submitting its 2019-2021 budget request. To
8 the greatest extent practicable, the department shall follow the
9 Washington state freight advisory committee recommendation to
10 allocate ten percent of the funds in this subsection to multimodal
11 projects as permitted under the fixing America's surface
12 transportation (FAST) act.

13 (6) It is the expectation of the legislature that the department
14 will be administering a local railroad crossing safety grant program
15 for \$7,400,000 in federal funds during the 2017-2019 fiscal biennium.
16 Of the amounts identified in this subsection, a minimum of \$500,000

23 transportation document referenced in subsection (1) of this section
24 are not a commitment by future legislatures, but it is the
25 legislature's intent that future legislatures will work to approve
26 appropriations in the 2019-2021 fiscal biennium to reimburse the city
27 of Covington for approved work completed on the project up to the
28 full \$24,000,000 cost of this project.

29 (8) (a) For projects funded as part of the 2015 connecting
30 Washington transportation package listed on the LEAP transportation
31 document identified in subsection (1) of this section, if the
32 department expects to have substantial reappropriations for the
33 2019-2021 fiscal biennium, the department may, on a pilot basis,
34 apply funding from a project with an appropriation that cannot be
35 used for the current fiscal biennium to advance one or more of the
