Analysis by the Legislative Reference Bureau

Under current law, an individual who is eligible to claim the federal child and dependent care tax credit may claim a state income tax credit equal to 50 percent of the amount the individual may claim as a federal income tax credit. However, the amount of employment-related expenses that an individual may claim to determine the amount of the federal credit is limited to \$3,000 if the individual has only one qualifying dependent, and \$6,000 if the individual has two or more qualifying dependents.

This bill increases the amount of the state credit that an individual may claim by increasing the employment-related expense limitation to \$10,000 for one qualifying dependent and \$20,000 for two or more qualifying dependents.

For further information see the state fiscal estimate, which will be printed as an appendix to this bill.
