Analysis by the Legislative Reference Bureau

EARLY CANVASSING OF ABSENTEE BALLOTS

Under current law, absentee ballots may not be canvassed until election day. Current law additionally provides that any municipality may provide by ordinance

ASSEMBLY BILL 567

that, in lieu of canvassing absentee ballots at polling places, a municipal board of absentee ballot canvassers established by the municipality is responsible for canvassing all absentee ballots received by the municipal clerk by 8 p.m. on election day. In such a municipality, the board of absentee ballot canvassers is required to convene a meeting any time after the polls open and before 10 p.m. on election day to canvass the absentee ballots cast in the municipality in the election. Among the requirements governing such a meeting, any member of the public has the same right of access to the meeting that the individual would have to observe the canvassing of absentee ballots at a polling place.

This bill does all of the following:

1. Requires the municipal board of absentee ballot canvassers in a municipality having an ordinance described above to begin canvassing absentee ballots on the day before an election. Canvassing absentee ballots on the day before the election is optional except for each spring and general election and each special election or recall election if the special or recall election is for a state or national office.

2. Provides that the board of absentee ballot canvassers must publicly convene at 7 a.m. on the day before the election to begin the canvass of absentee ballots for the municipality and recess at 8 p.m. on that day.

3. Requires that at 7 a.m., noon, and 8 p.m. on the day before the election, and at 7 a.m., noon, and 8 p.m. on election day, the municipal clerk or his or her designee or the municipal board of election commissioners must provide to the county clerk or county board of election commissioners of the county in which the municipality is located a statement that shows the total number of absentee ballots returned to the municipality and the total number of absentee ballots the municipal board of absentee ballot canvassers has canvassed. The county clerk or county board of election commissioners must promptly post each statement on the website on which returns for the county are posted on election night. In a municipality having a municipal board of election commissioners (currently, only the city of Milwaukee), the municipal board of election commissioners must also post the statement on the website maintained by the municipal board of election commissioners. The statement may not include the names or addresses of any electors. An absentee ballot is considered canvassed for purposes of this reporting requirement only after all tasks have been completed in the canvassing process except for the tallying of votes.

4. Requires that when the meeting of the board of absentee ballot canvassers recesses on the day before the election, the board must secure the automatic tabulating equipment, and the areas where the programmed media, memory devices, and absentee ballots are housed, with tamper-evident security seals in a double-lock location such as a locked cabinet inside a locked office. Before resuming the canvassing of absentee ballots, the board must check and record the status of each tamper-evident seal and must immediately notify the Elections Commission of any evidence of tampering. If the board discovers evidence of tampering with respect to automatic tabulating equipment, the canvass may not resume until the equipment is replaced and the replacement equipment is tested. Also, if the board discovers evidence of tampering, the Elections Commission must verify the accuracy

ASSEMBLY BILL 567

of the absentee ballot count by ordering the municipality to conduct a recount after the election and conducting an audit of the election equipment.

5. Provides that votes on absentee ballots canvassed early under the bill may not be tallied until after the polls close on election day.

6. Provides that no person may act in a manner that would give him or her the ability to know or to provide information on the tallied results from the ballots canvassed under the bill before the polls close on election day. Whoever intentionally violates that prohibition is guilty of a Class I felony, the penalty for which is a fine not to exceed \$10,000 or imprisonment not to exceed three years and six months, or both.

7. Authorizes municipalities not having a board of absentee ballot canvassers to begin processing absentee ballots beginning at 7 a.m. on the day before the election subject to some of the requirements described above. In order to canvass absentee ballots early, such a municipality must provide by ordinance that absentee ballots received by the municipal clerk may be canvassed on the day before the election. Prior to enacting the ordinance, the municipal clerk must notify the Elections Commission in writing of the proposed ordinance and must consult with the Elections Commission concerning the early canvassing of absentee ballots.

Finally, under current law, criminal penalties are provided for election officials who commit certain specified kinds of election fraud. Otherwise, the willful neglect or refusal of an election official to perform a duty prescribed under the election laws is punishable by disqualification to act as an election official for five years. Under the bill, a member of the municipal board of absentee ballot canvassers or other election official who willfully neglects or refuses to perform any of the duties prescribed under the bill, and other duties prescribed under current law, with respect to the canvassing of absentee ballots by a municipal board of absentee ballot canvassers is guilty of a Class I felony.

USE OF CENTRAL COUNTING LOCATIONS

Under current law, votes are canvassed at the polling place after polls close on election day, except that any municipality where an electronic voting system is used may elect to adjourn the canvass to a central counting location where votes cast at multiple polling places in the municipality may all be counted after the polls close on election day. The bill eliminates the option for municipalities to use such central counting locations.

