
SENATE BILL 5322

State of Washington

69th Legislature

2025 Regular Session

By Senators Chapman, J. Wilson, and MacEwen

1 AN ACT Relating to addressing the impacts of burrowing shrimp on
2 bottom culture shellfish farming through integrated pest management
3 research; reenacting and amending RCW 43.79A.040 and 43.79A.040;
4 adding new sections to chapter 15.85 RCW; creating a new section;
5 providing an effective date; and providing expiration dates.

6 BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF WASHINGTON:

7 NEW SECTION. **Sec. 1.** (1) The legislature finds that in 2014,
8 shellfish growers were dealt a significant setback when they lost
9 their primary tool for controlling burrowing shrimp infestations in
10 coastal estuaries. Burrowing shrimp in high densities pose a
11 significant threat to shellfish farming operations and the
12 surrounding aquatic ecosystem, causing damage to shellfish growing
13 areas, negatively impacting productivity, and eliminating the growth
14 of native eelgrass which provides essential habitat for salmonids and
15 Dungeness crab, among other species.

16 (2) In addition, the legislature finds that since 1963, a control
17 method developed in collaboration with the Washington state
18 department of fish and wildlife had been effectively utilized.
19 However, the phased-out use of carbaryl and the denial of a permit to
20 use imidacloprid by the Washington state department of ecology left
21 growers without crucial pest control measures. Burrowing shrimp

1 infestations on shellfish grounds has led to a reduction in growing
2 operations due to the absence of an effective control tool, and
3 despite persistent efforts a viable alternative remains elusive.

4 (3) To address this ongoing crisis, the legislature intends to
5 create an ongoing research program within the Washington state
6 department of agriculture and fund research into new and innovative
7 control methods for burrowing shrimp infestations. To support this
8 program, the legislature intends to secure dedicated funding in the
9 amount of \$2,000,000 each biennium from the model toxics control act
10 account.

11 NEW SECTION. **Sec. 2.** A new section is added to chapter 15.85
12 RCW to read as follows:

13 (1) The department of agriculture shall establish and administer
14 an integrated pest management research program that focuses on
15 addressing the impacts of burrowing shrimp on bottom culture
16 shellfish farming. The program must work towards the following
17 objectives:

18 (a) Support and recommend funding for research efforts focused on
19 enhancing the resilience and productivity of shellfish farming and
20 the marine ecosystem in the face of burrowing shrimp infestations.

21 (b) Facilitate and enhance collaboration between researchers,
22 shellfish farmers, regulatory agencies, and relevant stakeholders to
23 ensure permanent, practical, and effective solutions.

24 (2) To accomplish its objectives, the program must do the
25 following:

26 (a) Solicit researchers with expertise in marine biology,
27 agriculture, ecology, engineering, and related fields to submit
28 proposals for burrowing shrimp control research projects.

29 (b) Identify and provide ground for controlled research that
30 explores diverse control methods including both chemical and
31 mechanical control.

32 (c) Identify funding mechanisms for future equipment needs based
33 on tool and technology development.

34 (d) Provide permitting assistance for shellfish growers to use
35 identified control methods.

36 (3) The governing board created in section 3 of this act is
37 responsible for reviewing research proposals, ensuring transparency
38 and accountability in implementing the program, and directing the
39 department of agriculture on the expenditure of research grant funds.

1 (4) Research expenditures may only be spent on projects that
2 support control of burrowing shrimp in Willapa Bay and Grays Harbor.
3 Any control method that has been demonstrated as ineffective in past
4 studies is not eligible for funding.

