SUBSTITUTE SENATE BILL 5557

State of Washington 66th Legislature 2019 Regular Session

By Senate Local Government (originally sponsored by Senators Liias, Hunt, Van De Wege, Das, Kuderer, and Takko)

- AN ACT Relating to seismic hazard risk reduction; adding new sections to chapter 70.86 RCW; adding a new section to chapter 19.27 RCW; adding a new section to chapter 38.52 RCW; creating a new section; and providing an expiration date.
- 5 BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF WASHINGTON:
- 6 NEW SECTION. Sec. 1. (1) The legislature finds that Washington 7 state has the second highest earthquake risk in the United States. The seven hundred mile cascadia subduction zone represents an extreme 8 threat to the Pacific Northwest, capable of generating a nine point 9 10 zero or higher earthquake and tsunami. The most recent studies 11 estimate ten thousand fatalities and direct economic losses of more 12 than eighty billion dollars combined for Washington and Oregon. In 13 addition to the cascadia subduction zone offshore, Washington's mainland is littered with active crustal faults which pose seismic 14 15 hazards. The histories and hazards of many of these faults are still 16 being uncovered. The legislature finds that developing a state that 17 is prepared for these impending natural disasters will significantly 18 mitigate the damage they can cause to its people, property, economy, 19 and long-term survival.
 - (2) To that end, the legislature finds that important to this preparation effort is the concept of functional recovery: A

p. 1 SSB 5557

1 building's ability to support its intended use and occupancy, following a seismic event. Therefore, it is the intent of the 2 3 legislature to convene a task force to develop criteria and implementation measures necessary for the adoption of a functional 4 recovery standard to apply to all emergency services and state-owned 5 6 buildings. The criteria developed by this task force will ensure that in the event of seismic disaster, emergency crews will be able to 7 respond immediately to crisis and people will have a place to seek 8 shelter and refuge. Furthermore, the legislature intends to create a 9 10 position dedicated to seismic hazard works within the state military 11 department, provide a tax preference to encourage functional recovery 12 construction, establish a grant program for unreinforced masonry buildings, and authorize local governments to incentivize functional 13 14 recovery in order to mitigate earthquake disaster. These measures are 15 essential to protect the health, safety, and welfare of the people of the state of Washington. 16

NEW SECTION. Sec. 2. A new section is added to chapter 70.86
RCW to read as follows:

The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.

- (1) "Emergency services building" means any building, including buildings designed and constructed, for public agencies used, or designed to be used, or any building a portion of which is used, or designed to be used, as a fire station, police station, emergency operations center, Washington state patrol office, sheriff's office, emergency communication dispatch center, or emergency shelter.
- (2) "Functional recovery standard" means a set of enforceable building code provisions and regulations that provide specific design and construction requirements intended to result in a building for which postearthquake structural and nonstructural capacity are maintained or can be restored to support the basic intended functions of the building's preearthquake use and occupancy within a maximum acceptable time, where the maximum acceptable time might differ for various uses or occupancies.
- (3) "Unreinforced masonry building" means a building with one or more bearing walls made of plain clay brick or clay tile masonry that provide the primary support for vertical loads from floors or roofs.

p. 2 SSB 5557

- 1 <u>NEW SECTION.</u> **Sec. 3.** A new section is added to chapter 70.86 2 RCW to read as follows:
 - The functional recovery task force is established to determine criteria and implementation measures necessary for the adoption of a functional recovery standard for all emergency services buildings and state-owned buildings.
 - (2) Implementation measures must include:
 - (a) Integration of infrastructure necessary to support functional recovery, including but not limited to water availability, electrical power, transportation, communications, fuel, and other services;
- 11 (b) Practical means for implementing a functional recovery 12 standard, including:
 - (i) Amendments to the state building code;
 - (ii) Estimated costs for compliance;
- 15 (iii) Practical financial incentives and programs, including 16 public-private partnerships to cover costs; and
 - (iv) Education and outreach.

- (3) The work of the task force must be prioritized as follows:
- (a) Determination of criteria and implementation measures for the adoption of a functional recovery standard for all new emergency 21 services buildings and state-owned buildings;
- 22 Identification of practical means for the 23 retrofitting of all existing emergency services buildings and state-24 owned buildings; and
 - (c) Defining and establishing criteria and implementation measures for an immediate occupancy standard as considered in the National Institute of Standards and Technology (NIST) Special Publication 1224: Research Needs to Support Immediate Occupancy Building Performance Objective Following Natural Hazard Events.
- (4) In order to determine criteria for a functional recovery 30 31 standard, the task force may examine:
- 32 (a) The NIST report referenced in subsection (3)(c) of this 33 section;
- 34 (b) California Administrative Code, Part 1, Chapter Administrative Regulations for the Division of the State Architect, 35 36 Structural Safety; and
- (c) Any other relevant reports, industry and government 37 38 standards, best practices, or academic research.
 - (5) The task force must consist of:

p. 3 SSB 5557

- (a) Two members from the house of representatives, with one member appointed from each of the two major caucuses of the house of representatives by the speaker of the house of representatives and the minority leader of the house of representatives;
- (b) Two members from the senate, with one member appointed from each of the two major caucuses of the senate by the majority leader and minority leader of the senate; and
- 8 (c) Appropriate representatives from public and private sector 9 entities, including but not limited to the:
 - (i) State building code council;
 - (ii) State military department;
- 12 (iii) Office of the insurance commissioner;
- 13 (iv) Department of enterprise services;
- 14 (v) Department of natural resources;
- 15 (vi) Department of ecology;
- 16 (vii) Local governments;

