1 **AN ACT** *to create* 16.314 of the statutes; **relating to:** employment screening of  
2 and employability plans for residents in public housing.

---

### *Analysis by the Legislative Reference Bureau*

Under this bill, to the extent allowed under federal law, the Department of Administration shall require that public housing authorities do all of the following:

1. Conduct screening of adult residents to determine whether a resident is able-bodied and either unemployed or underemployed.
2. Create an employability plan for each resident the housing authority determines is able-bodied and either unemployed or underemployed and require the resident to participate in the plan.
3. Require each resident the housing authority determines is able-bodied and either unemployed or underemployed to complete a questionnaire or other screening instrument concerning the abuse of controlled substances. If, on the basis of screening results, the housing authority determines that there is a reasonable suspicion that a resident is abusing a controlled substance, the housing authority must require the resident to undergo a test for the use of a controlled substance. If a resident tests positive for the use of a controlled substance, the housing authority must offer the resident the opportunity to participate in substance abuse treatment unless the resident has a valid prescription for the controlled substance.

For further information see the *state and local* fiscal estimate, which will be printed as an appendix to this bill.
