### *Analysis by the Legislative Reference Bureau*

This bill does the following related to the practice of private security persons:

1. Requires a private security person or private detective who holds a license to carry a concealed weapon to obtain a certificate from the Department of Safety and Professional Services to carry a weapon while on duty.

2. Specifies that a city, village, town, or county may enact and enforce ordinances prohibiting persons from acting as a private security person without a permit granted by DSPS and from employing or contracting with an individual to act as a private security person without a DSPS permit. Current law generally requires a person to obtain a permit granted by DSPS to act as a private security person.

3. Requires local law enforcement personnel to report to DSPS alleged violations of the private security person, private detective, and private detective agency laws.

4. Prohibits a person from submitting to DSPS an application for a private security person permit on behalf of another individual. The bill also allows an individual's employer to reimburse the individual for the initial permit fee charged by DSPS and requires an individual to whom a permit is granted to notify the individual's employer.

**ASSEMBLY BILL 904**

5. Requires DSPS to submit an annual report to the legislature that includes information on complaints received related to private security persons, private detectives, and private detective agencies and DSPS's responses to those complaints.

For further information see the state fiscal estimate, which will be printed as an appendix to this bill.
