### *Analysis by the Legislative Reference Bureau*

This bill establishes a rural pharmacy practice grant program administered by the Higher Educational Aids Board to encourage pharmacists to engage in the practice of pharmacy in medically underserved areas in this state. To be eligible for the program, a pharmacist must engage in the practice of pharmacy in a medically underserved area in this state and commit to do so for at least three years after graduation from a school of pharmacy. For purposes of the bill, a “medically underserved area” is an area designated as such by the secretary of the federal Department of Health and Human Services. Under the program, an eligible pharmacist may be provided up to \$30,000 per year in financial assistance for up to three years. However, HEAB may provide financial assistance to no more than 10 pharmacists per year. A student enrolled in a school of pharmacy may apply to the program prior to becoming a licensed pharmacist. Financial assistance to a pharmacist participating in the program is provided after the pharmacist’s year of pharmacy practice in a medically underserved area in this state.

Under the bill, any amount of financial assistance that a pharmacist receives under the program is exempt from taxation.

**ASSEMBLY BILL 255**

Because this bill relates to an exemption from state or local taxes, it may be referred to the Joint Survey Committee on Tax Exemptions for a report to be printed as an appendix to the bill.