5 NEW SECTION. **Sec. 3.** A new section is added to chapter 15.85
6 RCW to read as follows:

7 (1) The director of the department of agriculture, in
8 collaboration with legislators representing legislative districts
9 that border the Pacific Ocean and an association that supports oyster
10 growers in the Willapa Bay and Grays Harbor region, shall establish a
11 governing board consisting of representatives from the following
12 entities to oversee the research program established in section 2 of
13 this act:

14 (a) One member each from the departments of agriculture, ecology,
15 natural resources, fish and wildlife, and commerce, and the state
16 conservation commission;

17 (b) Five shellfish growers of varying sizes located in the
18 Willapa Bay and Grays Harbor region;

19 (c) Two shellfish processors located in the Willapa Bay and Grays
20 Harbor region;

21 (d) Shoalwater Bay Indian tribe;

22 (e) The executive director of an association supporting oyster
23 growers in the Willapa Bay and Grays Harbor region;

24 (f) One member representing a nonprofit organization that
25 develops and disseminates scientific and technical shellfish-related
26 environmental and health and safety information; and

27 (g) One member from an ecosystem-based management collaborative
28 in the Willapa Bay and Grays Harbor area, to serve in an ex officio
29 capacity.

30 (2) The governing board must identify an objective and effective
31 facilitator to moderate meetings and serve as an additional ex
32 officio member.

33 (3) Members of the governing board must have a clear stake or
34 vested interest in the preservation and sustainability of the
35 shellfish industry, be knowledgeable about the impacts of burrowing
36 shrimp on shellfish farming, and have a special interest in
37 identifying tools to control burrowing shrimp with an emphasis on
38 bottom culture shellfish farming.

1 (4) The governing board must meet monthly and implement
2 discussion parameters to ensure productive and efficient meetings
3 that focus on bottom culture shellfish farming in coastal estuaries.
4 The governing board must establish a consensus decision-making
5 process whereby the participants develop and decide on proposals with
6 the goal of achieving broad acceptance. In the absence of consensus
7 on any proposal before the governing board, the proposal may be
8 approved by a simple majority of appointed governing board members.

9 (5) Governing board members are eligible for reimbursement for
10 subsistence, lodging, and travel expenses incurred in the performance
11 of their duties pursuant to RCW 43.03.050.

12 NEW SECTION. **Sec. 4.** A new section is added to chapter 15.85
13 RCW to read as follows:

14 The burrowing shrimp research account is created in the custody
15 of the state treasurer. All receipts from legislative transfers,
16 gifts, grants, and federal funds must be deposited into the account.
17 It is the intent of the legislature to appropriate in the omnibus
18 appropriations act \$2,000,000 per biennium from the model toxics
19 control operating account into the burrowing shrimp research account.
20 Expenditures from the account may be used only for the burrowing
21 shrimp research program. Only the director of the department of
22 agriculture or the director's designee may authorize expenditures
23 from the account. The account is subject to allotment procedures
24 under chapter 43.88 RCW, but an appropriation is not required for
25 expenditures.

26 **Sec. 5.** RCW 43.79A.040 and 2024 c 327 s 16 and 2024 c 168 s 10
27 are each reenacted and amended to read as follows:

28 (1) Money in the treasurer's trust fund may be deposited,
29 invested, and reinvested by the state treasurer in accordance with
30 RCW 43.84.080 in the same manner and to the same extent as if the
31 money were in the state treasury, and may be commingled with moneys
32 in the state treasury for cash management and cash balance purposes.

33 (2) All income received from investment of the treasurer's trust
34 fund must be set aside in an account in the treasury trust fund to be
35 known as the investment income account.

36 (3) The investment income account may be utilized for the payment
37 of purchased banking services on behalf of treasurer's trust funds
38 including, but not limited to, depository, safekeeping, and

1 disbursement functions for the state treasurer or affected state
2 agencies. The investment income account is subject in all respects to
3 chapter 43.88 RCW, but no appropriation is required for payments to
4 financial institutions. Payments must occur prior to distribution of
5 earnings set forth in subsection (4) of this section.

6 (4)(a) Monthly, the state treasurer must distribute the earnings
7 credited to the investment income account to the state general fund
8 except under (b), (c), and (d) of this subsection.

9 (b) The following accounts and funds must receive their
10 proportionate share of earnings based upon each account's or fund's
11 average daily balance for the period: The 24/7 sobriety account, the
12 Washington promise scholarship account, the Gina Grant Bull memorial
13 legislative page scholarship account, the Rosa Franklin legislative
