

State of Wisconsin  
2019 - 2020 LEGISLATURE

LRB-4405/1  
MCP:skw

## 2019 ASSEMBLY BILL 812

January 27, 2020 - Introduced by Representative TAUCHEN, cosponsored by Senator JACQUE. Referred to Committee on Rural Development.

\*\*\*AUTHORS SUBJECT TO CHANGE\*\*\*

1     **AN ACT** *to create* 95.185 of the statutes; **relating to:** creating a voluntary  
2           individual animal identification program and granting rule-making authority.

---

***Analysis by the Legislative Reference Bureau***

This bill requires the Department of Agriculture, Trade and Consumer Protection to create a voluntary individual animal identification program for livestock owners. Under the program, DATCP must maintain an online list of retailers that supply radio frequency identification (RFID) tags. An RFID tag must include a 15-digit individual animal identification number that is connected to the livestock premises identification code for the animal's premises of origin. The bill also allows DATCP to contract with an agent to collect and maintain individual animal identification records, which may include submitting the information to an existing state or federal database.

For further information see the **state** fiscal estimate, which will be printed as an appendix to this bill.

---

***The people of the state of Wisconsin, represented in senate and assembly, do enact as follows:***

3           **SECTION 1.** 95.185 of the statutes is created to read:

**ASSEMBLY BILL 812****SECTION 1**

1           **95.185 Voluntary individual animal identification.** (1) DEFINITION. In  
 2 this section, "RFID tag" means a radio frequency identification tag, regardless of  
 3 whether it uses low or high frequency technology.

4           (2) VOLUNTARY INDIVIDUAL ANIMAL IDENTIFICATION. The department shall create  
 5 and administer a voluntary program under which a person who has obtained a  
 6 livestock premises registration under s. 95.51 may obtain RFID tags for individual  
 7 bovine animals, goats, sheep, swine, or farm-raised deer. An RFID tag must include  
 8 a 15-digit individual animal identification number that is connected to the livestock  
 9 premises identification code for the animal's premises of origin. As part of the  
 10 program under this section, the department shall maintain on its Internet site a list  
 11 of retailers that supply RFID tags and their contact information. The department  
 12 may contract with an agent to collect and maintain individual animal identification  
 13 records, which may include submitting the information to an existing state or federal  
 14 database. The department may promulgate rules to implement this section.