ELECTION NIGHT REPORTING

Under the bill, at 9 p.m. on election night, and every hour thereafter until the canvass is complete, each municipal clerk or his or her designee must provide to the county clerk of the county in which the municipality is located a statement that shows the total number of ballots, including absentee ballots, cast at the municipality in the election, the total number of ballots, including absentee ballots, that have been canvassed, and the total number of ballots, including absentee ballots, that remain to be canvassed. The county clerk must promptly post each statement on the website on which the county clerk posts returns on election night. In a municipality having a municipal board of election commissioners (currently, only the city of Milwaukee), the municipal board of election commissioners must also

ASSEMBLY BILL 567

post the statement on the website maintained by the municipal board of election commissioners. The statement may not include the names or addresses of any electors.

TIMELINE FOR SENDING OR TRANSMITTING ABSENTEE BALLOTS

Current law requires a municipal clerk to send an absentee ballot for each partisan primary, presidential preference primary, and general election to all electors requesting the ballot, including military and overseas electors, no later than the 47th day before the partisan primary, presidential preference primary, or general election or, if the request is not made before that day, within one business day after the request is received. For all other primaries and elections, the municipal clerk must send or transmit the absentee ballot no later than the 21st day before the primary or election or, if the request is not made before that day, within one business day after the request is received.

Under the bill, a municipal clerk must send or transmit an absentee ballot for all primaries and elections, regardless of the type of primary or election, to electors other than military and overseas electors no later than the 21st day before the primary or election or, if the request is not made before that day, within one business day after the request is received. Under the bill, a municipal clerk must send or transmit an absentee ballot for all primaries and elections, regardless of the type of primary or election, to military and overseas electors no later than the 45th day before the primary or election or, if the request is not made before that day, within one business day after the request is received. That 45th day timeline is consistent with federal law.

WHISTLEBLOWER PROTECTIONS

The bill provides whistleblower protection for municipal clerks who witness and report election fraud or irregularities. Under the bill, no municipal clerk may be discriminated against in regard to employment, including by being discharged, disciplined, or demoted, as a reprisal because the clerk lawfully reported, or is believed to have reported, witnessing what the clerk reasonably believed to be election fraud or irregularities.

COURT DETERMINATIONS OF INCOMPETENCY AND INELIGIBILITY TO VOTE

Under current law, no person who is incapable of understanding the objective of the elective process or who is under a guardianship may vote unless a court has determined that the person is competent to vote. Current law also allows any voter in a municipality to petition the circuit court to determine whether a person residing in the municipality is incapable of understanding the objective of the elective process. If the court determines that the person is incapable of such understanding, the person is not eligible to register to vote or to vote. Current law requires the clerk of the circuit court to communicate the court's determinations, in writing, to the election officials who are responsible for determining challenges to registration and voting that may be brought against the person.

This bill requires the circuit court, no later than one business day after the date of a determination by the court, to notify the Elections Commission of the court's determination regarding incompetency and ineligibility to vote. Under the bill, when the commission receives a determination of incompetency and ineligibility to

ASSEMBLY BILL 567

vote, the commission must, within one business day, change the status of the voter subject to the determination to inactive on the official voter registration list, note on the list that the voter is ineligible to vote, and notify the voter's municipal clerk of the voter's change in status. The bill also provides that if a court reviews a determination of ineligibility to vote and restores the voter's right the vote, upon receipt of that determination, the commission must, within one business day, change the voter's status on the official voter registration list to active, note on the list that the voter is eligible to vote, and notify the municipal clerk of the voter's change in status.

VERIFICATIONS OF VOTER CITIZENSHIP STATUS

Current law requires the administrator of the Elections Commission to enter into an agreement with the secretary of transportation to match personally identifiable information on the official voter registration list with the information maintained by the Department of Transportation. Under this bill, the agreement with the secretary of transportation must also provide the commission access to personally identifiable information maintained by DOT in order to verify that individuals on the official registration list are U.S. citizens. In addition, the bill requires the commission to conduct the verifications as soon as practicable after the effective date of the bill and immediately whenever an individual registers to vote or modifies his or her registration.

For further information see the state and local fiscal estimate, which will be printed as an appendix to this bill.

The people of the state of Wisconsin, represented in senate and assembly, do enact as follows:

4 information maintained by the department of transportation. The agreement shall

5 names provided in the notices of ineligibility received under s. 54.25 (2) (c) 1. g. If
6 the commission finds that the name of any person whose name appears on the list
7 transmitted under s. 301.03 (20m), or in a notice of ineligibility received under s.
8 54.25 (2) (c) 1. g., has been added to the registration list, the commission shall enter

3 municipal clerk or an election official shall witness the certificate for any in-person
4 absentee ballot cast. Except as provided in par. (c), if the elector is making written
5 application for an absentee ballot at the partisan primary, the general election, the

22 **SECTION 18.** 6.87 (6) of the statutes is amended to read:

23 6.87 (6) The ballot shall be returned so it is delivered to the ~~polling place~~
24 election inspectors of the proper ward or election district no later than 8 p.m. on
