***Analysis by the Legislative Reference Bureau***

Under current law, beginning with the property tax assessments as of January 1, 2018, machinery, tools, and patterns, not including those items used in manufacturing, are exempt from the personal property tax. However, beginning in 2019, the state pays each taxing jurisdiction an amount equal to the property taxes levied on those items of personal property for the property tax assessments as of January 1, 2017.

Under the bill, beginning with the property tax assessments as of January 1, 2023, no items of personal property will be subject to the property tax.

The bill also makes a number of technical changes related to the repeal of the personal property tax, such as providing a process whereby manufacturing establishments located in this state that do not own real property in this state may continue to claim the manufacturing income tax credit.

Because this bill relates to an exemption from state or local taxes, it may be referred to the Joint Survey Committee on Tax Exemptions for a report to be printed as an appendix to the bill.

For further information see the state and local fiscal estimate, which will be printed as an appendix to this bill.
