Analysis by the Legislative Reference Bureau

This bill requires the Department of Public Instruction, in consultation with the International Dyslexia Association–Wisconsin Branch, Inc., to develop or adopt an online dyslexia awareness training. The training must cover the indicators of dyslexia and evidence-based interventions and adaptations for dyslexia. Additionally, if DPI develops the online dyslexia awareness training, the bill requires DPI to design the training so that it can be completed in no more than two hours.

Under the bill, in the 2020–21 school year, each school board must require each teacher, supervisor, administrator, professional staff member, and paraprofessional staff member in the school district to complete the online dyslexia awareness training. Beginning in the 2021–22 school year, the bill requires each school board to require each newly hired teacher, supervisor, administrator, professional staff member, and paraprofessional staff member to complete the online dyslexia training within six months of becoming an employee of the school district.