- 17 (viii) Department of commerce;
- 18 (ix) State board for architects;
- 19 (x) Building officials;
- 20 (xi) State fire marshal;
- 21 (xii) Structural and civil engineers;
- 22 (xiii) Insurance industry;
- 23 (xiv) Construction industry;
 - (xv) Washington geological survey;
- 25 (xvi) International code council; and
- 26 (xvii) First responders.
 - (6) Staff support for the task force must be provided by the senate committee services and the house of representatives office of program research.
 - (7) Legislative members of the task force are reimbursed for travel expenses in accordance with RCW 44.04.120. Nonlegislative members are entitled to be reimbursed for travel expenses if they are elected officials or are participating on behalf of an employer, governmental entity, or other organization. Any reimbursement for other nonlegislative members is subject to chapter 43.03 RCW.
 - (8) The expenses of the task force must be paid jointly by the senate and the house of representatives. Task force expenditures are subject to approval by the senate facilities and operations committee and the house of representatives executive rules committee, or their successor committees.

p. 4 SSB 5557

- 1 (9) The task force must provide periodic progress reports after 2 the completion of each priority listed in this section to the 3 governor and the appropriate committees of the legislature. The 4 progress reports must include findings, successes, challenges, and 5 any recommendations to the legislature to assist the task force in 6 its work.
- 7 (10) By December 1, 2021, and in compliance with RCW 43.01.036, 8 the task force must report its final set of findings and 9 recommendations to the governor and the appropriate committees of the 10 legislature.
- 11 (11) This section expires December 31, 2021.
- NEW SECTION. **Sec. 4.** A new section is added to chapter 70.86 RCW to read as follows:
- 14 Cities, towns, and counties are authorized to enact programs and 15 incentives to encourage new construction or seismic retrofitting that 16 meet a functional recovery standard, including but not limited to:
 - (1) Grant or loan programs;

- 18 (2) Tax exemptions, credits, or rebates;
- 19 (3) Architectural fee reimbursement; and
- 20 (4) Fee waivers, zoning modifications, transfer of development 21 rights, and on-site parking exemptions.
- NEW SECTION. Sec. 5. A new section is added to chapter 70.86 23 RCW to read as follows:
- 24 (1) To protect residents from the dangers posed by unreinforced 25 masonry buildings in the event of an earthquake, a state grant 26 program is established for improving the earthquake safety of 27 unreinforced masonry buildings.
- 28 (2) The department of commerce must develop and administer the program. The department may develop rules to administer the program.
- 30 (3) The department may consult with task force members as 31 referenced in section 3(5)(c) of this act and other interested 32 stakeholders in developing the program.
- 33 (4) Property owners may apply to the department for a grant to be 34 used for the seismic retrofit costs of unreinforced masonry 35 buildings.
- 36 (5) Grant awards must be determined through a competitive 37 process. The department must develop award criteria, including but

p. 5 SSB 5557

- not limited to the development of the relative weight to be assigned to the following criteria:
 - (a) The seismic retrofit's contribution towards public safety;
 - (b) The historic and cultural character of the building; and
 - (c) Avoidance of building demolition or vacancy.
- 6 (6) All grant awards must be matched by a one-to-one private-to-7 state match.
- 8 <u>NEW SECTION.</u> **Sec. 6.** A new section is added to chapter 19.27 9 RCW to read as follows:
- By December 31, 2025, in addition to the provisions of RCW 19.27.031, the state building code must consist of Appendix A of the 2018 International Existing Building Code, published by the International Code Council, Inc., which provides guidelines for the
- 14 seismic retrofit of existing buildings.

- NEW SECTION. Sec. 7. A new section is added to chapter 38.52 RCW to read as follows:
- 17 (1) The military department emergency management division must 18 synchronize catastrophic planning and preparedness activities for 19 seismic hazards across all levels of government. The division will 20 develop strategies to address the resilience for key lifeline 21 critical infrastructure such as critical transportation, emergency 22 communications, power, water, wastewater, and fuel.
 - (2) In addition, the military department emergency management division must partner with local government jurisdictions, nongovernmental associations, state agencies, and other relevant organizations to improve seismic risk reduction in Washington. Activities may include, but are not limited to: Synchronizing catastrophic planning and preparedness activities; catastrophic incident response planning; alert and warning; a recovery framework that establishes standards for recovery; and other initiatives as determined by the functional recovery task force established in section 3 of this act.
