Description driver education and testing related to school bus safety					

Assumptions Used in Arriving at Fiscal Estimate

This bill mandates three changes in the teaching of Wisconsin drivers about school bus safety by requiring: driver education include school bus safety, the driver's skills test include school bus safety, and that the Department administer a verbal school bus safety examination upon renewal of driver licenses.

The first two requirements should not create a financial burden on the Department as school bus safety is already part of Wisconsin driver education and included in the driver's skills test administered by the Division of Motor Vehicles.

Requiring that the Division of Motor Vehicles administer a verbal school bus safety examination upon renewal of driver licenses will create an additional step to those transactions. There were approximately 540,000 driver license renewals in CY2022. The addition of one-minute to the transaction for administering a verbal test on school bus safety for each renewal will result in an increase in work equivalent to 4.33 FTE at an annual cost of \$269,900.

Long-Range Fiscal Implications

This bill is estimated to increase the Division of Motor Vehicles service work by \$269,900 annually.
