### *Analysis by the Legislative Reference Bureau*

Under current law, a municipal clerk may dispatch special voting deputies to a residential care facility or qualified retirement home so that the occupants of the facility or home may cast an absentee ballot in person with the special voting deputies rather than vote in person at the appropriate polling place or request and complete an absentee ballot by mail. Current law provides that the occupants of a retirement home that is not a qualified retirement home may vote in person at the appropriate polling place or request and complete an absentee ballot by mail. Under current law, a retirement home is a facility occupied as a primary residence by ten or more unrelated individuals. A qualified retirement home is a retirement home that has a significant number of occupants who lack adequate transportation to the polling place, need assistance in voting, are aged 60 or over, or are indefinitely confined. Current law also requires that if a retirement home is located within a municipality on the same grounds as one or more residential care facilities to which special voting deputies are dispatched the management of the retirement home shall provide the names and addresses of the home occupants to the clerk so that the special voting deputies may verify which electors are eligible to cast absentee ballots in person with the deputies.

This bill provides that if a retirement home that is not a qualified retirement home is located within a municipality as part of a multiple-use facility consisting of

one or more qualified retirement homes or residential care facilities to which special voting deputies are dispatched, the management of the retirement home must provide the clerk with the names and addresses of the occupants of the home. The clerk then provides the special voting deputies with the names and addresses of the verified residents who are eligible to cast absentee ballots in person with the deputies.
